Financial Services Commission of Ontario

STATEMENT OF PRIORITIES

June 2007

Introduction

The Financial Services Commission of Ontario (FSCO) is a regulatory agency established under the Financial Services Commission of Ontario Act, 1997 (FSCO Act).

Section 11 of the FSCO Act requires FSCO to deliver to the Minister of Finance and publish in the *Ontario Gazette* (by June 30th of each year), "a statement setting out the proposed priorities of the Commission for the fiscal year in connection with the administration of this Act and all other Acts that confer powers on or assign duties to the Commission or the Superintendent."

This is FSCO's tenth Statement of Priorities. It identifies key challenges facing FSCO, outlines proposed strategic priorities for the coming year, and notes recent progress on significant projects.

FSCO is comprised of three parts: the five-person Commission; the Superintendent of Financial Services and staff; and the Financial Services Tribunal. FSCO regulates insurance, pension plans, loan and trust corporations, credit unions/caisses populaires, mortgage brokers and co-operative corporations in Ontario.

As of March 1, 2007, FSCO regulated or registered 394 insurance companies, 8,086 pension plans, 219 credit unions and caisses populaires, 51 loan and trust corporations, 1,007 mortgage brokers, 1,599 co-operative corporations, as well as approximately 36,900 insurance agents, 3,837 corporate insurance agencies and 1,100 insurance adjusters. The regulated sectors represent a large, dynamic and evolving industry that plays a vital role in the economy of the province and the financial security of individuals and families.

Our Mandate

To protect the public interest and enhance public confidence in the regulated sectors, FSCO provides regulatory services that protect financial services consumers and pension plan beneficiaries, and support a healthy and competitive financial services industry.

Our Vision

We are committed to being a vigilant, fair-minded and forward-looking regulatory agency with a constructive and responsive presence in Ontario's financial services marketplace.

Key Challenges

FSCO engages in planning exercises to identify current and future strategic priorities to guide activities toward the achievement of its objectives. For this process to be effective, external factors affecting the financial services industry must be considered. FSCO continues to take into account the following challenges.

Globalization

The continuing trend toward globalization and international consolidation in the financial sectors is blurring jurisdictional lines. Today, financial services providers can reach out to consumers via the Internet and e-commerce technologies, depending less on the bricks and mortar based business models of the past. This has led to consolidations and mergers among financial institutions, increases in the number of multi-national companies providing financial services and vast changes in the way these services are delivered. In this online global marketplace, companies are no longer tethered to one or two business lines and can offer a broader range of financial services, many of which are subject to different regulatory regimes.

As a result of these factors, the production, marketing and delivery of financial services products has also changed, resulting in a further multiplication of regulatory issues. The new borderless frontier facilitated by technology challenges financial services regulators to address regulation using a broad cross-jurisdictional, cross-sectoral approach.

Regulatory renewal

Regulators must keep pace with today's rapidly changing financial services marketplace. For FSCO, this requires the adoption of refined methods of multi-sectoral regulation that address issues facing financial services providers both large and small, in a manner that best utilizes resources. Risk-based methods of regulation provide a means to achieve this aim, by using regulatory resources more efficiently and in areas where they have the greatest potential return. To employ these methods in the most effective manner possible, it is essential that regulators have tools at their disposal to collect and analyze relevant data.

Market conditions

Recent shifts in global economic activity have been reflected in the Canadian economy, contributing to uncertain market conditions. Despite the cooler economic climate, Ontario's growth has rebounded and is expected to strengthen as U.S. demand picks up steam and the lower Canadian dollar and oil prices stimulate economic activity. As a result, it is essential that regulators continue to effectively monitor and manage risk to enhance consumer confidence and public trust in the regulated sectors and contribute to a healthy financial services marketplace.

Consumer protection and education

Technological innovation in the financial services marketplace has empowered consumers, providing them with more products and services to choose from than ever before. While providing the benefit of increased opportunities, the complexity of a more diverse marketplace can also make it more difficult for consumers to make informed choices. More than ever, consumers are turning to professionals for assistance when making financial decisions. The expansion in financial services providers requires investment in a variety of initiatives by FSCO, to ensure we have the tools at our disposal to provide consumers with reliable information, protect them from illegal activity and assist them in resolving disputes when they arise.

What this means to FSCO

To meet these challenges, FSCO is guided by established strategic priorities. These priorities build on the delivery of the core activities FSCO carries out to achieve its mission. As each is significant, FSCO's strategic priorities are not ranked in any particular order:

I. Promote a coordinated national approach to regulatory issues.

II. Enhance the risk-based approach to regulation.

III. Review and recommend amendments to the regulatory framework to keep pace with changes in the marketplace.

IV. Improve delivery of services.

FSCO believes these strategic priorities and their associated initiatives, which are outlined on the following pages, will have a positive impact on consumers and pension plan beneficiaries. The pursuit of these priorities allows FSCO to fulfill its mandate to protect financial services consumers and pension plan beneficiaries and support a healthy and competitive financial services industry in Ontario.

To fulfill its mandate, FSCO has adopted a culture of partnership and dialogue. FSCO continues to benefit from strong collaboration with consumers, industry and other stakeholders. For this reason, many projects undertaken by FSCO are complex, involving many participants and requiring implementation in conjunction with federal and provincial jurisdictions. As a result, many initiatives span several years, with work continuing on an ongoing basis.

Technology plays an important role in helping FSCO maintain strong connections with stakeholders and provide information and services to them. To this end, FSCO has embraced all aspects of e-communications, conducting business with industry electronically and offering consumers online access to services and information. FSCO believes that with improved access to information, consumers and pension plan beneficiaries will be better equipped to make wise choices and protect their interests.

FSCO's Statement of Priorities includes a report on the progress of key initiatives identified in the previous year's statement. The report back section of this year's statement lists FSCO's accomplishments in the previous year and their intended benefits to stakeholders and the regulatory system.

Our Strategic Priorities

I. Promote a coordinated national approach to regulatory issues

FSCO continues to work with other Canadian regulators in coordinating regulation of the financial services industry at the national level.

FSCO supports the development of harmonized regulatory solutions through participation in the Joint Forum of Financial Market Regulators (Joint Forum), the Canadian Association of Pension Supervisory Authorities (CAPSA), the Canadian Council of Insurance Regulators (CCIR), the General Insurance Statistical Agency (GISA) and the Canadian Insurance Services Regulatory Organizations (CISRO).

FSCO is participating with these national organizations as a member of, or in some cases as lead of, committees and project teams that are mandated to undertake the following initiatives. Some of these projects will result in recommendations to member regulators and governments for statutory changes to achieve implementation. In Ontario, the recommendations will require review and approval by the Ontario government.

Joint Forum

- Continue work related to assessing and harmonizing point of sale disclosure for Individual Variable Insurance Contracts (IVICs, also known as segregated funds) and mutual funds to ensure consumers are aware of the risks and benefits of these investment products at the time of purchase.

- Work with the Financial Services Ombudsnetwork to define performance standards for dispute resolution services; build appropriate measurement and reporting systems around those standards; and promote harmonization and consistency among the industry level OmbudServices (Ombudsman for Banking Services and Investments, Canadian Life and Health Insurance OmbudService, General Insurance OmbudService).

- Continue to work with stakeholders to identify problems resulting from differences in investment rules for pension funds, mutual funds and other pooled investment funds. Develop recommendations for possible solutions and coordinate the implementation of adopted solutions.

- Examine the regulation of intermediaries and recommend ways to minimize possible conflicts. Promote equivalent consumer protection, focusing initially on intermediaries who sell mutual funds and IVICs.

- Continue to develop mechanisms to allow for more effective sharing of information on regulatory enforcement issues and actions across sectors and jurisdictions.

- Coordinate regulatory efforts on consumer information and education by creating an inventory of existing resources and content, looking at approaches taken in other jurisdictions and making recommendations for improvement.

- Undertake a review of the guidelines for Capital Accumulation Plans (CAPs) released by the Joint Forum in 2004, in an effort to measure the success of their implementation and determine if any additional work is required in this area. Examples of CAPs include: defined contribution registered pension plans, group registered retirement savings plans, group registered education savings plans and deferred profit sharing plans.

CAPSA

- Continue the development of a model pension statute that would serve as a model for federal and provincial governments to consider when they are making amendments to their pension legislation.

- Continue to work on the development of a multi-lateral agreement for the regulation of multi-jurisdictional pension plans to replace the existing 1968 Reciprocal Agreement.

CCIR

- Continue to monitor the achievement of principles for managing conflicts of interest in the insurance industry.

- Carry on efforts to put forward a model for privilege for documents created as part of insurer risk self-assessments and whistle-blower protection for persons who volunteer information about an insurer, insurance agent, insurance broker or insurance adjuster engaged in wrongdoing.

- Assist regulators in the adoption of methods for collecting insurance company complaint data, with the goal of creating a national complaint reporting data system.

- Develop and document a vision of risk-based market conduct regulation and appropriate tools to support such vision that individual regulators can consider for adoption in their jurisdictions or might employ collectively with other regulators in addressing shared market conduct concerns.

II. Enhance the risk-based approach to regulation

- Evaluate the requirement for all defined benefit pension plans registered with FSCO to file an Investment Information Summary to streamline this risk-based approach to the monitoring of pension plan funds.

- Identify new sources and methods for obtaining information about the financial strength of pension plan sponsors, such as commercial credit and rating data services, to evaluate the safety and soundness of plans and enhance protection for plan members.

- Distribute a market conduct questionnaire to auto insurers to assess the risk of non-compliance with rate, risk classification and underwriting requirements under the Insurance Act.

- Develop risk-based compliance examination techniques for pension plans, mortgage brokers and insurance sectors to improve overall market conduct and pension plan governance and enhance consumer and pension plan member protection.

- Develop risk-based tools and criteria for use by staff in the review of applications from the insurance, mortgage broker and co-operative sectors.

III. Review and recommend amendments to the regulatory framework to keep pace with changes in the marketplace

- Continue to review partial pension plan wind-ups affected by the Monsanto decision to ensure compliance with obligations to distribute surplus on partial wind-ups.

- Develop recommendations for changes to the requirements for disclosure of plan information to pension plan beneficiaries to increase transparency and enhance protection for plan beneficiaries.

Work with the Ministry of Finance and FSCO stakeholders to:

- Continue to develop proposed regulations, educational standards and implement licensing requirements under the Mortgage Brokerages, Lenders and Administrators Act, 2006.

- Develop a plan to implement amendments to the Credit Unions and Caisses Populaires Act, 1994, once proclaimed.

- Develop proposals for the implementation of "Prudent Portfolio" rules to provide increased flexibility to provincially incorporated insurers in their investment decisions, while at the same time, maintaining adequate protection for the public.

- Continue to work with the cooperative corporation sector in Ontario to develop Co-operative Corporations Act legislation and regulation amendments.

- Assist the Ontario Expert Commission on Pensions with the examination of legislation that governs the funding of defined benefit pension plans, the rules relating to pension deficits and surpluses and other issues relating to the security, viability and sustainability of the pension system in Ontario.

- Transfer the responsibility for oversight of Statutory Accident Benefits representatives (paralegals) to the Law Society of Upper Canada.

- Continue work with the Facility Association to evaluate proposals for changes to residual market or risk-sharing pool mechanisms to ensure that automobile insurance continues to be available to owners and licensed drivers who are unable to obtain insurance through the voluntary insurance market.

- Develop and implement an assessment process for cost recovery from the pension sector.

- Draft recommendations for the licensing of wholesale brokers to enhance consumer protection.

- Conduct research to determine the feasibility of developing additional Pre-Approved Framework (PAF) Guidelines for the treatment of automobile accident injuries under the Statutory Accident Benefits Schedule (SABS) to improve utilization of health care services and provide certainty around cost and payment for insurers and health care providers.

- Support the implementation of the Health Claims for Auto Insurance (HCAI) database, a system that allows for the electronic exchange of health claim information between health care providers and insurance companies, supporting the need for access to timely, accurate data to monitor the auto insurance system. Full implementation is expected to begin in 2008.

- Make recommendations to the Minister on updating Regulation 283/95, Disputes Between Insurers, to ensure that claimants are appropriately protected and have access to statutory accident benefits when two or more insurers are disputing which one has the responsibility to pay.

- Assist with the introduction of a new proposed Life Income Fund (LIF) that would increase income for seniors in retirement by enhancing access to locked-in retirement savings accounts.

- Commence a five-year review of the auto insurance system to facilitate updates and improvements to the current system.

IV. Improve delivery of services

- Implement recommendations resulting from an internal review of dispute resolution processes to ensure the delivery of dispute resolution services in the most effective manner possible.

- Proceed with upgrades to compliance and enforcement tracking procedures to enhance the risk-based approach to regulation and improve the delivery of services.

- Analyze opportunities for instituting electronic filing methods to facilitate the submission of filings electronically by the insurance sector.

- Continue with the second phase of enhancements and upgrades to the FSCO website to advance FSCO's provision of electronic services and information to consumers and other stakeholders.

FSCO Funding

Under section 25 of the FSCO Act, the Lieutenant Governor-in-Council may assess all entities that form part of a regulated sector with respect to all expenses and expenditures that the Ministry of Finance and FSCO have incurred. The Minister of Finance is also authorized to establish fees with respect to the regulated sectors for services provided by FSCO.

In determining the administration of the funding system, FSCO has established that it will:

- Be fair

- Reflect the use of FSCO resources

- Enable reasonable predictability of regulatory costs

- Be simple to administer
- Be flexible and easily modified

FSCO has also made a commitment to the following principles in carrying out its funding system.

- Revenues will not exceed forecasted expenditures for each sector.
- Disruption will be minimized and changes will take into account the effect of fees on the marketplace; and
- FSCO will be accountable to its stakeholders for the efficiency and quality of the services delivered.

For the insurance sector, FSCO has moved to quarterly calculation of assessments. This approach provides the insurance sector with estimates of annual costs early in the year and allows for adjustments to be made in a more timely manner.

Effective fiscal 2007-08, FSCO will begin to recover its costs from the pension sector via an annual assessment rather than through Annual Information Return (AIR) fees.

Report Back on Key Initiatives from 2006

I. Promote a coordinated national approach to regulatory issues

FSCO continued to work with other Canadian regulators in coordinating regulation of the financial services industry at the national level through the following activities:

Joint Forum

- Continued to work with the Financial Services OmbudsNetwork to define performance standards for dispute resolution services, build appropriate measurement and reporting systems around those standards, and promote harmonization and consistency among the industry-level OmbudServices.
- Developed prototype point of sale disclosure documents to enhance protection for consumers entering into a mutual fund, segregated fund or IVIC to ensure consumers are aware of the risks and benefits of these investment products at the time of purchase.
- Conducted research on problems resulting from differences in investment rules for pension funds, mutual funds and other pooled investment funds.
- Initiated a review of the guidelines for Capital Accumulation Plans.

CAPSA

- Finalized the non-contentious model law principles identified during stakeholder consultations in 2004. The development of a model pension statute is a step towards addressing requests from industry to improve harmonization and reduce regulatory burden and its associated costs.
- Drafted a framework for the development of a multi-lateral agreement for the regulation of multi-jurisdictional pension plans. The development of a new multi-lateral agreement addresses issues related to the regulation of multi-jurisdictional pension plans, improving the environment for industry and plan members.

CCIR

- Worked with the Canadian Insurance Services Regulatory Organizations (CISRO) to finalize and endorse principles for managing conflicts of interest. The Industry Practices Review Committee (IPRC), led by FSCO staff, will continue to monitor the implementation of these principles for managing conflicts of interest in the marketplace.
- Worked with CISRO to introduce a reliance model of reciprocal licensing for insurance agents and brokers in Canada to harmonize the requirements for agents who want to be licensed in multiple jurisdictions.
- Prepared a discussion paper for the purposes of obtaining stakeholder feedback on privilege for insurer self-assessments and whistle-blower protection. The Working Group on Privilege received fourteen stakeholder submissions, which will be used to develop a model for privilege and whistle-blower protection.

GISA

- Launched the GISA website on July 1, 2006. The website provides information on GISA's business objectives, governance structure and code of conduct as well as a manual detailing the revised Automobile Statistical Plan requirements. GISA is an independent statistical agency overseeing the collection and analysis of auto insurance statistical data to ensure rates are just and reasonable for consumers.

II. Enhance the risk-based approach to regulation

- Established a research project to identify unlicensed or unregistered activity in the mortgage broker sector to protect consumers and increase awareness of the licensing requirements for mortgage brokers.
- Examined the feasibility of integrating the financial statement and the Investment Information Summary for all defined benefit pension plans registered with FSCO to further streamline the monitoring of the investment of pension plan funds.

III. Review and recommend amendments to the regulatory framework to keep pace with changes in the marketplace

- Reviewed partial pension plan wind-ups affected by the Monsanto decision to ensure compliance with obligations to distribute surplus on partial wind-ups. To date, more than a third of the approximately 300 cases have been resolved and FSCO continues to monitor the situation to promote timely resolution.
- Evaluated the delinquent filing process as it currently applies to pension plans registered with FSCO to enhance risk-based monitoring and protection for beneficiaries.
- Revised Pre-Approved Framework (PAF) Guidelines for the treatment of whiplash-associated disorders (WAD) I and II injuries under the Statutory Accident Benefits Schedule (SABS) with input from stakeholders to improve utilization of health care services for the treatment of automobile accident injuries and provide certainty around cost and payment for insurers and health care providers.
- Participated in a Ministry of Finance-led working group that prepared a consultation draft of proposed amendments to the Credit Unions and Caisses Populaires Act, 1994.
- Worked with the co-operative corporation sector in Ontario to develop Co-operative Corporations Act legislation and regulation amendments.
- Supported the development of the Health Claims for Auto Insurance (HCAI) database, a system that allows for the electronic exchange of health claim information between health care providers and insurance companies, supporting the need for access to timely accurate data to monitor the auto insurance system. A regulation was passed in December 2006 to support a pilot of the system in 2007.
- Reviewed Regulation 283/95, Disputes Between Insurers, with the objective of enhancing protection of claimants and ensuring access to statutory accident benefits when two or more insurers are disputing which one has the responsibility to pay the benefits. FSCO has reviewed the operation of the regulation with stakeholders and developed recommended changes.

- Reviewed proposals from the Facility Association on possible changes to residual market or risk-sharing pool mechanisms to ensure that automobile insurance continues to be available to owners and licensed drivers who are unable to obtain insurance through the voluntary insurance market.

- Worked with the Ministry of Finance to draft "Prudent Portfolio" rules to provide increased flexibility to Ontario incorporated insurers and Ontario-formed reciprocal insurers in their investment decisions, while at the same time, maintaining adequate protection for the public. Bill 151, which includes these amendments, received royal assent in December, 2006.

- Worked with the Ministry of Finance to develop a consultation draft of regulations to support the implementation of the Mortgage Brokerages, Lenders and Administrators Act, 2006.

- Conducted a review of proposed education requirements for those who would be licensed as mortgage brokers and agents under the Mortgage Brokerages, Lenders and Administrators Act, 2006.

- Examined possible options for conducting a five-year review of the auto insurance system to facilitate updates and improvements to the current system.

- Worked with the Ministry of Finance to complete regulation amendments required for the implementation of harmonized classes of insurance and applicable definitions in Ontario.

IV. Improve delivery of services

- Reviewed the current dispute resolution process to ensure the delivery of dispute resolution services in the most effective manner possible. As a result of the review, modifications aimed at making services more user-friendly and efficient will be made throughout 2007.

- In anticipation of new licensing requirements, developed a single online destination for the processing of licensing applications and renewals from mortgage brokers and agents. The current mortgage brokers case management system was upgraded to capture additional data and provide new functionality.

- Enhanced the current online system for processing licensing applications and renewals from insurance agents. The system, which has been re-branded as Licensing Link, now accommodates a greater range of licensing transactions. Effective July 4, 2006 all licensing transactions for agents must be completed online, eliminating inefficient and costly paper-based processing methods.

- Conducted additional training for auto insurers on the use of the ARCTICS system to facilitate the submission of more auto insurance filings by electronic means to increase efficiency.

- Prepared and posted additional co-operative corporations sector guidance materials on the FSCO website and provided further co-operative corporations support through the FSCO/Ministry of Finance Co-Operative Corporations Sector meeting group.

- Created electronic forms in multiple formats for auto insurance stakeholders. These "smart" forms are automated and interactive, making the submission of information easier and more efficient for stakeholders.

- Launched the Pension Bulletin online in September 2006. This area of the FSCO website delivers pension information that was previously found in FSCO's paper bulletins, in an easy-to-navigate, electronic format. Subscribers to the Pension e-Bulletin get periodic electronic newsletters listing recent updates to the Pension Bulletin online to ensure they have the most up-to-date information at their fingertips.

The Financial Services Tribunal

The Financial Services Tribunal (the Tribunal) is an independent, adjudicative body composed of nine to 15 members (14 members as of April 1, 2007), including the Chair and two Vice-Chairs of the Commission.

The Tribunal has exclusive jurisdiction to exercise the powers conferred under the FSCO Act and other Acts that confer powers on or assign duties to the Tribunal. It also has exclusive jurisdiction to determine all questions of fact or law that arise in any proceeding before it.

As well, the Tribunal has authority to make rules for the practice and procedure to be observed in a proceeding before it, and to order a party to a proceeding before it to pay the costs of another party or the Tribunal's costs of the proceeding.

For the year ahead the Tribunal has identified the following priority:

- Produce literature/brochures to assist parties, particularly those who are unrepresented or unfamiliar with the Tribunal's rules, practices and procedures.

Conclusion

This statement outlines FSCO's proposed slate of activities and projects for 2007.

FSCO continues to benefit from strong partnerships with stakeholders to achieve its objectives. We look forward to working with our many partners in the upcoming fiscal year to overcome challenges and accomplish our goals. Together, we can foster a healthy financial services marketplace where consumers are protected and competition thrives.

Commission des services financiers de l'Ontario

ÉNONCÉ DES PRIORITÉS

juin 2007

Introduction

La Commission des services financiers de l'Ontario (CSFO) est un organisme de réglementation institué par la *Loi de 1997 sur la Commission des services financiers de l'Ontario* (Loi sur la CSFO).

En vertu de l'article 11 de la Loi sur la CSFO, la Commission des services financiers de l'Ontario (CSFO) doit remettre au ministre des Finances et faire publier dans la *Gazette de l'Ontario*, au plus tard le 30 juin de chaque année, « une déclaration énonçant les priorités que la Commission se propose de suivre pendant l'exercice pour l'application de la présente loi et de toutes les autres lois qui confèrent des pouvoirs ou attribuent des fonctions à la Commission ou au surintendant ».

Le présent document constitue le dixième Énoncé des priorités de la CSFO. Il présente les principaux défis que doit relever la CSFO, décrit les priorités d'ordre stratégique prévues pour l'exercice à venir et fait état des récents progrès accomplis dans le cadre des projets importants.

Trois entités composent la CSFO : la Commission, constituée de cinq personnes, le surintendant des services financiers et son équipe et le Tribunal des services financiers. La CSFO réglemente les assurances, les régimes de retraite, les sociétés de prêt et de fiducie, les crédit unions et caisses populaires, les courtiers en prêts hypothécaires et les sociétés coopératives de l'Ontario.

Au 1er mars 2007, la CSFO réglementait ou avait inscrit 394 compagnies d'assurance, 8 086 régimes de retraite, 219 crédit unions et caisses populaires, 51 sociétés de prêt et de fiducie, 1 007 courtiers en prêts hypothécaires et 1 599 coopératives, ainsi qu'environ 36 900 agents d'assurance, 3 837 agences d'assurance constituées en personne morale et 1 100 experts d'assurance. Les secteurs réglementés représentent une industrie d'envergure, dynamique et en pleine évolution, qui joue un rôle essentiel dans l'économie de la province et la sécurité financière des personnes et des familles.

Notre mandat

Afin de protéger l'intérêt public et d'accroître la confiance du public dans les secteurs réglementés, la CSFO fournit des services de réglementation qui protègent les consommateurs de services financiers et les bénéficiaires de régimes de retraite et soutiennent un secteur des services financiers sain et concurrentiel

Notre vision

La CSFO s'engage à demeurer un organisme de réglementation vigilant, équitable et proactif dont la présence au sein du marché des services financiers de l'Ontario est constructive et réceptive.

Principaux défis

La CSFO procède à des exercices de planification afin d'établir ses priorités stratégiques actuelles et futures conformément à ses objectifs. Pour être efficace, ce processus doit tenir compte de facteurs extérieurs qui modèlent l'industrie des services financiers. Cette année, la CSFO a continué de relever les défis suivants :

Mondialisation

La tendance soutenue vers la mondialisation et le regroupement international dans les secteurs financiers estompe les frontières de compétence. Aujourd'hui, les fournisseurs de services financiers peuvent atteindre les consommateurs grâce à Internet et aux technologies de commerce électronique et dépendent moins des modèles commerciaux traditionnels fondés sur des succursales locales. Cette évolution a mené à des regroupements et des fusions entre institutions financières, à l'augmentation du nombre de multinationales fournissant des services financiers et à une transformation des modes de prestation des services. Dans ce marché mondial en ligne, les entreprises ne se limitent plus à un ou deux secteurs d'activité et peuvent offrir un vaste éventail de services financiers, pour la plupart assujettis à des régimes de réglementation distincts.

Sous l'influence de ces facteurs, la production, la commercialisation et la prestation des produits financiers ont également changé, ce qui a mené à une multiplication accrue des questions liées à la réglementation. Le nouveau marché sans frontières rendu possible par la technologie incite les autorités de réglementation des services financiers à adopter une démarche globale intersectorielle et pangouvernementale en matière de réglementation.

Renouvellement de la réglementation

Les autorités de réglementation doivent suivre le rythme de l'évolution rapide du marché des services financiers. La CSFO est ainsi tenue d'adopter des méthodes affinées de réglementation multisectorielle afin de régler les questions auxquelles sont confrontés les fournisseurs de services financiers, quelle que soit leur taille, tout en optimisant l'utilisation des ressources. Les méthodes de réglementation fondées sur le risque permettent d'atteindre cet objectif en employant les ressources de réglementation plus efficacement et dans les secteurs où elles auront probablement le rendement le plus élevé. Pour employer ces méthodes le plus efficacement possible, les autorités de réglementation doivent absolument avoir à leur disposition des outils permettant de recueillir et d'analyser les données pertinentes.

Conditions du marché

Les changements récents qui ont touché l'activité économique mondiale ont eu des répercussions sur l'économie canadienne et contribuent à l'incertitude au sein des marchés. Malgré la conjoncture économique moins favorable, la croissance a repris en Ontario et devrait se renforcer parallèlement à l'accroissement de la demande aux États-unis, alors que l'économie subit l'impulsion de la baisse du prix du pétrole et du dollar canadien. Il est donc essentiel que les autorités de réglementation continuent de bien surveiller et gérer le risque de manière à renforcer la confiance des consommateurs et du public envers les secteurs réglementés et à contribuer à la vigueur du marché des services financiers.

Protection et information des consommateurs

L'innovation technologique dans le marché des services financiers habilite les consommateurs en leur donnant un choix inégalé de produits et services. Tout en offrant des possibilités accrues, un marché plus diversifié peut aussi par sa complexité faire qu'il soit plus difficile pour les consommateurs d'effectuer des choix éclairés. Les consommateurs font de plus en plus appel à l'aide de professionnels pour prendre des décisions financières. En raison de l'expansion des fournisseurs de services financiers, la CSFO doit investir dans une variété d'initiatives pour disposer des outils permettant de fournir de l'information fiable aux consommateurs, de protéger ces derniers d'activités illicites et de les aider à régler les différends qui peuvent surgir.

Enjeux pour la CSFO

Afin de surmonter ces défis, la CSFO a établi des priorités stratégiques. Ces priorités reposent sur l'exécution des principales activités que la Commission mène en vue d'accomplir sa mission. Chacune de ces activités étant d'égale importance, elles ne sont pas énumérées dans un ordre particulier :

I. Promouvoir une approche nationale coordonnée en matière de réglementation.

II. Améliorer l'approche axée sur le risque en matière de réglementation.

III. Étudier et recommander des modifications au cadre réglementaire de façon à suivre le rythme de l'évolution des marchés.

IV. Améliorer la prestation des services.

La CSFO croit que ces priorités stratégiques et les initiatives décrites ci-après qui y sont associées seront bénéfiques pour les consommateurs et les bénéficiaires de régimes de retraite. En se concentrant sur ces priorités, la CSFO sera en mesure de s'acquitter de son mandat, à savoir protéger les consommateurs de services financiers et les bénéficiaires de régimes de retraite, tout en soutenant une industrie des services financiers saine et concurrentielle en Ontario.

Pour exécuter son mandat, la CSFO a instauré une culture du partenariat et du dialogue. Elle continue de bénéficier d'une étroite coopération avec les consommateurs, les acteurs de l'industrie et d'autres intervenants. Pour cette raison, un grand nombre de projets entrepris par la CSFO sont complexes, dans la mesure où ils nécessitent la participation de nombreux intervenants et doivent être menés en collaboration avec le gouvernement fédéral et d'autres administrations provinciales. Par conséquent, la mise en œuvre de nombreuses initiatives s'échelonnent de façon continue sur plusieurs années.

La technologie joue un rôle important dans le maintien de rapports solides entre la CSFO et ses intervenants. C'est grâce à la technologie que la Commission communique des renseignements à ces derniers et leur offre des services. À cette fin, la CSFO utilise toutes les formes de

communications électroniques, menant des affaires avec les membres de l'industrie par voie électronique et offrant aux consommateurs un accès en ligne aux services et aux informations. La CSFO est convaincue que si les consommateurs et les bénéficiaires de régimes de retraite ont un meilleur accès à l'information, ils seront mieux équipés pour faire des choix avisés et protéger leurs intérêts.

L'Énoncé des priorités de la CSFO inclut un rapport sur les initiatives principales annoncées dans l'Énoncé de l'exercice précédent. Ce rapport, situé à la fin du présent document, énumère les réalisations accomplies au cours de l'année écoulée et leurs avantages escomptés pour les intervenants et le système de réglementation.

Priorités stratégiques de la CSFO

I. Promouvoir une approche nationale coordonnée en matière de réglementation

La CSFO continue de travailler avec d'autres organismes de réglementation canadiens afin de coordonner la réglementation du secteur des services financiers à l'échelle du pays.

La CSFO, favorable à l'élaboration de solutions de réglementation harmonisées, participe au Forum conjoint des autorités de réglementation du marché financier (Forum conjoint), à l'Association canadienne des organismes de contrôle des régimes de retraite (ACOR), au Conseil canadien des responsables de la réglementation d'assurance (CCRRA), à l'Agence statistique d'assurance générale (ASAG) et aux Organisations d'encadrement des services d'assurance du Canada (OESAC).

La CSFO collabore avec ces organismes nationaux à titre de membre ou, dans certains cas, de responsable de comités et d'équipes de projets mandatés pour entreprendre les initiatives décrites ci-après. Certains de ces projets mèneront à la présentation aux gouvernements et aux autorités de réglementation membres de recommandations relatives à la mise en œuvre en vue de changements législatifs. En Ontario, les recommandations devront être examinées et approuvées par le gouvernement de la province.

Forum conjoint

- Continuer les travaux entrepris en vue d'évaluer et d'harmoniser la divulgation aux points de vente pour les contrats individuels à capital variable (également connus sous le nom de fonds distincts) et les fonds communs de placement de manière à ce que les consommateurs connaissent les risques et les avantages de ces produits d'investissement au moment de l'achat.

- Collaborer avec le Réseau de conciliation du secteur financier afin de définir des normes de performance applicables aux services de règlement des différends, d'élaborer des systèmes appropriés de mesure et de rapport d'après ces normes et de promouvoir l'harmonisation et l'uniformité dans ces domaines parmi les services de conciliation en place dans l'industrie – l'Ombudsman des services bancaires et d'investissement (OSBI), le Service de conciliation des assurances de personnes du Canada (SCAPC) et le Service de conciliation en assurance de dommages (SCAD).

- Maintenir la collaboration avec les intervenants en vue de cerner les problèmes résultant des différences entre les règles de placement régissant les caisses de retraite, les fonds mutuels et d'autres types de fonds communs de placement. Formuler des recommandations de solutions possibles et coordonner la mise en œuvre des solutions adoptées.

- Examiner la réglementation des intermédiaires et recommander des moyens de minimiser les conflits possibles. Promouvoir une protection égale des consommateurs, en mettant au départ l'accent sur les intermédiaires qui vendent des fonds communs de placement et des contrats individuels à capital variable.

- Continuer d'élaborer des mécanismes afin de partager plus efficacement entre secteurs et territoires de compétence l'information sur les questions d'exécution des règlements et les mesures prises.

- Coordonner les efforts de réglementation concernant l'information et la sensibilisation des consommateurs en créant un inventaire des ressources existantes et de leur contenu. Examiner les systèmes mis en place dans d'autres territoires de compétence et formuler des recommandations en vue d'améliorations.

- Entreprendre un examen des lignes directrices relatives aux régimes de capitalisation publiées par le Forum conjoint en 2004, dans l'objectif d'évaluer leur mise en œuvre et de déterminer s'il reste encore des mesures à prendre dans ce domaine. Voici des exemples de régimes de capitalisation courants : régimes de retraite agréés à cotisations déterminées, régimes enregistrés d'épargne-retraite collectifs, régimes enregistrés d'épargne études collectifs et régimes de participation différée aux bénéfices.

ACOR

- Poursuivre les efforts d'élaboration d'un modèle de loi sur les retraites, dont pourraient s'inspirer les gouvernements fédéral et provinciaux lorsqu'ils envisagent de modifier leurs lois en matière de retraite.

- Poursuivre les efforts en vue de l'élaboration d'un accord multilatéral en matière de réglementation des régimes de retraite à lois d'application multiples. Cette entente devrait remplacer l'accord réciproque de 1968 existant.

CCRRA

- Continuer de surveiller la conformité aux principes de gestion des conflits d'intérêts dans l'industrie de l'assurance.

- Poursuivre les efforts afin que les autorités de réglementation présentent un modèle de protection des données privilégiées pour les documents créés dans le cadre des auto-évaluations des risques de l'assureur, et de protection des dénonciateurs pour les personnes qui communiquent volontairement des renseignements sur un assureur, un agent d'assurance, un courtier ou un expert d'assurance qui se livre à des activités illégales.

- Aider les autorités de réglementation dans l'adoption de méthodes de collecte des données sur les plaintes reçues par les compagnies d'assurance, en vue de créer un système national pour la communication de ces données.

- Élaborer et étayer par écrit une vision de la réglementation axée sur le risque des pratiques de l'industrie et des outils appropriés à l'appui de cette vision que les autorités de réglementation peuvent envisager d'adopter sur leur territoire ou pourraient appliquer collectivement avec d'autres autorités pour régler des préoccupations communes à l'égard de ces pratiques.

II. Améliorer l'approche axée sur le risque en matière de réglementation

- Évaluer l'obligation pour tous les régimes de retraite à prestations déterminées inscrits auprès de la CSFO de déposer un Sommaire des renseignements sur les placements en vue de rationaliser cette méthode axée sur le risque utilisée pour surveiller les fonds des caisses de retraite.

- Déterminer de nouvelles sources et méthodes permettant d'obtenir de l'information sur la vigueur financière des répondants des régimes de retraite, p. ex. des services commerciaux d'évaluation du crédit, en vue d'évaluer la bonne santé et la viabilité des régimes et d'améliorer la protection des participants aux régimes.

- Distribuer un questionnaire sur les pratiques du marché aux assureurs automobiles afin d'évaluer le risque de non satisfaction des exigences relatives aux tarifs, au classement des risques et à la souscription découlant de la *Loi sur les assurances*.

- Élaborer des techniques d'examen de la conformité axées sur le risque pour les secteurs des régimes de retraite, des courtiers en hypothèques et des assurances afin d'améliorer les pratiques générales du marché, la gestion des régimes de retraite ainsi que la protection des consommateurs et des participants aux régimes de retraite.

- Élaborer des outils et des critères axés sur le risque applicables par le personnel au cours de l'examen des demandes provenant des secteurs des assurances, des courtiers en hypothèques et des coopératives.

III. Étudier et recommander des modifications au cadre réglementaire de façon à suivre le rythme de l'évolution des marchés

- Continuer à examiner les liquidations partielles de régimes de retraite touchées par la décision Monsanto, afin d'assurer le respect de l'obligation de répartir les fonds excédentaires en cas de liquidation partielle.

- Formuler des recommandations de changements à apporter aux obligations concernant la divulgation de l'information sur les régimes de retraite aux bénéficiaires afin d'accroître la transparence et d'améliorer la protection de ces derniers.

Travailler de concert avec le ministère des Finances et les intervenants de la CSFO aux fins suivantes :

- Continuer d'élaborer et de mettre en œuvre des règlements, des normes relatives à la formation et des exigences en matière de délivrance de permis à l'intention des administrateurs, des courtiers et des agents en vertu de la *Loi de 2006 sur les maisons de courtage d'hypothèques, les prêteurs hypothécaires et les administrateurs d'hypothèques*.

- Préparer un plan pour mettre en œuvre les modifications à la *Loi de 1994 sur les caisses populaires et les credit unions*, une fois qu'elles auront été adoptées.

- Élaborer des propositions pour la mise en œuvre de règles de gestion prudente de l'investissement afin d'accorder une plus grande marge de manœuvre aux assureurs constitués en personne morale à l'échelle provinciale dans leurs décisions d'investissement, tout en préservant une protection suffisante du public.

- Continuer d'élaborer des modifications à la *Loi sur les sociétés coopératives* et au règlement qui s'y rattache.

- Aider la Commission d'experts en régimes de retraite dans l'examen des lois qui régissent la capitalisation des régimes de retraite à prestations déterminées, des règles relatives aux déficits et aux excédents de ces régimes ainsi que d'autres questions liées à la sécurité, la viabilité et la durabilité du système de régimes de retraite de l'Ontario.

- Transférer la responsabilité de la surveillance des représentants en vertu de l'Annexe sur les indemnités d'accident légales (parajuristes) au Barreau du Haut-Canada.

- Continuer de travailler avec la Facility Association à l'évaluation de propositions visant à apporter des changements au marché secondaire ou aux mécanismes de mise en commun de partage des risques de manière à ce que les propriétaires et les conducteurs titulaires d'un permis de conduire qui ne parviennent pas à se faire assurer par le marché de l'assurance volontaire continuent d'avoir accès à une assurance-automobile.

- Élaborer et mettre en œuvre un processus d'évaluation pour le recouvrement des coûts auprès du secteur des régimes de retraite.

- Élaborer des recommandations pour la délivrance de permis aux courtiers en gros du secteur de la réassurance afin de mieux protéger les consommateurs.

- Effectuer une étude pour établir la faisabilité de l'élaboration d'autres lignes directrices pré-autorisées pour le traitement des lésions subies dans un accident d'automobile en vertu de l'Annexe sur les indemnités d'accident légales (AIAL) de manière à améliorer le recours aux services de santé et à établir à l'intention des assureurs et des fournisseurs de soins de santé de la certitude relativement au coût et au paiement.

- Soutenir l'élaboration du Système de demandes de règlement pour soins de santé liés à l'assurance-automobile; il s'agit d'une base de données permettant l'échange électronique de renseignements sur des demandes de prestations de maladie entre fournisseurs de soins de santé et compagnies d'assurance, qui répond au besoin d'accéder à des données récentes et exactes afin de surveiller le système d'assurance-automobile. La mise en œuvre complète devrait commencer en 2008.

- Recommander au ministre des révisions du règlement 283/95 relatif aux différends entre assureurs, pour veiller à ce que les auteurs d'une demande de prestations soient bien protégés et aient accès aux prestations d'accident légales lorsque au moins deux compagnies d'assurance sont en litige concernant la responsabilité à l'égard du versement des indemnités d'accident.

- Contribuer au lancement d'un nouveau fonds de revenu viager (FRV) qui accroîtrait le revenu des personnes âgées à la retraite en améliorant l'accès aux comptes d'épargne-retraite immobilisés.

- Entreprendre un examen de cinq ans du système d'assurance-automobile afin de faciliter l'actualisation et l'amélioration du système actuel.

IV. Améliorer la prestation des services

- Mettre en œuvre les recommandations issues d'un examen interne des méthodes actuelles de règlement des différends afin d'assurer la prestation la plus efficace possible des services de règlement des différends.

- Actualiser les procédures de conformité et de suivi de l'exécution afin d'améliorer l'approche axée sur le risque en matière de réglementation et la prestation des services.

- Analyser les possibilités de mise en place de méthodes de dépôt par voie électronique afin de faciliter les dépôts dans le domaine des assurances.

- Poursuivre la deuxième phase d'actualisation et d'amélioration du site Web de la CSFO afin de renforcer la prestation par la CSFO d'information et de services électroniques aux consommateurs et aux autres intervenants.

Financement de la CSFO

En vertu de l'article 25 de la Loi sur la CSFO, le lieutenant-gouverneur en conseil peut imposer à toutes les entités qui font partie d'un secteur réglementé une cotisation relativement aux frais et dépenses que le ministère des Finances ou la CSFO auront engagés. Le ministre des Finances est également autorisé à fixer des droits applicables aux secteurs réglementés pour les services fournis par la CSFO.

La CSFO a décidé que l'administration du système de financement :

- serait équitable;

- refléterait l'utilisation des ressources de la CSFO;

- permettrait une prévisibilité raisonnable des frais réglementaires;

- serait simple à gérer;

- serait souple et facile à modifier.

La CSFO s'est également engagée à respecter les principes suivants en matière d'administration du système de financement :

- les revenus ne doivent pas excéder les dépenses prévues pour chaque secteur;
- les perturbations seront minimales et les modifications tiendront compte de l'effet des droits sur le marché;
- la CSFO sera redevable auprès des intervenants de l'efficacité et de la qualité des services rendus.

En ce qui concerne le secteur de l'assurance, la CSFO est passée à un système de calcul trimestriel des cotisations. Ce système donne au secteur des estimations des coûts annuels tôt au cours de l'année et lui permet de procéder plus rapidement à des rajustements.

À compter de l'exercice 2007-2008, la CSFO commencera à recouvrer les coûts liés au secteur des régimes de retraite par une cotisation annuelle qui remplacera les droits liés au relevé annuel.

Rapport sur les initiatives principales de 2006

I. Promouvoir une approche nationale coordonnée en matière de réglementation

La CSFO a continué à travailler, avec d'autres autorités de réglementation canadiennes, à la coordination de la réglementation du secteur des services financiers à l'échelle du pays, en entreprenant les initiatives suivantes :

Forum conjoint

- A poursuivi la collaboration avec le Réseau de conciliation du secteur financier pour définir des normes de rendement applicables au règlement des différends, élaborer des systèmes de mesure et de rapport d'après ces normes et promouvoir l'harmonisation et l'uniformité entre les divers services de conciliation du secteur.
- A élaboré des documents types sur la divulgation aux points de vente afin de mieux protéger les consommateurs qui investissent dans des fonds communs de placement, des fonds distincts ou des contrats individuels à capital variable, de manière à ce que les consommateurs connaissent les risques et les avantages de ces produits d'investissement au moment de l'achat.
- A réalisé une étude sur les problèmes causés par les différences entre les règles de placement régissant les caisses de retraite, les fonds mutuels et d'autres types de fonds communs de placement.
- A amorcé un examen des lignes directrices relatives aux régimes de capitalisation.

ACOR

- A achevé les principes non litigieux liés à la loi type qui s'étaient dégagés des consultations réalisées auprès des intervenants en 2004. L'élaboration d'une loi type sur les pensions est un pas effectué pour répondre aux demandes de l'industrie, laquelle veut une meilleure harmonisation et une réduction du fardeau de la réglementation et des coûts qui en découlent.
- A établi un cadre pour l'élaboration d'un accord multilatéral en matière de réglementation des régimes de retraite à lois d'application multiples. L'élaboration d'une nouvelle entente multilatérale traite les questions liées à la réglementation des régimes de retraite à lois d'application multiples et améliore le contexte législatif pour l'industrie et les participants aux régimes.

CCRRA

- A collaboré avec les Organisations d'encadrement des services d'assurance du Canada (OESAC) afin d'achever et d'approuver les principes de gestion des conflits d'intérêts. Le comité de révision des pratiques de l'industrie, dirigé par le personnel de la CSFO, continuera de surveiller la mise en œuvre de ces principes dans le marché.
- A collaboré avec les OESAC afin de mettre en œuvre un modèle de délivrance réciproque de permis à l'intention des agents d'assurance et des courtiers dans tout le Canada, de manière à harmoniser les exigences applicables aux agents désireux d'obtenir un permis dans plusieurs provinces ou territoires.
- A préparé un document de travail afin d'obtenir la rétroaction des intervenants sur la protection des données privilégiées des auto-évaluations des assureurs et sur la protection des dénonciateurs. Le groupe de travail sur le privilège a reçu quatorze mémoires d'intervenants qui serviront à l'élaboration d'un modèle de protection des données privilégiées et des dénonciateurs.

ASAG

- A lancé le site Web de l'ASAG le 1er juillet 2006. Ce site Web fournit de l'information sur les objectifs opérationnels, la structure de gouvernance et le code de conduite de l'ASAG, ainsi qu'un manuel décrivant en détail les exigences liées au Plan statistique automobile révisé. L'ASAG est une agence de statistiques indépendante chargée de surveiller la collecte et l'analyse de données statistiques sur l'assurance-automobile pour que les tarifs soient effectivement justes et raisonnables pour les consommateurs.

II. Améliorer l'approche axée sur le risque en matière de réglementation

- A établi un projet de recherche pour détecter dans le secteur des courtiers en hypothèques les activités réalisées sans permis et sans inscription, de manière à protéger les consommateurs et à mieux faire connaître les exigences relatives à la délivrance des permis aux courtiers en hypothèques.
- A examiné la faisabilité de l'intégration du Sommaire des renseignements sur les placements et des états financiers pour tous les régimes de retraite à prestations déterminées inscrits auprès de la CSFO, en vue de rationaliser plus avant la surveillance des placements des caisses de retraite.

III Étudier et recommander des modifications au cadre réglementaire de façon à suivre le rythme de l'évolution des marchés

- A examiné les liquidations partielles de régimes de retraite touchées par la décision Monsanto afin d'assurer le respect de l'obligation de répartir les fonds excédentaires en cas de liquidation partielle. À ce jour, plus d'un tiers des quelque 300 cas ont été réglé et la CSFO continue de veiller la situation pour favoriser un règlement rapide.
- A évalué le processus relatif à la non conformité en matière de dépôts actuellement applicable aux régimes de retraite inscrits auprès de la CSFO, afin d'améliorer la surveillance axée sur le risque et la protection des bénéficiaires.
- A révisé les Lignes directrices pré-autorisées pour les blessures associées à une entorse cervicale de stade I ou II en vertu de l'Annexe sur les indemnités d'accident légales (AIAL), avec la contribution d'intervenants, de manière à améliorer le recours aux services de santé et à établir à l'intention des assureurs et des fournisseurs de soins de santé de la certitude relativement au coût et au paiement.
- A siégé à un groupe de travail dirigé par le ministère des Finances qui a préparé un document de consultation visant à présenter les modifications proposées à la *Loi de 1994 sur les caisses populaires et les credit unions*.
- A travaillé avec le secteur des sociétés coopératives afin d'élaborer des modifications à la *Loi sur les sociétés coopératives* et aux règlements qui s'y rattachent.
- A contribué à l'élaboration du Système de demandes de règlement pour soins de santé liés à l'assurance-automobile; il s'agit d'une base de données permettant l'échange électronique de renseignements sur des demandes de prestations de maladie entre fournisseurs de soins

de santé et compagnies d'assurance, qui répond au besoin d'accéder à des données récentes et exactes afin de surveiller le système d'assurance-automobile. Un règlement a été adopté en décembre 2006 afin de soutenir une version pilote du système en 2007.

- A examiné le règlement 283/95 relatif aux différends entre assureurs, pour veiller à ce que les auteurs d'une demande de prestations soient mieux protégés et aient accès aux prestations d'accident légales lorsque au moins deux compagnies d'assurance sont en litige concernant la responsabilité à l'égard du versement des indemnités d'accident. La CSFO a examiné l'application du règlement avec les parties concernées et a élaboré des changements recommandés.

- A étudié des propositions de la Facility Association sur des changements possibles au marché secondaire ou aux mécanismes de mise en commun de partage des risques de manière à garantir que les propriétaires et les conducteurs titulaires d'un permis de conduire qui ne parviennent pas à se faire assurer par le marché de l'assurance volontaire continuent d'avoir accès à une assurance-automobile.

- A travaillé avec le ministère des Finances pour élaborer des règles de gestion prudente de l'investissement afin d'accorder une plus grande marge de manœuvre aux assureurs constitués en personne morale en Ontario et aux assureurs réciproques établis en Ontario dans leurs décisions d'investissement, tout en préservant une protection suffisante du public. Le projet de loi 151, auquel sont incluses ces modifications, a reçu la sanction royale en décembre 2006.

- A travaillé avec le ministère des Finances pour élaborer des projets de règlements soutenant l'application de la *Loi de 2006 sur les maisons de courtage d'hypothèques, les prêteurs hypothécaires et les administrateurs d'hypothèques*.

- A réalisé un examen des exigences proposées relatives à la formation des candidats à un permis d'agent ou de courtier en hypothèques en vertu de la *Loi de 2006 sur les maisons de courtage d'hypothèques, les prêteurs hypothécaires et les administrateurs d'hypothèques*.

- A étudié les options possibles concernant la tenue d'un examen quinquennal du système d'assurance-automobile en vue de faciliter l'actualisation et l'amélioration du système actuel.

- A collaboré avec le ministère des Finances pour achever les modifications à la réglementation nécessaires à la mise en œuvre de catégories d'assurance harmonisées et des définitions applicables en Ontario.

IV. Améliorer la prestation des services

- A examiné le processus actuel de règlement des différends afin d'assurer la prestation la plus efficace possible des services de règlement des différends. Comme suite à cet examen, des modifications visant à rendre les services plus conviviaux et efficients seront apportées tout au long de 2007.

- En prévision des nouvelles exigences liées à la délivrance des permis, a mis au point une destination unique en ligne pour le traitement des demandes de permis et de renouvellement de permis des agents et des courtiers en hypothèques. Le système de gestion des dossiers des courtiers en hypothèques a été mis à niveau afin de pouvoir y saisir des données supplémentaires et d'offrir de nouvelles fonctions.

- A amélioré le système en ligne actuel de traitement des demandes de permis et de renouvellement de permis des agents d'assurance. Ce système, rebaptisé Liaison Permis, rend désormais possible un plus large éventail de transactions de délivrance de permis. Depuis le 4 juillet 2006, toutes les transactions de délivrance de permis d'agents doivent être effectuées en ligne, ce qui élimine le traitement laborieux et coûteux des imprimés.

- A offert une formation additionnelle aux compagnies d'assurance-automobile sur l'utilisation du SACRTTC, afin de faciliter le dépôt de davantage de documents des compagnies d'assurance-automobile par voie électronique, de manière à accroître l'efficience.

- A préparé et publié sur le site Web de la CSFO des documents d'orientation à l'intention du secteur des sociétés coopératives et a fourni du soutien additionnel à ces sociétés par l'entremise du groupe de travail de la Commission et du ministère des Finances consacré à ce secteur.

- A créé des formulaires électroniques sur divers supports à l'intention des intervenants de l'assurance-automobile. Ces formulaires « intelligents », automatisés et interactifs, rendent la communication de l'information plus facile et plus efficiente pour les intervenants.

- A lancé en septembre 2006 les Bulletins sur les régimes de retraite en ligne. Cette partie du site Web de la CSFO donne accès, sous une forme électronique conviviale, à l'information sur les régimes de retraite qui était jusque-là accessible dans des bulletins imprimés de la Commission. Les abonnés au Bulletin en ligne obtiennent par courriel les mises à jour récentes du Bulletin et disposent ainsi de l'information la plus actuelle à partir de leur ordinateur.

Le Tribunal des services financiers

Le Tribunal des services financiers est un organisme d'arbitrage indépendant composé de neuf à quinze membres. Au 1er avril 2007, il comptait quatorze membres, y compris le président et les deux vice-présidents de la Commission.

Le Tribunal détient la compétence exclusive d'exercer les pouvoirs que lui confère la Loi de la CSFO, ainsi que les pouvoirs et les fonctions que lui confèrent d'autres lois. Il a également la compétence exclusive de régler toutes les questions de droit ou de fait soulevées au cours des instances.

De plus, le Tribunal a le pouvoir d'établir les règles de pratique et de procédure à respecter au cours des instances et d'ordonner à une partie de rembourser les dépens engagés par une autre partie ou par le Tribunal au cours d'une instance.

Le Tribunal a établi la priorité suivante pour l'exercice à venir :

- Produire des documents ou des brochures afin d'aider les parties, notamment celles qui ne sont pas représentées ou qui ne connaissent pas les règles, les pratiques et la procédure du Tribunal.

The Honourable GERRY PHILLIPS
Registrar General and
Minister of Government Services

(140-G411)

Notice of Minister of Health and Long-Term Care under s. 74(7) of the *Personal Health Information Protection Act, 2004*

Under the *Personal Health Information Protection Act, 2004* ("PHIPA"), s. 74, where the Minister of Health and Long-Term Care determines that a potential regulation under that Act is of a minor or technical nature, then the requirement for a formal 60-day public consultation do not apply. The Minister is required to provide public notice of such a determination.

On June 4, 2007 the *Health Systems Improvements Act, 2007*, S.O. 2007, c. 10, ("HSIA") received Royal Assent. Schedule "H" of HSIA contained a number of amendments to PHIPA, which came into force as of the date that HSIA received Royal Assent. A number of those amendments to PHIPA were amendments to effectively bring into PHIPA itself provisions that were previously contained in Regulation 329/04 under PHIPA. The purpose of these amendments was to make PHIPA easier to understand and use.

Now that these amendments have been passed, with a full public legislative process, the provisions in Regulation 329/04 which were effectively brought into PHIPA itself are redundant and need to be repealed. The particulars with respect to which amendment to PHIPA rendered redundant particular sections in Regulation 329/04 is set out in the Table below.

Sections of PHIPA amended by Schedule H of HSIA	Section of Regulation 329/04 which thereby became redundant
34(2),(3)	1(8)(a)
37(1)(g)	1(8.2)
39(1)(a)	1(9)
3(1)[6]	3(2)
4(1)(d)	1(4)
24(2.1), 27(2.1)	9
43(1)(f)	15.1
49(6)	19
51(4)	24.1
54(1)(b)	24.2

Under the circumstances, since the repeal of these provisions is clearly of a minor or technical nature, I determined that subsections 74(1) to (5) of PHIPA should not apply to the power of His Honour the Lieutenant Governor in Council to repeal these provisions by regulation. I therefore requested His Honour the Lieutenant Governor in Council to make a regulation under PHIPA to amend Regulation 329/04 to repeal the provisions that had become redundant, namely, subsections 1(8)(a), 1(8.2); 1(9); 3(2); 1(4); and sections 9; 15.1; 19; 24.1; and 24.2 and such a regulation was made on June 27, 2007.

The Honourable George Smitherman
(140-G412E) **Minister of Health and Long-Term Care**

Avis du ministre de la Santé et des Soins de longue durée donné en vertu du paragraphe 74(7) de la *Loi de 2004 sur la protection des renseignements personnels sur la santé*

Aux termes de l'article 74 de la *Loi de 2004 sur la protection des renseignements personnels sur la santé* (LPRPS), lorsque le ministre de la Santé et des Soins de longue durée détermine qu'un règlement proposé en vertu de la Loi a une importance mineure ou est de nature technique, l'exigence relative à la tenue d'une consultation publique de 60 jours ne s'applique pas. Le ministre est tenu de donner un avis public lorsqu'il prend une telle décision.

Le 4 juin 2007, la *Loi de 2007 sur l'amélioration du système de santé*, L. O. 2007, chap. 10, (LASS) a reçu la sanction royale. L'annexe « H » de la LASS contient un certain nombre de modifications à la LPRPS, qui sont entrées en vigueur à la date à laquelle la LASS a reçu la sanction royale. Quelques-unes de ces modifications à la LPRPS visent à intégrer à la LPRPS des dispositions qui faisaient partie du Règlement 329/04 pris en application de la LPRPS. Ces modifications ont pour but de rendre la LPRPS plus facile à comprendre et à utiliser.

Maintenant que ces modifications ont été adoptées, dans le cadre du processus législatif ouvert au public, les dispositions du Règlement 329/04 qui ont été intégrées à la LPRPS sont redondantes et doivent être abrogées. Le tableau présenté ci-dessous indique les dispositions du Règlement 329/04 qui sont rendues redondantes par les modifications à la LPRPS.

Dispositions de la LPRPS modifiées par l'annexe H de la LASS	Dispositions du Règlement 329/04 qui sont ainsi devenues redondantes
34(2), (3)	1(8)(a)
37(1)(g)	1(8.2)
39(1)(a)	1(9)
3(1)[6]	3(2)
4(1)(d)	1(4)
24(2.1), 27(2.1)	9
43(1)(f)	15.1
49(6)	19
51(4)	24.1
54(1)(b)	24.2

Dans ces circonstances, étant donné que l'abrogation de ces dispositions a une importance mineure ou est de nature technique, j'ai déterminé que les paragraphes 74(1) à (5) de la LPRPS ne devraient pas s'appliquer au pouvoir du lieutenant-gouverneur en conseil d'abroger ces dispositions par voie de règlement. Par conséquent, j'ai demandé au lieutenant-gouverneur en conseil de prendre un règlement en vertu de la LPRPS afin de modifier le Règlement 329/04 pour abroger les dispositions qui sont devenues redondantes, nommément les dispositions suivantes : 1(8)(a); 1(8.2); 1(9); 3(2); 1(4); 9; 15.1; 19; 24.1; et 24.2, ainsi que le règlement pris le 27 juin 2007.

L'honorable George Smitherman
(140-G412F) **Ministre de la Santé et des Soins de longue durée**

in which,

"A" is the total of,

(a) the proceeds from sales during the fiscal year of diamonds produced as part of the output of the diamond mine after March 22, 2007, to persons not related to the operator, if satisfactory evidence of those sales is provided to the Minister, and

(b) the market value of any diamonds produced as part of the output of the diamond mine after March 22, 2007 that were otherwise sold or transferred from the diamond mine during the fiscal year,

"B" is the market value as of the end of the fiscal year of any inventories of diamonds produced as part of the output of the diamond mine after March 22, 2007,

"C" is the market value as of the beginning of the year of any inventories of diamonds produced as part of the output of the diamond mine after March 22, 2007,

"D" is the lesser of,

(b) the amount of the cost referred to in clause (a),

"E" is the amount of any excess determined under clause 7 (5) (b) for the fiscal year,

"F" is the sum of all amounts, if any, withdrawn during the fiscal year from a qualifying environmental trust, up to a maximum of the sum of all amounts contributed to the trust,

(3) In the case of a diamond royalty return for the last fiscal year of production of a diamond mine, the operator may, for the purposes of determining the value of "B" in subsection (1) for that fiscal year, elect to use the actual proceeds from the sale of its inventory of diamonds after the end of that fiscal year, instead of the market value of the inventory of diamonds at the end of that fiscal year, but only to the extent that the diamonds were sold to persons not related to the operator and satisfactory evidence of the sales has been provided to the Minister.

(4) An election made under subsection (3) is irrevocable.

(5) Gains and losses from hedging transactions shall not be included in calculating the net value of the output of a diamond mine.

   i. after deducting the costs referred to in paragraphs 1 to 5, and
   ii. before deducting any exploration costs, depreciation allowance, qualifying environmental trust contribution allowance, development allowance or processing allowance.
7. Subject to clause (5) (a), clause (8) (d), paragraph 5 of subsection (9) and subsection (10), a depreciation allowance in respect of the depreciable assets of the diamond mine and the depreciable assets of any facilities in Ontario that are used for processing diamonds produced as part of the output from the diamond mine, in an amount not exceeding the undeducted balance of the cost of those depreciable assets at the end of the fiscal year.
8. A development allowance not exceeding the undeducted balance, at the end of the fiscal year, of the sum of,

A. if the mining claim, lease or patent was purchased, the lesser of the purchase price of the mining claim, lease or patent, and the amount referred to in sub-subparagraph B, or

B. in any other case, the costs referred to in subparagraphs i and ii that were incurred in respect of the incorporated mining claim, lease or patent and that have not been claimed in a prior fiscal year or under another provision of this Regulation.

9. A qualifying environmental trust contribution allowance not exceeding the undeducted balance of the qualifying environmental trust at the end of the fiscal year.

10. If diamonds are processed by the operator of the diamond mine before their sale, transfer or presentation to the diamond royalty valuer for valuation, an annual processing allowance equal to the lesser of,

i. 8 per cent of the original cost of processing assets owned by the operator at the end of the fiscal year that were used during the fiscal year for the processing of output of the diamond mine, and

ii. 65 per cent of the net value of the output of the diamond mine, where only the deductions referred to in paragraphs 1 to 9 are deducted in the calculation of the net value of the output.

(ii) the original cost of the asset; and

(b) the amount, if any, by which the lesser of the amounts referred to in subclauses (a) (i) and (ii) exceeds the undeducted balance of the depreciable assets in the fiscal year in which the assets were disposed of shall be included in the net value of the output of the diamond mine for that fiscal year.

(6) For the purposes of subsection (5), where the operator of a diamond mine sells an asset for which a depreciation allowance has been claimed by a related person, or removes the asset from the diamond mine, the proceeds of disposition of the asset shall be the amount that could be expected to be realized from the sale of the asset to a person not related to the operator.

(7) Where the operator of a diamond mine purchases an asset from a related person that is eligible for a depreciation allowance or transfers to the diamond mine an asset from another mine owned by the operator, the cost of the asset for the purposes of calculating a depreciation allowance is the amount that the operator could be expected to pay to purchase that asset from a person not related to the operator.

(8) Where, in a particular fiscal year, the operator of a diamond mine uses the depreciable assets of the diamond mine or any processing assets located in Ontario that are used for the processing of diamonds produced as part of the output of the diamond mine to process diamonds other than those produced as part of the output of the diamond mine,

(a) the revenue earned from the sale or processing of diamonds not produced from the diamond mine shall not be included in the net value of the output of the diamond mine;

Removal or sale of diamonds

14. (1) For the purposes of section 154.8 of the Act, an operator of a diamond mine shall ensure that no diamond produced at the mine is removed from the mine or sold unless,

(a) the diamond has been presented to a diamond royalty valuer for valuation in accordance with this section, and

(b) the value and weight of the diamond has been entered in the books of account referred to in clause 154.6 (1) (a) of the Act.

(2) Subsection (1) does not apply to diamonds removed from a mine under a permit issued under section 52 of the Act that exempts the operator from compliance with that subsection.

(3) The valuation of diamonds shall be done in accordance with the following rules:

1. The diamonds shall be presented to a diamond royalty valuer for valuation as soon as they have been processed into a saleable form, but before they have been cut and polished.

2. No diamonds shall be presented to the diamond royalty valuer until the operator of the diamond mine has cleaned the diamonds so as to remove all substances from the diamonds that are not part of the diamonds.

3. The operator of a diamond mine shall provide a diamond royalty valuer and any other person designated by the Minister the use, free of charge, of such facilities and equipment, other than computer equipment, as are necessary for the diamond royalty valuer to value any diamonds produced as part of the output of the diamond mine.

4. The facilities and equipment referred to in paragraph 3 shall be located in Ontario.

5. If the operator of the diamond mine transfers or sells diamonds to persons who are not related to the operator, the operator shall present to the diamond royalty valuer,

i. all diamonds that are to be transferred or sold to a person related to the operator, for separate valuation before the transfer or sale, and

ii. all diamonds that are to be cut or polished by the operator or any related party, for separate valuation before the diamonds are cut or polished.

i. in respect of diamonds with a weight of 10.8 carats or more, individually, together with the weight of each diamond,

ii. in respect of diamonds with a weight of 2.8 to 10.79 carats, in lots separated according to weight in carats, together with the number of diamonds in each lot,

iii. in respect of diamonds with a weight of 3 to 10 grainers, in lots separated according to weight in grainers, from which a sample that accurately represents the composition of the lot has been randomly selected,

iv. in respect of diamonds with a weight of less than 3 grainers, in lots separated according to industry standard DTC sieve size fractions, from which a sample that accurately represents the composition of the lot has been randomly selected.

7. At the time the diamonds are presented in accordance with paragraph 6, the operator shall provide to the Minister,

i. a written statement containing a description of each diamond or lot, and the operator's estimate of the market value of each diamond or lot, and

ii. the operator's oath or affirmation, or where the operator is a corporation, the oath or affirmation of an officer of the corporation, administered by a commissioner for taking affidavits, that the statement is true and complete to the best of the operator's knowledge and belief.

(4) Facilities provided by an operator of a diamond mine under paragraph 3 of subsection (3) shall be deemed to be part of the diamond mine for the purposes of this Regulation and a transfer of diamonds from one part of a diamond mine to another for the purposes of diamond valuation does not constitute removal of the diamonds from the diamond mine.

Review by the Minister

15. (1) Any operator with a legal or beneficial interest in the subject matter of a decision of a diamond royalty valuer, or in any other action taken or omitted to be taken under this Regulation by a diamond royalty valuer, may, within 30 days after the decision is made, the action is taken or the omission to take action occurs, whichever is applicable,

(a) request in writing that the Minister review the matter; and

(b) the redetermination of the amount of a royalty payable under section 154.1 of the Act, as set out in a revised notice of royalty; and

(c) the determination or redetermination of interest or penalties payable under Part VIII of the Act or this Regulation.

(2) Any reference in sections 17 to 24 to a "determination" or "redetermination" is deemed to be a reference to a determination or redetermination, as the case may be, described in subsection (1).

Notice of objection

17. (1) An operator of a diamond mine that objects to a determination or redetermination may, within 180 days from the day the notice of royalty or revised notice of royalty is mailed, serve on the Minister, by registered mail, a notice of objection in a form approved by the Minister.

(2) The notice of objection shall,

(a) clearly describe each issue raised by way of objection; and

(b) fully set out the facts and reasons relied on by the operator in respect of each issue.

(3) If a notice of objection does not fully set out the facts and reasons relied on by the operator in respect of an issue, the Minister may in writing request the operator to provide the information, and the operator is deemed to have complied with clause (2) (b) in respect of the issue if the operator provides the information to the Minister in writing within 60 days after the day the request is made by the Minister.

(4) An operator shall not raise any issue that the operator is not entitled to raise by way of appeal under section 18 in any objection under this section to a determination or redetermination or variance of a determination or redetermination under subsection (6).

(5) For the purpose of calculating the number of days mentioned in subsection (1), (3) or 18 (1), the day on which a notice of royalty or revised notice of royalty is mailed, a request is made under subsection (3) or a notification is given under clause (6) (b) is the date stated in the notice of royalty, revised notice of royalty, request or notification.

(6) Upon receipt of the notice of objection, the Minister shall with all due dispatch,

(a) review and confirm or vary the determination or redetermination; and

(b) notify the operator of the diamond mine of his or her decision in writing.

(7) If an operator has served a notice of objection in accordance with this section or has commenced an appeal in accordance with section 18 and the Minister subsequently mails a revised notice of royalty to the operator containing the results of the review under subsection 15 (2),

(a) neither the revised notice of royalty nor any determination or redetermination set out in the revised notice of royalty invalidates the notice of objection or appeal, as the case may be; and

(b) the operator may object to any new matters raised in the revised notice of royalty, in accordance with this section.

Appeal

18. (1) Where an operator of a diamond mine has served a notice of objection under section 17 to a determination or redetermination, the operator may appeal to the Superior Court of Justice to have the determination or redetermination vacated or varied after the Minister has confirmed or varied the determination or redetermination, but no appeal under this section may be commenced after the expiration of 90 days from the day notice was mailed to the operator under section 17 that the Minister has confirmed or varied the determination or redetermination.

(2) Despite subsection (1), where at any time the Minister determines or redetermines the amount of a royalty payable under section 154.1 of the Act or any interest or penalties payable under Part VIII of the Act or this Regulation or makes a determination or redetermination in any of the following circumstances or under any of the following provisions, an appeal may be made only to the extent that the reasons for the appeal can reasonably be regarded as relating to any matter that gave rise to the determination or redetermination and that was not conclusively determined by the Court:

1. A redetermination made in accordance with an order of a court to vacate, vary or restore a determination or redetermination of a royalty or to refer a determination or redetermination back to the Minister for redetermination.

2. A review of a determination or redetermination under subsection 17 (6).

(3) An appeal to the Superior Court of Justice shall be commenced by,

(a) filing a notice of appeal with the court in the form approved by the Minister;

(b) paying a fee to the court in the same amount and manner as the fee payable under regulations made under the *Administration of Justice Act* on the issue of a statement of claim; and

(c) serving a copy of the notice of appeal as filed on the Minister by registered mail.

5. Quiconque reçoit un avis de la décision de l'agent d'examen a droit, dans les circonstances que précise le règlement municipal, à un réexamen de la décision de celui-ci par un agent enquêteur nommé à cette fin par la municipalité.

6. L'agent enquêteur ne doit pas se prononcer sur le réexamen de la décision de l'agent d'examen à moins d'avoir donné à la personne qui a demandé le réexamen l'occasion d'être entendue.

(2) La nomination de l'agent enquêteur est compatible avec les lignes directrices en matière de conflits d'intérêts visées à l'alinéa 7 b); l'agent tient les audiences de manière impartiale.

(3) Ni l'agent d'examen ni l'agent enquêteur n'a compétence pour examiner des questions se rapportant à la validité d'une loi, d'un règlement ou d'un règlement municipal, ni à son applicabilité ou à son effet sur le plan constitutionnel.

(6) Un seul certificat de défaut peut être déposé auprès du tribunal à l'égard de deux pénalités administratives ou plus imposées à la même personne.

(7) Si, après le dépôt d'un certificat de défaut auprès du tribunal, chacune des pénalités auxquelles se rapporte le certificat est entièrement payée, la municipalité :

a) en avise le tribunal par écrit;

b) en avise le shérif par écrit, si un bref d'exécution a été déposé auprès de celui-ci.

Refus : plaque d'immatriculation

10. (1) Si une pénalité administrative n'est pas payée dans les 15 jours qui suivent sa date d'exigibilité, la municipalité peut aviser le registrateur des véhicules automobiles du défaut de paiement et celui-ci doit alors refuser de valider le certificat d'immatriculation de la personne nommée dans l'avis de défaut et de lui délivrer un nouveau certificat d'immatriculation jusqu'à ce qu'elle paie la pénalité.

(2) Le paragraphe (1) ne s'applique qu'au certificat d'immatriculation du véhicule auquel se rapporte la pénalité administrative.

Autres mesures d'exécution

11. (1) Si une pénalité administrative n'est pas payée dans les 15 jours qui suivent sa date d'exigibilité, la municipalité peut prendre, en plus des mesures d'exécution visées aux articles 9 et 10, les autres mesures d'exécution que permet la Loi.

(2) Les autres mesures d'exécution visées au paragraphe (1) ne doivent pas être de nature punitive.

3. Les droits ou redevances que la municipalité peut fixer au titre de l'administration du système de pénalités administratives en vertu de l'article 391 de la Loi.

(2) Il est interdit d'exiger des frais pour l'obtention d'un examen devant un agent d'examen ou d'un réexamen devant un agent enquêteur.

(3) Les frais visés au paragraphe (1) ne font pas partie de la pénalité administrative aux fins du calcul des limites pécuniaires visées à l'article 6.

(4) Les frais visés au paragraphe (1) peuvent être ajoutés aux pénalités administratives en défaut et le montant additionnel peut être compris dans le montant à percevoir conformément aux mesures d'exécution prises par la municipalité en application des articles 9, 10 et 11.

(5) Si une personne a payé les frais visés au paragraphe (1) à l'égard d'une pénalité administrative et qu'un agent d'examen ou un agent enquêteur annule la pénalité par la suite, la municipalité lui rembourse la totalité des frais.

Pre-approved Framework Guideline
for Grade I and II Whiplash Associated Disorders

Superintendent's Guideline No. 06/07

July 2007

1. Introduction

This Guideline is issued pursuant to Section 268.3 of the *Insurance Act* for the purposes of the Statutory Accident Benefits Schedule (SABS).

This Guideline replaces the Pre-approved Framework Guideline for Whiplash Associated Disorder Grade I Injuries With or Without Complaint of Back Symptoms - Superintendent's Guideline No. 04/07, June, 2007 and the Pre-approved Framework Guideline for Whiplash Associated Disorder Grade II Injuries With or Without Complaint of Back Symptoms - Superintendent's Guideline No. 05/07, June, 2007.

For the purposes of this Guideline, the terms "injury" and "injuries" have the same meaning as "impairment" and "impairments" respectively, and "regulated health professional" has the same meaning as "member of a health profession" as defined in the SABS.

This Guideline is effective for new Pre-approved Framework (PAF) Treatment Confirmation Forms (OCF-23) that are submitted by a health practitioner on or after October 1, 2007, or when the insurer has waived the requirement for an OCF-23 on or after October 1, 2007. The previous WAD I and WAD II Guidelines remain in effect for OCF-23 forms that are submitted by a health practitioner before October 1, 2007, or when the insurer has waived the requirement for an OCF-23 before October 1, 2007.

The objective of this Guideline is to:

a) Speed access to rehabilitation for persons involved in auto accidents;

b) Improve utilization of health care resources; and

c) Provide certainty around cost and payment for insurers and health practitioners.

Consistent with these objectives, this Guideline sets out:

a) The goods and services that may be provided to an insured person who has sustained a Grade I or Grade II Whiplash Associated Disorder (WAD I or WAD II); and

b) The goods and services that, if provided to the insured person, will be paid for by the insurer without insurer approval.

This Guideline is focussed on the application of a functional restoration approach, in addition to the provision of interventions to reduce or manage pain or disability, in the management of Grade I and Grade II Whiplash Associated Disorders in the acute and sub-acute phases of the injury.

2. Impairments that come within this Guideline

Subject to the exceptions listed in Section 3, below, an insured person's impairment comes within this Guideline if he/she has a WAD I or WAD II injury.

The insured person may experience complaints and/or symptoms associated with a WAD I or WAD II injury such as: non-radicular back symptoms, shoulder pain, referred arm pain (not from radiculopathy), dizziness, tinnitus, headache, difficulties with hearing and memory acuity, dysphagia and temporomandibular joint pain. The Guideline shall continue to apply to insured persons who experience additional complaints and/or symptoms as long as the health practitioner believes that these complaints and/or symptoms can be effectively managed within the timeframe and scope of the Guideline interventions.

3. Impairments that do not come within this Guideline

An insured person's impairment does not come within this Guideline if the insured person has specific pre-existing and/or accident related occupational, functional or medical circumstances that:

A. Preclude the insured person from being able to fully participate in the functional restoration model; or

Require concurrent treatment in addition to the treatment that is provided within this Guideline,

and

B. Constitute compelling reasons why other goods or services are preferable to those provided for within this Guideline.

4. Providers able to deliver services within this Guideline

Providers who are able to deliver services within this Guideline are any health practitioners, as defined by the SABS, who are authorized by law to treat the injury and who have the ability to deliver the interventions included in this Guideline. The health practitioner may also co-ordinate the provision of services by other regulated health professionals, or may directly supervise the provision of services to the insured person by one or more other health providers.

5. Changing health practitioners within this Guideline

Insured persons who are already receiving services under this Guideline may occasionally decide to change their health practitioner. In this case, the new health practitioner will inform the insured person's insurer, who will advise the new health practitioner as to what services have already been provided under the Guideline. The health practitioner will then resume delivery of Guideline services at whatever stage is most appropriate in meeting the insured person's needs. Payment of the new health practitioner will be limited to the balance of the remaining services under this Guideline.

6. Definitions

This Guideline is focussed on the application of a functional restoration approach in the management of Grade I and II Whiplash Associated Disorders in the acute and sub-acute phases of the injury.

For the purposes of this Guideline:

a) **Whiplash** refers to an acceleration-deceleration mechanism of energy transfer to the neck that may result in bony or soft-tissue injuries and may lead to a variety of clinical manifestations called Whiplash-Associated Disorders (WAD) as set out in the Société de l'assurance automobile du Québec's Task Force Report titled "Redefining Whiplash and its Management", published in the April 15, 1995 edition of Spine.

b) **WAD I or Grade I whiplash-associated disorder** refers to a disorder in which the insured person with a whiplash injury presents with complaints of neck pain, stiffness, or tenderness but has no physical signs or findings.

c) **WAD II or Grade II whiplash-associated disorder** refers to a disorder in which the insured person with a whiplash injury presents with complaints of neck pain, stiffness, or tenderness, as well as musculoskeletal sign(s), including decreased range of motion and/or point tenderness.

d) **Functional restoration** refers to an approach in which the regulated health professional is oriented toward function and to the delivery of interventions that help the insured person to reduce or manage his/her pain. Interventions are focused on what the insured person needs to do in order to function in his/her home and work environment. The insured person is assessed to determine the level of current functioning relative to these critical demands and any functional limitations that have arisen as a result of the injury. The interventions delivered by the regulated health professional are then designed to address these areas of limitation such that the individual will be able to maintain and/or resume normal activities at home and at work.

e) **The acute phase of treatment** refers to weeks 1 – 3 following the initial visit.

f) **The sub-acute phase of treatment** refers to weeks 4 – 6 following the initial visit.

g) **The post-PAF phase of treatment** refers to weeks 7 – 8 following the initial visit.

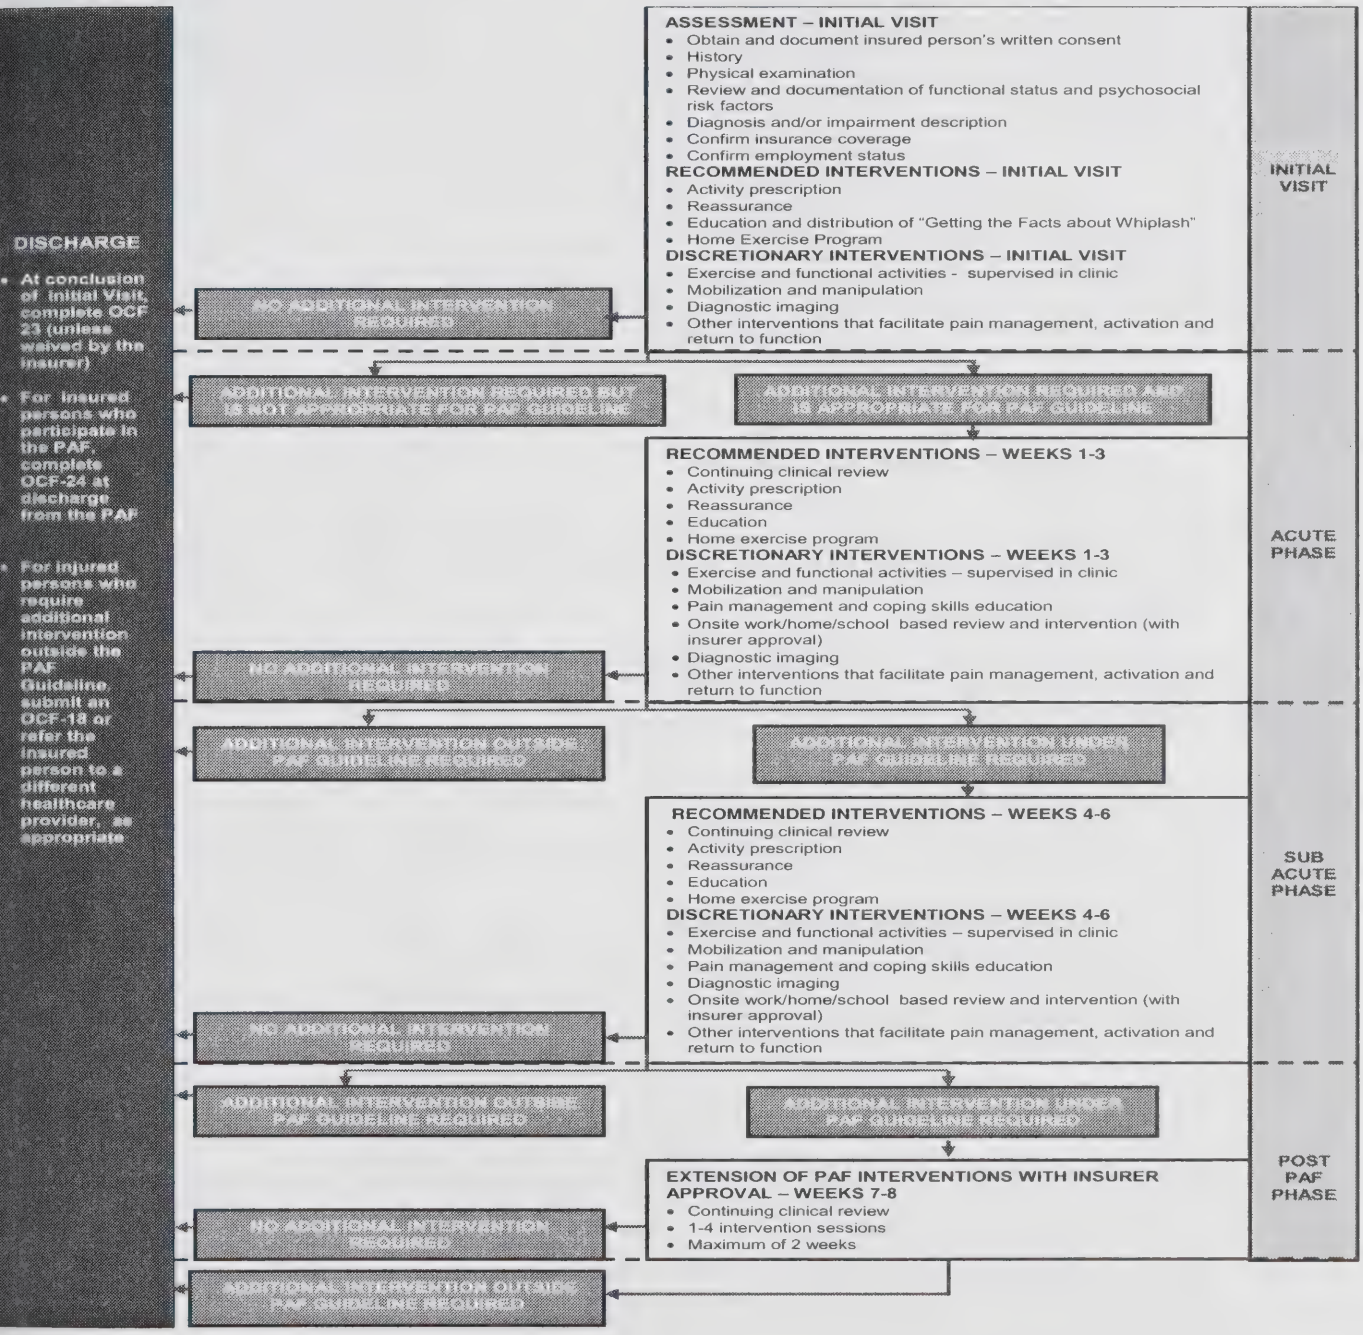

h) **Recommended interventions** refers to interventions that are ideally provided to the insured person by the health practitioner each time the insured person attends the health practitioner's clinic to receive PAF services.

i) **Discretionary interventions** refers to interventions that are not necessarily provided each time the insured person attends the health practitioner's clinic to receive PAF services, but rather are provided at the discretion of the health practitioner based upon the specific needs of the insured person. The use of the term "discretionary" to describe specific interventions that fall into this category **should not be interpreted** to mean that these interventions are less important in the treatment of the insured person.

7. PAF Guideline flowchart

The following flowchart represents both the elements and sequence of activities within this Guideline and is intended to be used as a visual guide and quick reference to those who are involved in the delivery and management of services under this Guideline. Each of the elements of this flowchart is described in more detail in the remainder of this document.

PAF Guideline Flowchart

8. The initial visit

a) Timing, duration and number of sessions during the initial visit

The initial visit and all components thereof, will take place on the same day and will ideally occur as soon as possible following the date of accident in order to be consistent with the scientific evidence and to support early/timely intervention. Health practitioners are encouraged to commence intervention during the initial visit.

b) Components of the initial visit

i. Assessment

In assessing the insured person, the health practitioner will be responsible for:

- **Undertaking a history, including:**
  - Demographics;
  - Prior history of injury, illness and/or disability;
  - Prior history of neck problems and/or whiplash injury;
  - Prior history of assessment and treatment;
  - Circumstances and mechanism of the current injury;
  - Symptoms associated with the current injury; and
  - Severity of symptoms associated with the current injury.

- **Completing a physical examination, including:**
  - Assessment of general condition;
  - Inspection;
  - Palpation for tender points;
  - Determination of range of motion;
  - Neurological examination; and
  - Assessment of associated injuries.

- **Reviewing and documenting functional status and psychosocial risk factors including:**
  - Changes in the insured person's functional status as a result of the injury and any associated functional limitations in his/her ability to perform work, home or school related functional demands;
    Psychosocial issues experienced by the insured person as a result of the injury; and
  - Other risk factors that are complicating or acting as barriers to recovery from the injury.

  It is understood that the review and documentation of functional status and psychosocial risks factors is within the scope of practice of the health practitioner and does not involve a formal psychological assessment. While it is recommended that the health practitioner employ standardized tools and instruments in the review of functional status and psychosocial risk factors, the specific tools used are left to the discretion of the individual health practitioner.

- **Identifying the diagnosis and/or impairment description, including;**
  - The Primary Diagnosis/Impairment Description (ICD 10 Codes); and
    The Secondary Diagnosis/Impairment Description (ICD 10 Codes).

- **Obtaining the insured person's informed consent to participate in the PAF and recording consent on the PAF Treatment Confirmation Form (OCF-23) (or elsewhere as appropriate if the insurer waives the requirement for the OCF-23)**

- **Through discussion with the insured person, confirming the insurance coverage (if known by the insured person) including:**
  - Obtaining the insured person's automobile insurance company, policy number and the name of the adjuster;
  - Determining if the insured person has any other insurance coverage for services (e.g. extended healthcare coverage); and
  - Determining if the insured person has contacted his/her insurance company. If contact with the insurance company has not yet occurred, the health practitioner will encourage the insured person to do so and to complete the Application for Accident Benefits (OCF 1).

- **Through discussion with the insured person, confirming the employment status to determine:**
  If he/she was working at the time of the accident;
  - If he/she was a care giver at the time of the accident; and
    If the injuries are preventing the insured person from fulfilling his/her work or care giving responsibilities.

ii. Recommended interventions during the initial visit

The interventions that are recommended during the initial visit include:

- **The activity prescription**
  The health practitioner will, as appropriate, encourage the insured person to remain active and maintain normal activities as an important factor in facilitating his/her recovery. In so doing, the health practitioner will focus on improvement in function and will encourage the adoption of an active, positive and realistic attitude toward recovery.

- **Reassurance**
  The health practitioner will, as appropriate, provide reassurance to the insured person regarding his/her injuries and the recovery process and will inform the insured person that most people with WAD I and WAD II are able to return to a pre-accident level of functioning within the first few weeks following the injury.

- **Education**
  The health practitioner will, as appropriate, distribute the brochure "Getting the Facts About Whiplash" (attached as Appendix A) and will educate the insured person regarding whiplash injuries, the symptoms that can be expected, the natural healing process and his/her prognosis for recovery.

- **Home exercise program**
  The health practitioner will, as appropriate, demonstrate and provide advice on how the insured person should safely and regularly exercise his/her neck. The health practitioner will customize an exercise program for the insured person to engage in at home, at work or at school.

iii. Discretionary interventions during the initial visit

The interventions that may be provided during the initial visit, at the discretion of the health practitioner, include:

- **Exercise and functional activities**
  If, based upon the initial assessment of the insured person, the health practitioner determines that the insured person would benefit from exercise and functional activities during the initial visit to facilitate his/her recovery and return to function, the health practitioner may provide these interventions. The types of exercises and functional activities should be based on the specific needs and functional requirements of the insured person and the clinical judgment of the health practitioner. The exercises and functional activities referred to in this section are supervised within the clinic environment and may include, but are not limited to:

  – Range of motion exercises;
  – Muscle re-education; and
  – Low load isometric exercise to restore appropriate muscle control and support to the cervical region.

- **Mobilization and manipulation**
  If, based upon the initial assessment of the insured person, the health practitioner determines that the insured person would benefit from mobilization and/or manipulation during the initial visit to facilitate his/her recovery and return to function, the health practitioner may provide these interventions. It should be noted that the scientific evidence indicates that during the acute phase, mobilization and manipulation are most effective in managing WAD I or WAD II when combined with exercise.

- **Diagnostic imaging**
  X-rays may be undertaken with the insured person without the prior approval of the insurer under the following circumstances:
  – The fees charged do not exceed those listed in Appendix C and any available funding from OHIP or collateral insurance is utilized before the insurer is charged;
  – No other comparable x-rays have been taken by another health practitioner or facility since the accident; and
  – The insured person displays one or more of the following:
    - Suspicion of a bony injury;
    - Suspicion of degenerative changes, instability or other conditions of sufficient severity that counter indications to one or more interventions must be ruled out;
    - Suspicion of rheumatoid arthritis;
    - Suspicion of osteoporosis; or
    - History of cancer.

- **Other interventions that facilitate pain management, activation and return to function**
  If, based upon the initial assessment of the insured person, the health practitioner determines that the insured person would benefit from other specific interventions to facilitate pain management, activation and return to function, these interventions may be provided during the initial or subsequent visits. This may include, but not be limited to massage therapy. The health practitioner should keep in mind the scientific evidence regarding the most appropriate interventions in the management of WAD I or WAD II injuries during the acute phase. The scientific evidence also indicates that interventions such as advice to rest and continuous use of a soft collar are contraindicated in the management of this population.

c) Recommendations for intervention based on the initial visit

Based upon the assessment of the insured person, the health practitioner will determine which of the following statements describes the recommendations for intervention at the conclusion of the initial visit:

i. No additional intervention is required;
ii. Additional intervention is required and is appropriate for this Guideline (therefore the insured person's impairment comes within the Guideline); or
iii. Additional intervention is required but is not appropriate for this Guideline (i.e., the insured person's impairment does not come within the Guideline for the reasons described in paragraph 3 of this Guideline).

d) Documentation and invoicing at the conclusion of the initial visit

At the conclusion of the initial visit, the health practitioner will complete and submit the OCF-23 (unless the insurer has waived the requirement for the OCF-23).

At the conclusion of the initial visit, the health practitioner may complete and submit the Auto Insurance Standard Invoice (OCF-21C) in order to generate a payment for the initial visit.

e) Fee for the initial visit (see Appendix B - PAF Fee Schedule)

The fee that will be paid for the initial visit is $204.00. This fee will be inclusive of all assessment and intervention services provided during the initial visit. The fee will be payable regardless of how many or what types of interventions are provided during the initial visit.

9. The acute phase

The insured person continues on to the acute phase of the Guideline if, based upon the assessment undertaken during the initial visit, the health practitioner determines that the Guideline applies to the insured person, and the insured person requires intervention under this Guideline to facilitate recovery and return to function.

a) Timing, duration and number of sessions in the acute phase

The acute phase will typically not exceed three weeks in duration and will ideally occur during weeks one, two and three following the date of accident in order to be consistent with the scientific evidence and to support early/timely intervention.

The sessions during the acute phase are in addition to any intervention provided during the initial visit. It is expected that the regulated health professional will deliver up to 10 sessions in the acute phase. The actual number of sessions delivered and how frequently they occur is based upon the needs of the insured person and the clinical judgement of the regulated health professional.

b) Components of the acute phase

i. Recommended interventions during the acute phase

- **Continuing clinical review**
  Throughout the acute phase, the health practitioner will regularly review the clinical status of the insured person and his/her progress toward functional restoration. Based upon the continuing clinical review, the health practitioner will make any necessary modifications in the approach to intervention.

- **Activity prescription (as described above under the initial visit)**

- **Reassurance (as described above under the initial visit)**

- **Education (as described above under the initial visit)**

- **Home exercise program (as described above under the initial visit)**

ii. Discretionary interventions during the acute phase

- **Exercise and functional activities (as described above under the initial visit)**

- **Mobilization and manipulation (as described above under the initial visit)**

- **Pain management and coping skills education**
  If, based upon the initial assessment and/or continuing clinical review during the acute phase, the health practitioner identifies that the insured person is displaying signs of distress or difficulties coping with the effects of his/her injury, the health practitioner may introduce pain management and coping skills education to address these barriers to recovery. It is recommended that the health practitioner employ a standardized approach to pain management and coping skills education however the specific approach is left to the discretion of the individual health practitioner.

- **Diagnostic imaging (as described above under the initial visit)**

- **Ancillary goods or services**
  With prior insurer approval, certain ancillary goods or services may be provided by a regulated health professional while the insured person continues to be covered by this Guideline.

  For the purposes of this Guideline, the ancillary goods or service which may be requested in the acute phase is the **onsite work/home/school based review and intervention**.

  The onsite work/home/school based review and intervention is specifically intended to address the insured person's functional issues and promote return to function. It is expected that this service will be required under this Guideline only when the insured person is experiencing significant challenges performing his/her functional requirements at work, at home or at school.

  In the event that the initial assessment and/or continuing clinical review during the acute phase reveals that the insured person is encountering significant issues performing functional tasks at work, at home or at school as a result of his/her injuries, an onsite work/home/school based review and intervention may be indicated. In such cases, the health practitioner will, in accordance with Section 37.2 of the SABS, request prior approval from the insurer on the OCF-23 (unless the requirement for the OCF-23 has been waived by the insurer). If the need for the onsite work/home/school based review and intervention is identified after the initial OCF-23 has been submitted to the insurer, then prior approval for this service will be requested on a separate OCF-23 (unless the requirement for the OCF-23 has been waived by the insurer).

  In delivering the onsite work/home/school based review and intervention, the regulated health professional will first undertake an onsite review of the workplace, home or school environment to gain a greater understanding of the significant challenges encountered by the insured person. The insured person will be present during the intervention. Based upon this review, the regulated health professional will intervene appropriately to address any challenges identified with the insured person. Related interventions may include, but are not limited to:

  Contacting the employer or school administrator (with the insured person's consent prior to application being made) to gain permission to conduct an onsite visit and to obtain information, such as a job description, where available.

  Recommending provision of aids and/or devices;

- Recommending minor modifications to the home, workplace or school environment;
- Providing instruction in compensatory strategies or alternate approaches to fulfilling functional tasks; and/or
- Assigning specific functional activities to build up tolerances.

The regulated health professional will document the onsite work/home/school based review and intervention, along with evidence of associated consents, on the insured person's file. The format used for this documentation is left to the clinical judgement of the regulated health professional and the requirements of their health regulatory college. The insurer may, from time to time, ask to review a copy of this documentation. The regulated health professional will also summarize the onsite work/home/school based review and intervention on the Pre-approved Framework Extension Request and Discharge Report (OCF-24).

The onsite work/home/school based review and intervention is not an assessment for the purposes of determining eligibility for housekeeping, attendant care or income replacement benefits.

- **Other Interventions that will facilitate pain management, activation and return to function (as described above under the initial visit)**

c) Supplementary goods and services during the acute phase

There may be occasions when the insured person experiences minor secondary injuries and/or symptoms that are not related to the WAD I or WAD II injury that require supplementary goods and/or services. In such cases, the health practitioner may provide the supplementary goods and/or services that are deemed necessary, up to a maximum cost of $166.79, without prior approval of the insurer, providing these secondary injuries/symptoms:

i. Resulted from the same accident as the WAD I or WAD II;

ii. Are not of sufficient type or severity to require goods or services beyond those available within this Guideline; and

iii. Can be adequately addressed within the Guideline.

d) Discharge status during or at the conclusion of the acute phase

Based upon continuing clinical review of the insured person and his/her progress during the acute phase, the health practitioner will determine which of the following statements describes the insured person's status when discharged during or at the conclusion of the acute phase:

i. No additional intervention is required (specify functional and employment status on the OCF-24);

ii. Additional intervention under this Guideline is required;

iii. Additional intervention outside this Guideline is required; or

iv. The insured person has been discharged from the PAF because he/she is non-compliant, is not attending sessions or voluntarily withdrew from the PAF.

e) Documentation and invoicing following the acute phase

The documentation that is required at the conclusion of the acute phase is determined by the insured person's discharge status, as described below.

i. If, after the acute phase, **no additional intervention is required**, the health practitioner will submit the OCF-24 with all the relevant sections completed.

The health practitioner will also submit an OCF-21C to bill for the goods and services delivered during the acute phase. This OCF- 21C must be submitted with the completed OCF-24.

ii. If, after the acute phase, **additional intervention under this Guideline is required**, the insured person will continue on to the sub-acute phase and therefore an OCF-24 is not required at this point.

The health practitioner may submit the OCF-21C to bill for goods and services delivered during the acute phase or may wait until the insured person is discharged from the PAF to submit the OCF-21C.

iii. If after the acute phase, **additional intervention outside this Guideline is required**, the health practitioner will submit the OCF-24 with the relevant sections completed.

The health practitioner will also submit an OCF-21C to bill for the goods and services delivered during the acute phase. This OCF- 21C must be submitted with the completed OCF-24.

The health practitioner will also inform the insurance company of the intervention outside of the PAF Guideline that is recommended for the insured person via submission of an OCF-18 or will refer the insured person to another health practitioner, as appropriate.

iv. If during the acute phase, **the insured person has been discharged from the PAF because he/she is non-compliant, is not attending sessions or voluntarily withdrew from the PAF**, the health practitioner will submit the OCF-24 with all relevant sections completed.

The health practitioner will also submit an OCF-21C to bill for the goods and services delivered during the acute phase. This OCF- 21C must be submitted with the completed OCF-24.

f) Fees for the acute phase (see Appendix B - PAF Fee Schedule)

The block fee that will be paid for the acute phase is $496.52. This fee is payable regardless of the type and number of interventions provided and the number of sessions that the insured person attends.

The block fee that will be paid when the onsite work/home/school based review and intervention is delivered is $408.00 plus travel and mileage at a rate agreed upon at the time the intervention is approved by the insurer. The onsite work/home/school based review and intervention fee may be billed only once under this Guideline. That is, if this fee is billed during the acute phase, it cannot be billed again during the sub-acute phase.

The fee for completion of the Pre-approved Framework Extension Request and Discharge Report (OCF-24) is $83.40. This fee will be billed once under this Guideline when the insured person is discharged from the PAF.

The maximum fee for supplementary goods and services under this Guideline is $166.79 and the transfer fee, if an insured person changes his/her PAF health practitioner, is $50.00.

10. The sub-acute phase

The insured person continues on to the sub-acute phase of the Guideline if, based upon the continuing clinical review undertaken during the acute phase, the health practitioner determines that the Guideline continues to apply to the insured person and the insured person requires additional PAF intervention to facilitate recovery and return to function.

a) Timing, duration and number of sessions during the sub-acute phase

The sub-acute phase will typically not exceed three weeks in duration and will ideally occur during the fourth, fifth and sixth weeks following the date of accident in order to be consistent with the scientific evidence and to support early/timely intervention.

It is expected that the health practitioner will deliver up to 9 sessions in the sub-acute phase. The actual number of sessions delivered and how frequently they occur is based upon the needs of the insured person and the clinical judgement of the health practitioner.

b) Components of the sub-acute phase

i. Recommended interventions during the sub-acute phase

- Continuing clinical review (as described above under the acute phase)
- Activity prescription (as described above under the initial visit)
- Reassurance (as described above under the initial visit).
- Education (as described above under the initial visit)
- Home exercise program (as described above under the initial visit)

ii. Discretionary interventions during the sub-acute phase

- Exercise and functional activities (as described above under the initial visit)
- Mobilization and manipulation (as described above under the initial visit)
- Pain management and coping skills education (as described above under the acute phase)
- Diagnostic imaging (as described above under the initial visit)
- Ancillary goods or services (as described above under the acute phase)
- Other Interventions that will facilitate pain management, activation and return to function (as described above under the initial visit)

c) Supplementary goods and services during the sub-acute phase (as described above under the acute phase)

d) Discharge status during or at the conclusion of the sub-acute phase

Based upon continuing clinical review of the insured person and his/her progress during the sub-acute phase, the health practitioner will determine which of the following statements describes the insured person's status when discharged during or at the conclusion of the acute phase:

i. No additional intervention is required (specify functional and employment status on the OCF-24);

ii. Additional intervention is required under the PAF Guideline, and therefore an extension of the PAF is required;

iii. Additional intervention is required outside the PAF Guideline; or

iv. The insured person has been discharged from the PAF because he/she is non-compliant, is not attending sessions or voluntarily withdrew from the PAF.

e) Documentation and invoicing following the sub-acute phase

The documentation that is required at the conclusion of the sub-acute phase is determined by the insured person's discharge status and is as described above under the acute phase.

However, if after the sub-acute phase, **additional intervention under this Guideline is required**, the health practitioner may seek approval from the insurer for an extension of PAF interventions without the need to submit an OCF-23 under section 37.2 of the SABS (Ancillary Goods or Services). If this approval is granted, it is not necessary for the health practitioner to submit the OCF-24 or the OCF-21C at this point given that the insured person will continue on to the post PAF phase. If the insurer does not grant approval for the extension without an OCF-23, the health practitioner may submit an OCF-23 under s. 37.2 of the SABS, or may proceed with submission of the OCF-24 and OCF-21C.

f) Fees for the sub-acute phase (see Appendix B - PAF Fee Schedule)

The fee that will be paid for the sub-acute phase is $425.32. This is a block fee that is payable regardless of the type and number of interventions provided and regardless of the number of sessions that the insured person attends.

All other fees (i.e. for onsite work/home/school based review and intervention, forms completion, supplementary goods and services, transfer of health practitioner) are as described in the acute phase and as reflected in the PAF fee schedule (Appendix B).

11. The post PAF phase

The requirement for an extension of PAF services will only occur when, based upon the continuing clinical review during the sub-acute phase, the health practitioner believes that up to four more PAF interventions are required in order to resolve the injury and for the insured person to successfully return to function. **Approval of the insurer, in accordance with section 37.2 of the SABS, is required for all extensions of PAF services in the post PAF phase**.

a) Timing, duration and number of sessions during the post PAF phase

The post PAF phase will typically not exceed two weeks in duration and will ideally occur during the seventh and eighth week following the date of accident in order to be consistent with the scientific evidence and to support early/timely intervention.

It is expected that the health practitioner will deliver up to 4 sessions in the post PAF phase. The actual number of sessions delivered and how frequently they occur is based upon the needs of the insured person and the clinical judgement of the health practitioner.

b) Components of the post PAF phase

The only component of the post PAF phase is the delivery of up to four additional PAF interventions deemed appropriate and necessary by the health practitioner in order to facilitate the insured person's recovery and return to function.

c) Discharge status during or at the conclusion of the post PAF phase

Based upon continuing clinical review of the insured person and his/her progress during the post PAF phase, the health practitioner will determine which of the following statements describes the insured person's status when discharged during or at the conclusion of the post PAF phase:

i. No additional intervention is required (specify functional and employment status on the OCF-24);

ii. Additional intervention outside of this Guideline is required; or

iii. The insured person has been discharged from the PAF because he/she is non-compliant, is not attending sessions, or voluntarily withdrew from PAF.

d) Documentation and invoicing following the post PAF phase

The documentation that is required at the conclusion of the post PAF phase is determined by the insured person's discharge status, as is described above under the acute phase.

e) Fees for the post PAF phase (see Appendix B - PAF Fee Schedule)

The fee that will be paid during the post PAF phase is $45.90 per session to a maximum of $183.60 for the entire post PAF phase. All other fees (i.e. onsite work/home/school based review and intervention, forms completion, supplementary goods and services, transfer of health practitioner) are as described in the acute phase and as reflected in the PAF fee schedule (Appendix B).

Getting the Facts about Whiplash Brochure*

Getting the facts about Whiplash: Grades I and II

People injured in car accidents sometimes experience a strain of the neck muscles and surrounding soft tissue, known commonly as whiplash. This injury often occurs when a vehicle is hit from the rear or the side, causing a sharp and sudden movement of the head and neck. Whiplash may result in tender muscles (Grade I) or limited neck movement (Grade II). This type of injury is usually temporary and most people who experience it make a complete recovery. If you have suffered a whiplash injury, knowing more about the condition can help you participate in your own recovery. This brochure summarizes current scientific research related to Grade I and II whiplash injuries.

Understanding Whiplash

- Most whiplash injuries are not serious and heal fully.

- Signs of serious neck injury, such as fracture, are usually evident in early assessments. Health care professionals trained to treat whiplash are alert for these signs.
- Pain, stiffness and other symptoms of Grades I or II whiplash typically start within the first 2 days after the accident. A later onset of symptoms does not indicate a more serious injury.
- Many people experience no disruption to their normal activities after a whiplash injury. Those who do usually improve after a few days or weeks and return safely to their daily activities.
- Just as the soreness and stiffness of a sprained ankle may linger, a neck strain can also feel achy, stiff or tender for days or weeks. While some patients get better quickly, symptoms can persist over a longer period of time. For most cases of Grades I and II whiplash, these symptoms gradually decrease with a return to activity.

Daily Activity and Whiplash

- Continuing normal activities is very important to recovery.
- Resting for more than a day or two usually does not help the injury and may instead prolong pain and disability. For whiplash injuries, it appears that "rest makes rusty."
- Injured muscles can get stiff and weak when they're not used. This can add to pain and can delay recovery.
- A return to normal activity may be assisted by active treatment and exercises.
- Cervical collars, or "neck braces," prevent motion and may add to stiffness and pain. These devices are generally not recommended, as they have shown little or no benefit.
- Returning to activity maintains the health of soft-tissues and keeps them flexible - speeding recovery. Physical exercise also releases body chemicals that help to reduce pain in a natural way.
- To prevent development of chronic pain, it is important to start moving as soon as possible.

Tips For Return To Activity

- Avoid sitting in one position for long periods.
- Periodically stand and stretch.
- Sit at your workstation so that the upper part of your arm rests close to your body, and your back and feet are well supported.
- Adjust the seat when driving so that your elbows and knees are loosely bent.
- When shopping or carrying items, use a cart or hold things close to the body for support.
- Avoid contact sports or strenuous exercise for the first few weeks to prevent further injury. Ask your health professional about other sporting or recreational activities.
- Make your sleeping bed comfortable. The pillow should be adjusted to support the neck at a comfortable height.

Treating Whiplash

- Research indicates that successful whiplash treatment requires patient cooperation and active efforts to resume daily activity.
- A treating health care professional will assess your whiplash injuries, and discuss options for treatment and control of pain.
- Although prescription medications are usually unnecessary, temporary use of mild over-the-counter medication may be suggested, in addition to ice or heat.
- Your treating health care professional may recommend appropriate physical treatment.

Avoiding Chronic Pain

- Some whiplash sufferers are reluctant to return to activity, fearing it will make the injury worse. Pain or tenderness may cause them to overestimate the extent of physical damage.
- If your health professional suggests a return to activity, accept the advice and act on it.
- Stay connected with family, friends and co-workers. Social withdrawal can contribute to depression and the development of chronic pain.
- If you are discouraged or depressed about your recovery, talk to your health professional.
- Focus on getting on with your life, rather than on the injury!

Preventing Another Whiplash Injury

- Properly adjusting the height of your car seat head restraint (head rest) will help prevent whiplash injury in an accident. In an ideal adjustment, the top of the head should be in line with the top of the head restraint and there should be no more than 2 to 5 cm between the back of the head and the head restraint.

This brochure provides general information about whiplash injuries. It does not replace advice from a qualified health care professional who can properly assess a whiplash injury and recommend treatment.

Lignes directrices préautorisées pour les blessures associées à une entorse cervicale de stade I ou II

Lignes directrices du surintendant no 06/07

Juillet 2007

1. Introduction

Les présentes lignes directrices sont établies conformément à l'article 268.3 de la *Loi sur les assurances* et pour les besoins de l'Annexe sur les indemnités d'accident légales (AIAL).

Elles remplacent les *Lignes directrices préautorisées pour les blessures associées à une entorse cervicale de stade I avec ou sans douleur dorsale – Lignes directrices du surintendant n° 04/06*, juin 2006 et les *Lignes directrices préautorisées pour les blessures associées à une entorse cervicale de stade II avec ou sans douleur dorsale – Lignes directrices du surintendant n° 05/06*, juin 2006.

Pour l'application des présentes lignes directrices, les termes « blessure » et « membre d'une profession de la santé réglementée » s'entendent respectivement au sens donné à « déficience » et « membre d'une profession de la santé » dans l'AIAL.

Les lignes directrices s'appliquent dans les cas où un nouveau formulaire « Confirmation du traitement selon les Lignes directrices préautorisées » (FDIO 23) est remis par un praticien de la santé à partir du 1er octobre 2007 et dans ceux où l'assureur renonce à l'obtention d'un formulaire FDIO 23 à partir du 1er octobre 2007. Les anciennes lignes directrices pour les blessures associées à une entorse cervicale de stade I et de stade II demeurent en vigueur pour les formulaires FDIO 23 qui sont présentés par un praticien de la santé avant le 1er octobre 2007 et les cas où l'assureur renonce à l'obtention du même formulaire avant le 1er octobre 2007.

Les présentes lignes directrices visent à :

a) accélérer l'accès à des services de réadaptation pour les personnes qui ont un accident de voiture;

b) améliorer l'utilisation des soins de santé;

c) aider les assureurs et les praticiens de la santé à déterminer avec exactitude les coûts et les paiements.

Conformément à ces objectifs, les présentes lignes directrices définissent :

a) les biens et services qui peuvent être fournis à une personne assurée ayant subi une entorse cervicale de stade I ou II;

b) les biens et services qui, s'ils sont fournis à une personne assurée, seront payés par l'assureur sans autorisation préalable.

Les lignes directrices ont avant tout pour but d'assurer l'application d'une **méthode de restauration fonctionnelle** combinée à des interventions visant à réduire ou à gérer la douleur ou l'invalidité dans le traitement des entorses cervicales de stade I ou II aux phases aiguë et subaiguë du traitement.

2. Types d'invalidité visés par les présentes lignes directrices

Sous réserve des exceptions prévues à la section 3 ci-dessous, l'invalidité d'une personne assurée est couverte par les présentes lignes directrices si elle découle d'une entorse cervicale de stade I ou II.

La personne assurée peut ressentir de la douleur ou présenter des symptômes associés à une entorse cervicale de stade I ou II, par exemple un mal de dos non radiculaire, des douleurs aux épaules, une douleur au bras nécessitant l'intervention d'un spécialiste (non reliée à la radiculopathie), des étourdissements, des acouphènes, des problèmes d'audition et de mémoire, de la dysphagie ou une douleur à l'articulation temporomandibulaire. Les lignes directrices continueront de s'appliquer aux personnes assurées qui ressentent d'autres types de douleur ou qui présentent d'autres symptômes, à condition que leur praticien de la santé considère qu'il est possible de gérer efficacement ces douleurs ou symptômes en respectant les délais et la portée des interventions figurant dans les lignes directrices.

3. Types d'invalidité non visés par les présentes lignes directrices

L'invalidité n'est pas couverte par les présentes lignes directrices si la personne assurée a un problème de nature professionnelle, fonctionnelle ou médicale, préexistant ou lié à un accident, qui remplit les critères suivants :

A. soit l'empêche de participer pleinement au modèle de restauration fonctionnelle;
soit exige un traitement parallèle en plus de celui prévu dans les présentes lignes directrices;

B. constitue une raison impérieuse justifiant le recours à d'autres biens et services plutôt qu'à ceux prévus dans les lignes directrices.

4. Fournisseurs admissibles

Les fournisseurs pouvant fournir les services prévus dans les présentes lignes directrices sont les praticiens de la santé, au sens de l'AIAL, que la loi autorise à traiter les blessures en question et qui sont en mesure de faire toutes les interventions prévues dans les présentes lignes directrices. En outre, les praticiens de la santé peuvent coordonner la prestation de services par d'autres membres d'une profession de la santé réglementée ou superviser directement la prestation de services à des personnes assurées par un ou plusieurs autres fournisseurs de soins de santé.

5. Changement de praticien de la santé

Il peut arriver qu'une personne assurée recevant déjà des services couverts par les présentes lignes directrices décide de changer de praticien de la santé. Dans ce cas, le nouveau praticien de la santé doit en informer l'assureur de la personne assurée, qui indiquera au nouveau praticien de la santé quels services prévus par les lignes directrices ont déjà été fournis. Par la suite, le nouveau praticien continuera de fournir les services prévus au stade qui convient de manière à répondre le mieux possible aux besoins de la personne assurée. Il ne pourra recevoir un paiement que pour les services qui restent à fournir.

6. Définitions

Les lignes directrices ont avant tout pour but d'assurer l'application d'une méthode de restauration fonctionnelle pour la gestion des entorses cervicales de stade I ou II aux phases aiguë et subaiguë du traitement.

Les définitions qui suivent s'appliquent aux présentes lignes directrices.

a) **Entorse cervicale :** Résultat d'un mécanisme de transfert d'énergie au cou, par accélération-décélération, qui peut provoquer une lésion des os ou du tissu mou ainsi que diverses manifestations cliniques appelées collectivement troubles associés à l'entorse cervicale (TAEC), au sens du rapport du Groupe de travail sur les troubles associés à l'entorse cervicale de la Société de l'assurance automobile du Québec intitulé *Redéfinir le « Whiplash » et sa prise en charge* qui a été publié dans l'édition du 15 avril 1995 de la revue *Spine*.

b) **Entorse cervicale de stade I :** Trouble qui se manifeste chez les personnes assurées ayant subi un coup de fouet cervical par une douleur au cou, une raideur ou une douleur à la pression sans signes physiques.

c) **Entorse cervical de stade II :** Trouble qui se manifeste chez les personnes assurées ayant subi un coup de fouet cervical par une douleur au cou, une raideur ou une douleur à la pression ainsi que par des atteintes musculosquelettiques, notamment la réduction de l'amplitude des mouvements ou une sensibilité localisée.

d) **Restauration fonctionnelle :** Approche qui est utilisée par un membre d'une profession de la santé réglementée pour rétablir la capacité fonctionnelle et qui comprend des interventions visant à aider la personne assurée à réduire ou gérer sa douleur. Les interventions sont centrées sur ce que la personne assurée doit faire pour rétablir son autonomie fonctionnelle à la maison et au travail. La personne est soumise à une évaluation destinée à déterminer le niveau de fonctionnement actuel par rapport aux besoins essentiels et les limites fonctionnelles découlant de la blessure. Les interventions du membre d'une profession de la santé réglementée sont ensuite choisies en fonction des limites afin de permettre à la personne de poursuivre ou de reprendre ses activités habituelles à la maison et au travail.

e) **Phase aiguë du traitement :** Semaines 1 à 3 qui suivent la visite initiale.

f) **Phase subaiguë du traitement :** Semaines 4 à 6 qui suivent la visite initiale.

g) **Phase de prolongation du traitement :** Semaines 7 et 8 qui suivent la visite initiale.

h) **Intervention recommandée :** Intervention qui est idéalement faite par le praticien de la santé de la personne assurée chaque fois que celle-ci se rend à sa clinique pour recevoir des services couverts par les lignes directrices préautorisées.

i) **Intervention discrétionnaire :** Intervention qui n'a pas nécessairement lieu chaque fois que la personne assurée se rend à la clinique du praticien de la santé pour bénéficier de services couverts par les lignes directrices préautorisées mais qui est plutôt faite à la discrétion du praticien de la santé en fonction des besoins précis de la personne. Le terme « discrétionnaire » ne signifie pas que l'intervention en question joue un rôle secondaire dans le traitement de la personne assurée.

7. Diagramme des lignes directrices préautorisées

Le diagramme ci-dessous indique à la fois les étapes qui sont couvertes par les présentes lignes directrices et leur ordre. Il vise à servir de guide visuel et d'aide-mémoire aux personnes qui participent à la prestation et à la gestion des services couverts. Chaque composante du diagramme est expliquée en détail dans le reste du document.

8. Visite initiale

a) Moment, durée et nombre de consultations

La visite initiale et toutes les interventions qui en font partie ont lieu le même jour et, idéalement, dès que possible après l'accident de manière à respecter la démarche nécessaire selon les preuves scientifiques dont on dispose et à favoriser une intervention rapide. Les praticiens de la santé sont encouragés à commencer l'intervention au cours de la visite initiale.

b) Composantes de la visite initiale

i. Évaluation

Dans le cadre de l'évaluation de la personne assurée, le praticien de la santé doit faire ce qui suit :

- **Vérifier les antécédents, notamment :**
  - les données démographiques;
  - les blessures, maladies ou invalidités antérieures;
    les entorses ou problèmes cervicaux antérieurs;
  - les évaluations et les traitements antérieurs;

les circonstances et le mécanisme de la blessure actuelle;
les symptômes associés à la blessure actuelle;
la gravité des symptômes associés à la blessure actuelle.

- **Effectuer un examen physique, notamment :**
  - évaluer l'état général;
    faire une inspection;
    palper les points douloureux;
    déterminer l'amplitude des mouvements;
    effectuer un examen neurologique;
  - évaluer les blessures connexes.

- **Examiner les capacités fonctionnelles et les facteurs de risque psychosociaux et les consigner, notamment :**
  les changements dans les capacités fonctionnelles de la personne assurée qui découlent de la blessure et, le cas échéant, les limites fonctionnelles pour la réalisation d'activités au travail, à la maison ou à l'école;
  les problèmes psychosociaux découlant de la blessure;
  - d'autres facteurs de risque qui compliquent ou empêchent la guérison.

Il est entendu que l'examen des capacités fonctionnelles et des facteurs de risque psychosociaux et leur consignation font partie du champ d'activité du praticien de la santé et n'exigent pas d'examen psychologique en bonne et due forme. Même s'il est recommandé d'employer des outils et instruments normalisés pour faire l'examen des capacités fonctionnelles et des facteurs de risque psychosociaux, le praticien de la santé peut utiliser les outils de son choix.

- **Établir un diagnostic ou définir l'invalidité, notamment :**
  le diagnostic primaire ou l'invalidité (codes CIM 10);
  le diagnostic secondaire ou l'invalidité (codes CIM 10).

- **Obtenir le consentement éclairé de la personne assurée pour les traitements couverts par les lignes directrices préautorisées en lui faisant signer le formulaire « Confirmation du traitement selon les Lignes directrices préautorisées » (FDIO 23) (ou un autre document au besoin si l'assureur n'exige pas de formulaire FDIO 23).**

- **En discutant avec la personne assurée, vérifier la protection dont elle bénéficie (si elle est au courant), c'est-à-dire :**
  - obtenir le nom de la société d'assurance automobile, le numéro de police et le nom de l'expert en sinistres;
    déterminer si la personne assurée a une autre protection couvrant les services (p. ex., une assurance-maladie complémentaire);
    demander à la personne assurée si elle a communiqué avec son assureur et, si elle ne l'a pas fait, l'encourager à le faire et à remplir le formulaire « Demande d'indemnités d'accident » (FDIO 1).

- **Demander à la personne assurée sa situation d'emploi afin de déterminer :**
  - si elle travaillait au moment de l'accident;
  - si elle prodiguait des soins à quelqu'un au moment de l'accident;
    si ses blessures l'empêchent d'assumer ses responsabilités professionnelles ou de prodiguer des soins.

ii. Interventions recommandées pour la visite initiale

Les interventions recommandées pour la visite initiale comprennent ce qui suit.

- **Prescrire des activités**
  S'il y a lieu, le praticien de la santé encouragera la personne assurée à demeurer active et à poursuivre ses activités habituelles, car ce sont des facteurs importants dans le processus de rétablissement. Ce faisant, le praticien favorisera l'amélioration fonctionnelle, l'activité et l'adoption d'une attitude positive et réaliste à l'égard du rétablissement.

- **Fournir du réconfort**
  Au besoin, le praticien de la santé fournira du réconfort à la personne assurée au sujet de sa blessure et du processus de rétablissement et lui signalera que la plupart des personnes ayant subi une entorse cervicale de stade I ou II recouvrent les capacités fonctionnelles qu'elles avaient avant l'accident en l'espace de quelques semaines.

- **Donner des renseignements**
  Le praticien de la santé distribuera, s'il y a lieu, le dépliant intitulé *L'entorse cervicale : les faits* (ci-joint, à titre d'annexe A) et renseignera la personne assurée sur les entorses cervicales, les symptômes habituels, le processus naturel de guérison et le pronostic de rétablissement.

- **Recommander un programme d'exercices à la maison**
  Au besoin, le praticien de la santé montrera à la personne assurée des exercices sécuritaires pour le cou qu'elle devra faire régulièrement et lui donnera des conseils à ce sujet. En outre, il établira des exercices personnalisés que la personne pourra faire à la maison, au travail ou à l'école.

iii. Interventions discrétionnaires durant la visite initiale

Les interventions que peut faire le praticien de la santé durant la visite initiale comprennent ce qui suit.

- **Faire des exercices et des activités fonctionnelles**
  Si, d'après l'évaluation initiale, le praticien de la santé détermine que des exercices et des activités fonctionnelles durant la visite initiale faciliteraient le rétablissement de la personne assurée et la reprise de ses activités, il peut faire ce type d'interventions. Les exercices et les activités doivent être déterminés d'après les besoins et les exigences fonctionnelles de la personne assurée et le jugement du praticien de la santé. Les activités fonctionnelles et exercices dont il est question dans la présente section font l'objet d'une supervision clinique et peuvent comprendre :

- des exercices visant à restaurer l'amplitude des mouvements;
  des exercices de réadaptation musculaire;
  des exercices isométriques avec de faibles charges destinés à rétablir le contrôle musculaire et le support de la région cervicale.

- **Utiliser la manipulation et la mobilisation**
  Si, d'après l'évaluation initiale, le praticien de la santé estime que la mobilisation et la manipulation durant la visite initiale faciliteraient le rétablissement de la personne assurée et la reprise de ses activités, il peut faire ce type d'interventions. Il est à noter que, selon les preuves scientifiques dont on dispose, pour que la mobilisation et la manipulation soient le plus efficaces durant la phase aiguë d'une entorse cervicale de stade I ou II, elles doivent être jumelées à des exercices.

- **Recourir à l'imagerie diagnostique**
  Il est permis de faire des radiographiques de la personne assurée sans l'autorisation préalable de l'assureur dans les cas suivants :

  - les honoraires ne dépassent pas ceux figurant à l'annexe C et l'Assurance-santé de l'Ontario ou une assurance complémentaire est facturée avant l'assureur;
  - aucune autre radiographie semblable n'a été prise par un autre praticien de la santé ou établissement de santé depuis l'accident;
  - au moins l'une des conditions suivantes est remplie :
    - une lésion osseuse est suspectée;
    - il y a une possibilité de changements dégénératifs, d'instabilité ou d'autres états suffisamment graves pour que les contre-indications relatives à une ou plusieurs interventions soient exclues;
    - une polyarthrite rhumatoïde est suspectée;
    - il y a une possibilité d'ostéoporose;
    - a personne a des antécédents de cancer.

- **Prévoir d'autres interventions visant à faciliter la gestion de la douleur, le mouvement et la reprise des activités**
  Si, d'après l'évaluation initiale, le praticien de la santé est d'avis que d'autres interventions précises visant à faciliter la gestion de la douleur, le mouvement et la reprise des activités, par exemple, des traitements de massothérapie, seraient bénéfiques à la personne assurée, il peut faire ces interventions durant la visite initiale ou les visites subséquentes. Le praticien doit tenir compte des preuves scientifiques dont on dispose afin de déterminer l'intervention qui convient le mieux pour traiter une entorse cervicale de stade I ou II durant la phase aiguë. Selon les preuves scientifiques, des interventions telles que le repos et le port continu d'un collier souple sont contre-indiquées pour le traitement d'une entorse cervicale.

c) Interventions recommandées d'après la visite initial

Le praticien de la santé se basera sur l'évaluation de la personne assurée pour déterminer à la fin de la visite initiale quelle est la conclusion parmi les suivantes qui convient le mieux :

i. Il n'est pas nécessaire de poursuivre les interventions.

ii. D'autres interventions couvertes par les présentes lignes directrices sont nécessaires (l'invalidité de la personne assurée est donc couverte par les lignes directrices).

iii. D'autres interventions non couvertes par les présentes lignes directrices sont nécessaires (l'invalidité de la personne assurée n'est donc pas couverte par les lignes directrices pour les motifs exposés au point 3 des présentes lignes directrices).

d) Documents et facture à la fin de la visite initiale

À la fin de la visite initiale, le praticien de la santé remplira et enverra le formulaire FDIO 23 (à moins que l'assureur ne l'exige pas).

Le praticien peut également remplir et envoyer le formulaire « Facture d'assurance-automobile standard » (FDIO 21, version C) afin d'obtenir un paiement pour la visite initiale.

e) Honoraires pour la visite initiale (se reporter à l'annexe B intitulée « Tableau des honoraires pour les interventions couvertes par les lignes directrices préautorisées »)

Des honoraires de 204,00 $ seront versés pour la visite initiale. Ce montant comprend toutes les évaluations et les interventions effectuées durant la visite initiale et c'est celui qui est versé quel que soit le nombre ou le type d'interventions effectuées durant la visite initiale

9. Phase aiguë

La personne assurée entre dans la phase aiguë du traitement si, d'après l'évaluation effectuée durant la visite initiale, la praticien de la santé établit que les lignes directrices s'appliquent et que les interventions qui y sont prévues sont nécessaires pour faciliter le rétablissement et la reprise des activités de la personne assurée.

a) Moment, durée et nombre de consultations

En général, la phase aiguë dure au plus trois semaines et se déroule idéalement durant les première, deuxième et troisième semaines qui suivent l'accident de manière à respecter la démarche nécessaire selon les preuves scientifiques dont on dispose et à favoriser une intervention rapide.

Les consultations durant la phase aiguë s'ajoutent aux interventions faites durant la visite initiale. Le membre d'une profession de la santé réglementée devrait donner un maximum de 10 consultations durant cette phase. Leur nombre réel et leur fréquence dépendent des besoins de la personne assurée et du jugement du membre d'une profession de la santé réglementée.

b) Composantes de la phase aiguë

i. Interventions recommandées pour la phase aiguë

- **Poursuivre les examens cliniques**
  Durant la phase aiguë, le praticien de la santé fera régulièrement des examens cliniques de l'état de la personne assurée et de ses progrès vers la restauration des capacités fonctionnelles et modifiera les interventions au besoin.

- **Prescrire des activités (se reporter à la section ci-dessus sur la visite initiale)**

- **Fournir du réconfort (se reporter à la section ci-dessus sur la visite initiale)**

- **Donner des renseignements (se reporter à la section ci-dessus sur la visite initiale)**

- **Recommander un programme d'exercices à la maison (se reporter à la section ci-dessus sur la visite initiale)**

ii. Interventions discrétionnaires durant la phase aiguë

- **Faire des exercices et des activités fonctionnelles (se reporter à la section ci-dessus sur la visite initiale)**

- **Utiliser la mobilisation et la manipulation (se reporter à la section ci-dessus sur la visite initiale)**

- **Donner des renseignements sur la gestion do la douleur et les habiletes d'adaptation**
  Si, d'après l'évaluation initiale et les examens cliniques réguliers effectués durant la phase aiguë, le praticien de la santé constate que la personne assurée semble souffrir ou avoir de la difficulté à gérer les effets de sa blessure, il peut lui donner des renseignements sur la gestion de la douleur et les habiletés d'adaptation afin d'éliminer les obstacles à son rétablissement. Même si, pour ce faire, il est recommandé d'employer une méthode standard, le praticien de la santé peut utiliser la méthode de son choix.

- **Recourir à l'imagerie diagnostique (se reporter à la section ci-dessus sur la visite initiale)**

- **Fournir des biens ou des services accessoires**
  Avec l'approbation préalable de l'assureur, un membre d'une profession de la santé réglementée peut fournir des biens ou des services accessoires pendant que la personne assurée est couverte par les présentes lignes directrices.

  Pour l'application des lignes directrices, **l'inspection et l'intervention sur place au travail, à la maison ou à l'école** constituent les biens ou services accessoires qui peuvent être demandés durant la phase aiguë.

  L'inspection et l'intervention sur place au travail, à la maison ou à l'école visent surtout à régler les problèmes fonctionnels de la personne assurée et à faciliter la reprise des activités. Ce service fourni dans le cadre des lignes directrices ne devrait être nécessaire que si la personne assurée a beaucoup de difficulté à effectuer des tâches fonctionnelles au travail, à la maison ou à l'école.

  Si l'évaluation initiale ou les examens cliniques réguliers effectués durant la phase aiguë révèlent que la personne assurée a beaucoup de difficulté à effectuer des tâches fonctionnelles au travail, à la maison ou à l'école à cause de ses blessures, il peut être bon de faire une inspection et une intervention sur place au travail, à la maison ou à l'école. Dans ce cas, le praticien de la santé demande l'approbation de l'assureur dans le formulaire FDIO 23 conformément à l'article 37.2 de l'AIAL (à moins que l'assureur ne renonce à cette exigence). S'il ressort qu'une inspection et une intervention sur place au travail, à la maison ou à l'école est nécessaire une fois que le premier formulaire FDIO 23 a été envoyé à l'assureur, il faut obtenir une approbation préalable pour ce service en présentant un nouveau formulaire FDIO 23 (à moins que l'assureur ne renonce à cette exigence).

  Lorsqu'il doit faire une inspection et une intervention sur place au travail, à la maison ou à l'école, le membre d'une profession de la santé réglementée commence par inspecter les lieux afin de bien comprendre les principales difficultés de la personne assurée. Celle-ci doit idéalement être présente durant l'intervention. Une fois l'inspection terminée, le membre d'une profession de la santé réglementée fera une intervention appropriée afin d'éliminer les difficultés relevées. Il peut notamment :

  - communiquer avec l'employeur ou la direction de l'école (avec le consentement préalable de la personne assurée) afin d'obtenir la permission d'effectuer une visite sur place et d'obtenir des renseignements, comme une description de travail, s'il en existe une;
  - recommander que des aides ou des appareils soient fournis;
    recommander que des modifications mineures soient apportées au milieu à la maison, dans le lieu de travail ou à l'école;
    proposer des stratégies compensatoires ou d'autres façons de procéder pour accomplir des tâches fonctionnelles;
    attribuer des activités fonctionnelles précises afin d'accroître la tolérance.

  Le membre d'une profession de la santé réglementée consignera des renseignements sur l'inspection et l'intervention sur place au travail, à la maison ou à l'école dans le dossier de la personne assurée et y versera les documents prouvant que les consentements nécessaires ont été donnés. La forme que prendront les renseignements et documents en question dépendra du jugement du membre d'une profession de la santé réglementée ainsi que des exigences de l'ordre de réglementation des professionnels de la santé dont il relève. L'assureur peut demander d'examiner ces renseignements et documents en tout temps. Le membre d'une profession de la santé réglementée résumera l'inspection et l'intervention sur place au travail, à la maison et à l'école dans le Demande de prolongation du traitement prescrit selon les Lignes directrices pré-autorisées et rapport de congé (FDIO 24).

  L'inspection et l'intervention sur place au travail, à la maison ou à l'école ne constituent pas une évaluation visant à déterminer l'admissibilité à des services d'entretien ménager, des services d'auxiliaires ou une indemnité de remplacement de revenu.

- **Prévoir d'autres interventions visant à faciliter la gestion de la douleur, le mouvement et la reprise des activités (se reporter à la section ci-dessus sur la visite initiale)**

c) Biens et services supplémentaires durant la phase aiguë

Il peut arriver que la personne assurée subisse des blessures secondaires légères ou présente des symptômes non liés à une entorse cervicale de stade I ou II pour lesquels des biens ou des services supplémentaires sont nécessaires. Dans ce cas, le praticien de la santé peut fournir les biens ou services supplémentaires jugés nécessaires, jusqu'à concurrence de 166,79$, sans l'approbation préalable de l'assureur, à condition que les blessures secondaires ou les symptômes :

i. découlent du même accident que l'entorse cervicale de stade I ou II;

ii. soient d'un type ou d'une gravité qui ne nécessite pas de biens ou services autres que ceux couverts par les présentes lignes directrices;

iii. puissent être soignés au moyen des biens et services prévus dans les présentes lignes directrices.

d) État au moment du congé durant ou après la phase aiguë

D'après les examens cliniques réguliers et les progrès réalisés durant la phase aiguë, le praticien de la santé déterminera quelle est la conclusion parmi les suivantes qui concorde avec l'état de la personne assurée au moment de son congé durant ou après la phase aiguë :

i. Il n'est pas nécessaire de poursuivre les interventions (préciser le statut fonctionnel et le statut d'emploi dans le formulaire FDIO 24).

ii. D'autres interventions couvertes par les lignes directrices préautorisées sont nécessaires.

iii. D'autres interventions non couvertes par les lignes directrices préautorisées sont nécessaires.

iv. La personne assurée a obtenu son congé parce qu'elle ne se conformait pas aux lignes directrices préautorisées, elle ne se présentait pas aux consultations ou elle a choisi de ne plus se prévaloir des interventions couvertes par les lignes directrices préautorisées.

e) Documents et facture après la phase aiguë

Les documents exigés à la fin de la phase aiguë dépendent de l'état de la personne assurée lorsqu'elle obtient son congé, conformément aux explications données ci-dessous.

i. Si, après la phase aiguë, **il n'est pas nécessaire de poursuivre les interventions**, le praticien de la santé enverra le formulaire FDIO 24 après avoir rempli toutes les sections utiles.

   En outre, il enverra le formulaire FDIO 21 – Version C pour facturer les biens et services fournis durant la phase aiguë. Ce formulaire doit accompagner le formulaire FDIO 24.

ii. Si, après la phase aiguë, **d'autres interventions couvertes par les lignes directrices préautorisées sont nécessaires**, la personne assurée passera à la phase subaiguë. Par conséquent, il ne sera pas nécessaire de remplir un formulaire FDIO 24 à ce stade.

   Le praticien de la santé peut envoyer un formulaire FDIO 21 – Version C pour facturer les biens et services fournis durant la phase aiguë ou attendre que la personne assurée obtienne son congé pour le faire.

iii. Si, après la phase aiguë, **d'autres interventions non couvertes par les lignes directrices préautorisées sont nécessaires**, le praticien de la santé enverra un formulaire FDIO 24 après avoir rempli les sections utiles.

   Le praticien de la santé enverra également un formulaire FDIO 21 – Version C pour facturer les biens et services fournis durant la phase aiguë. Ce formulaire doit accompagner le formulaire FDIO 24.

   En outre, le praticien informera l'assureur de l'intervention recommandée non couverte par les lignes directrices préautorisées en lui faisant parvenir un formulaire FDIO 18 ou il renverra la personne assurée à un autre praticien de la santé, au besoin.

iv. Si, durant la phase aiguë, **la personne assurée a obtenu son congé parce qu'elle ne se conformait pas aux lignes directrices préautorisées, elle ne participait pas aux consultations ou elle a choisi de ne plus se prévaloir des interventions couvertes par les lignes directrices préautorisées**, le praticien de la santé enverra un formulaire FDIO 24 après avoir rempli toutes les sections utiles.

   Le praticien de la santé enverra également un formulaire FDIO 21 – Version C pour facturer les biens et services fournis durant la phase aiguë. Ce formulaire doit accompagner le formulaire FDIO 24.

f) Honoraires pour la phase aiguë (se reporter à l'annexe B intitulée « Tableau des honoraires pour les interventions couvertes par les lignes directrices préautorisées »)

Les honoraires forfaitaires payables pour la phase aiguë s'élèvent à 496,52$. C'est ce montant qui est versé quel que soit le nombre ou le type d'interventions et le nombre de consultations données à la personne assurée.

Les honoraires forfaitaires versés pour l'inspection et l'intervention sur place au travail, à la maison ou à l'école se chiffrent à 408,00 $, plus les frais de déplacement et le kilométrage à un taux convenu au moment où l'intervention est approuvée par l'assureur. Selon les présentes lignes directrices, des honoraires pour l'inspection et l'intervention sur place au travail, à la maison ou à l'école ne peuvent être facturés qu'une seule fois. Autrement dit, si ces honoraires sont facturés durant la phase aiguë, il ne sera pas possible d'en facturer d'autres durant la phase subaiguë.

Les honoraires pouvant être exigés pour remplir le Demande de prolongation du traitement prescrit selon les Lignes directrices pré-autorisées et rapport de congé (FDIO 24) sont de 83,40 $. Conformément aux lignes directrices, ils ne sont facturés qu'une seule fois, c'est à-dire au moment où la personne assurée obtient son congé.

Les honoraires maximums pour les biens et services supplémentaires couverts par les présentes lignes directrices sont de 166,79 $ et les honoraires de transfert versés lorsqu'une personne assurée change de praticien de la santé sont de 50,00 $.

10. Phase subaiguë

La personne assurée arrive à la phase subaiguë du traitement si, d'après les examens cliniques réguliers effectués durant la phase aiguë, le praticien de la santé détermine que les lignes directrices préautorisées continuent de s'appliquer et que des interventions supplémentaires couvertes par ces lignes directrices sont nécessaires afin de faciliter le rétablissement de la personne assurée et la reprise de ses activités.

a) Moment, durée et nombre de consultations

En général, la phase subaiguë a une durée maximale de trois semaines et se déroule idéalement durant les quatrième, cinquième et sixième semaines qui suivent l'accident de manière à respecter la démarche nécessaire selon les preuves scientifiques et à favoriser une intervention rapide.

Le praticien de la santé devrait offrir un maximum de 9 consultations durant la phase subaiguë. Leur nombre réel et leur fréquence dépendent des besoins de la personne assurée et du jugement du praticien de la santé.

b) Composantes de la phase subaiguë

i. Interventions recommandées pour la phase subaiguë

- **Poursuivre les examens cliniques (se reporter à la section ci-dessus sur la phase aiguë)**
- **Prescrire des activités (se reporter à la section ci-dessus sur la visite initiale)**
- **Fournir du réconfort (se reporter à la section ci-dessus sur la visite initiale)**
- **Donner des renseignements (se reporter à la section ci-dessus sur la visite initiale)**
- **Recommander un programme d'exercices à la maison (se reporter à la section ci-dessus sur la visite initiale)**

ii. Interventions discrétionnaires pour la phase subaiguë

- **Faire des exercices et des activités fonctionnelles (se reporter à la section ci-dessus sur la visite initiale)**
- **Utiliser la mobilisation et la manipulation (se reporter à la section ci-dessus sur la visite initiale)**
- **Donner des renseignements sur la gestion de la douleur et les habiletés d'adaptation (se reporter à la section ci-dessus sur la phase aiguë)**
- **Recourir à l'imagerie diagnostique (se reporter à la section ci-dessus sur la visite initiale)**
- **Fournir des biens ou des services accessoires (se reporter à la section ci-dessus sur la phase aiguë)**
- **Prévoir d'autres interventions visant à faciliter la gestion de la douleur, le mouvement et la reprise des activités (se reporter à la section ci-dessus sur la visite initiale)**

c) Biens et services supplémentaires durant la phase subaiguë (se reporter à la section ci-dessus sur la phase aiguë)

d) État au moment du congé durant ou après la phase subaiguë

D'après les examens cliniques réguliers et les progrès réalisés durant la phase subaiguë, le praticien de la santé déterminera quelle conclusion parmi les suivantes correspond à l'état de la personne assurée lorsqu'elle obtient son congé durant ou après la phase subaiguë :

i. Il n'est pas nécessaire de poursuivre les interventions (préciser le statut fonctionnel et le statut d'emploi dans le formulaire FDIO 24).

ii. D'autres interventions couvertes par les lignes directrices préautorisées sont nécessaires – il faut donc prolonger les interventions couvertes par les lignes directrices préautorisées.

iii. D'autres interventions non couvertes par les lignes directrices préautorisées sont nécessaires.

iv. La personne assurée a obtenu son congé parce qu'elle ne se conformait pas aux lignes directrices préautorisées, elle ne se présentait pas aux consultations ou elle a choisi de ne plus se prévaloir des interventions couvertes par les lignes directrices préautorisées.

e) Documents et facture après la phase subaiguë

Les documents exigés à la fin de la phase subaiguë dépendent de l'état de la personne assurée lorsqu'elle obtient son congé, conformément aux explications données dans la section portant sur la phase aiguë.

Cependant, si, après la phase subaiguë, **d'autres interventions couvertes par les présentes lignes directrices sont nécessaires**, le praticien de la santé peut demander à l'assureur d'approuver une prolongation des interventions couvertes sans avoir à envoyer le formulaire FDIO 23, de la façon

prévue par l'article 37.2 de l'AIAL (biens ou services accessoires). Si l'assureur donne son approbation, le praticien de la santé n'est pas tenu d'envoyer un formulaire FDIO 24 ou FDIO 21 – Version C à ce stade, étant donné que la personne assurée passera à la phase de prolongation. Si l'assureur n'approuve pas la prolongation sans recevoir un formulaire FDIO 23, le praticien de la santé peut envoyer un formulaire FDIO 23, comme le prévoit l'article 37.2 de l'AIAL, ou encore les formulaires FDIO 24 et FDIO 21 – Version C.

f) Honoraires pour la phase subaiguë (se reporter à l'annexe B intitulée « Tableau des honoraires pour les interventions couvertes par les lignes directrices préautorisées »)

Les honoraires payables pour la phase subaiguë s'élèvent à 425,32 $. C'est ce montant qui est versé quel que soit le nombre ou le type d'interventions et le nombre de consultations données à la personne assurée.

Tous les autres honoraires (p. ex., pour l'inspection et l'intervention sur place au travail, à la maison ou à l'école, les formulaires à remplir, les biens et services supplémentaires ou le changement de praticien) sont ceux indiqués dans la section sur la phase aiguë et dans l'annexe B intitulée « Tableau des honoraires pour les interventions couvertes par les lignes directrices préautorisées ».

11. Phase de prolongation du traitement couvert par les lignes directrices préautorisées

Les services couverts par les lignes directrices préautorisées ne seront prolongés que si, d'après les examens cliniques réguliers effectués durant la phase subaiguë, le praticien de la santé est d'avis qu'au plus quatre interventions supplémentaires couvertes par les lignes directrices préautorisées sont nécessaires pour assurer la guérison de la blessure et permettre à la personne assurée de reprendre ses activités avec succès. **Conformément à l'article 37.2 de l'AIAL, l'approbation de l'assureur est nécessaire pour toutes les prolongations du traitement couvert par les lignes directrices en question**.

a) Moment, durée et nombre de consultations

En général, la phase de prolongation dure au plus deux semaines et se déroule idéalement durant les septième et huitième semaines qui suivent l'accident de manière à respecter la démarche nécessaire selon les preuves scientifiques et à favoriser une intervention rapide.

Le praticien de la santé devrait offrir un maximum de 4 consultations durant la phase de prolongation du traitement. Leur nombre réel et leur fréquence dépendent des besoins de la personne assurée et du jugement clinique du praticien de la santé.

b) Composantes de la phase de prolongation

Cette phase ne compte qu'une seule composante, c'est à-dire un maximum de quatre interventions supplémentaires couvertes par les lignes directrices préautorisées que le praticien de la santé juge indiquées et nécessaires au rétablissement de la personne assurée et à la reprise de ses activités.

c) État au moment du congé durant ou après la phase de prolongation

D'après les examens cliniques réguliers et les progrès réalisés durant la phase de prolongation, le praticien de la santé déterminera quelle conclusion parmi les suivantes correspond à l'état de la personne assurée lorsqu'elle obtient son congé durant ou après la phase de prolongation :

i. Il n'est pas nécessaire de poursuivre les interventions (préciser le statut fonctionnel et le statut d'emploi dans le formulaire FDIO 24).

ii. D'autres interventions non couvertes par les lignes directrices préautorisées sont nécessaires.

iii. La personne assurée a obtenu son congé parce qu'elle ne se conformait pas aux lignes directrices préautorisées, elle ne se présentait pas aux consultations ou elle a choisi de ne plus se prévaloir des interventions couvertes par les lignes directrices préautorisées.

d) Documents et facture après la phase de prolongation

Les documents exigés à la fin de la phase de prolongation dépendent de l'état de la personne assurée lorsqu'elle obtient son congé. Les états sont expliqués ci-dessus dans la section portant sur la phase aiguë.

e) Honoraires pour la phase de prolongation (se reporter à l'annexe B intitulée « Tableau des honoraires pour les interventions couvertes par les lignes directrices préautorisées »)

Les honoraires payables pour chaque consultation durant la phase de prolongation sont de 45,90 $, jusqu'à concurrence de 183,60 $ pour toute la phase. Tous les autres honoraires (p. ex., pour l'inspection et l'intervention sur place au travail, à la maison ou à l'école, les formulaires à remplir, les biens et services supplémentaires ou le changement de praticien) sont ceux indiqués dans la section sur la phase aiguë et dans l'annexe B intitulée « Tableau des honoraires pour les interventions couvertes par les lignes directrices préautorisées ».

Les faits sur l'entorse cervicale*

Les faits sur l'entorse cervicale de stade I ou II

Les personnes qui ont un accident de voiture subissent parfois un claquage des muscles du cou et des tissus mous environnants appelé communément entorse. Ce genre de blessure survient le plus souvent lorsqu'une voiture est heurtée à l'arrière ou sur le côté, ce qui provoque un mouvement brusque de la tête et du cou. Une entorse cervicale peut causer des douleurs musculaires (stade I) ou aller jusqu'à limiter les mouvements du cou (stade II). C'est un type de blessure le plus souvent temporaire, qui guérit presque toujours complètement. Si vous avez subi une entorse cervicale, des renseignements relatifs à votre blessure peuvent vous aider à participer à votre propre guérison. La présente brochure résume l'état actuel des recherches scientifiques sur les blessures associées à une entorse cervicale de stade I ou II.

Renseignements généraux sur les entorses cervicales

- La plupart des entorses cervicales sont sans gravité et guérissent complètement.
- Les signes de blessures graves au cou, comme les fractures, sont le plus souvent évidents dès les premiers examens. Les professionnels de la santé formés pour le traitement des entorses cervicales surveillent ces signes.
- La douleur, la raideur et les autres symptômes des entorses cervicales de stade I ou II surviennent le plus souvent dans les deux premiers jours suivant l'accident. L'apparition tardive des symptômes ne signifie pas que la blessure est plus sérieuse.
- La plupart du temps, une entorse cervicale n'empêche pas les gens de poursuivre leurs activités normales. Dans le cas contraire, ils les reprennent le plus souvent en toute sécurité après quelques jours ou quelques semaines.
- À l'instar des douleurs et de la raideur résultant d'une entorse de la cheville, celles provoquées par une entorse cervicale peuvent persister pendant des jours ou des semaines. Il y a des patients qui guérissent rapidement, mais il y en a d'autres chez qui les symptômes persistent longtemps. Dans la plupart des cas d'entorse cervicale de stade I ou II, les symptômes diminuent avec la reprise des activités.

Poursuite des activités quotidiennes

- La poursuite des activités normales contribue grandement à la guérison.
- En général, le repos pendant un jour ou deux n'aide pas à guérir et a plutôt pour effet de prolonger la douleur et l'invalidité. En cas d'entorse cervicale, il semblerait que « plus on se repose, plus on est rouillé ».
- Les muscles blessés ont tendance à se raidir et à faiblir lorsqu'ils manquent d'exercice, ce qui peut accroître la douleur et retarder la guérison.
- La reprise des activités normales peut être facilitée par un traitement et des exercices actifs.
- Les collets cervicaux empêchent de bouger, ce qui peut faire augmenter la raideur et la douleur. En général, ils ne sont pas recommandés, car les effets bénéfiques sont minimes ou inexistants.
- La reprise des activités garde les tissus mous sains et souples, ce qui accélère la guérison. L'exercice produit également des substances chimiques naturelles dans l'organisme qui réduisent la douleur.
- Pour empêcher les douleurs chroniques, il faut absolument redevenir actif le plus vite possible.

Conseils pour la reprise des activités

- Éviter de demeurer assis dans la même position pendant de longues périodes.
- Levez-vous régulièrement pour faire des étirements.
- Asseyez-vous à votre poste de travail en gardant la partie supérieure des bras près du corps et en veillant à ce que votre dos et vos pieds soient bien appuyés.
- Lorsque vous conduisez, placez votre siège de manière à ce que vos coudes et vos genoux soient légèrement pliés.
- Pour faire des emplettes ou transporter des objets, servez-vous d'un chariot ou tenez les objets près de votre corps pour réduire l'effort.
- Évitez les sports de contact et les exercices intenses pendant les premières semaines, afin de prévenir de nouvelles blessures. Demandez l'avis de votre professionnel de la santé sur les autres sports ou loisirs auxquels vous pourriez vous adonner.
- Veillez à ce que votre lit soit confortable. Placez l'oreiller à une hauteur confortable pour bien soutenir votre cou.

Traitement des entorses cervicales

- Selon les recherches, plus le patient coopère et s'efforce de reprendre ses activités quotidiennes, meilleures sont les chances de succès du traitement des entorses cervicales.
- Votre professionnel de la santé traitant évaluera votre entorse cervicale et discutera des options pour le traitement et le soulagement de la douleur.
- Les médicaments sur ordonnance sont rarement nécessaires, mais il peut être conseillé d'employer des médicaments sans ordonnance légers, en plus d'appliquer de la glace ou de la chaleur.
- Votre professionnel de la santé traitant peut recommander un traitement physique approprié.

Pour éviter les douleurs chroniques

- Une partie des personnes qui ont subi une entorse cervicale hésitent à reprendre leurs activités parce qu'elles craignent d'aggraver leur blessure. La douleur peut les amener à surestimer l'étendue des dommages.
- Si votre professionnel de la santé conseille de reprendre vos activités, n'hésitez pas à le faire.
- Restez en communication avec vos parents, amis et collègues. L'isolement peut favoriser la dépression et les douleurs chroniques.

- Si vous ressentez du découragement en pensant à votre guérison, parlez en à votre professionnel de la santé.
- Efforcez-vous de reprendre vos activités au lieu de ne songer qu'à votre blessure!

Prévention

- Placez l'appuie-tête de votre siège de voiture à la hauteur qui convient peut aider à prévenir une autre entorse cervicale en cas d'accident. Idéalement, le haut de la tête devrait être aligné avec le haut de l'appuie-tête, et l'espace entre la tête et l'appuie-tête devrait être d'au plus 2 à 5 cm.

La présente brochure contient des renseignements généraux sur les entorses cervicales. Elle n'est pas destinée à remplacer les conseils d'un professionnel de la santé compétent capable de bien évaluer une entorse cervicale et de recommander un traitement.

Capital Adequacy Guideline for Ontario's Credit Unions and Caisses Populaires
February 1, 2007

1. INTRODUCTION

During the past two years the Ministry of Finance, in collaboration with the Financial Services Commission of Ontario and the Deposit Insurance Corporation of Ontario, has been working with the representatives of the credit unions and caisses populaires to modernize the Credit Unions and Caisses Populaires Act, 1994. This review has resulted in new capital and lending rules, effective February 1, 2007. This document provides guidance to Ontario credit unions and caisses populaires on the new capital adequacy rules that were introduced by the Ontario Regulation 560/06, which amended Regulation 76/95. The guideline provides the framework for the credit unions and caisses populaires to maintain adequate capital pursuant to the act and regulation.

This document replaces the Capital Adequacy Guideline for Ontario's Credit Unions and Caisses Populaires that was first published on March 1, 1995. The term "institutions" in this document refers to credit unions and caisses populaires.

1.1 Overview of Major Changes

Class 1 and Class 2

Effective February 1, 2007, all institutions will be designated Class 1 or Class 2 based on the following criteria:

Class 1 – These institutions are smaller, less complex credit unions that have less than $50 million in total assets and do not make commercial loans. These institutions are subject to quantitative limits prescribed by the regulation for each class of loan they make. These limits have been updated in two revised tables for individual and aggregate limits. These institutions are subject only to the simple capital test known as the leverage test. The updated, simplified rules maintain the same high level of system soundness and consumer protection, without imposing complex regulatory requirements that require sophisticated compliance mechanisms.

Class 2 – These institutions have more than $50 million in total assets or make commercial loans. These institutions are required to establish prudent lending limits for each class of loans they make (e.g. commercial, personal etc.) These institutions are subject to two capital adequacy tests: the capital to asset (leverage) test and the risk- weighted test based on international standards known as "Basel II" capital test.

Graduating From Class 1 to Class 2

An institution may graduate from Class1 to Class 2 when the total asset size on its most recent audited financial statements exceed $50 million. In accordance with the regulation on lending policy and procedure manuals, preparation should be made when total assets approach $50 million and the institution will have to comply with the lending regulations for Class 2 institutions. An institution may also become a Class 2 institution upon application to the Superintendent to make commercial loans, subject to meeting the conditions described in the regulation. A change will also occur if the combined assets of amalgamating institutions exceed $50 million. Once an institution becomes a Class 2 institution it cannot revert back to Class 1 either as a result of a change in its total assets to below $50 million or a as a result of ceasing to make commercial loans.

Changes in the Calculation of the Regulatory Capital

- In addition to goodwill, all intangible assets are to be deducted from tier 1 capital. Previously, only goodwill was deducted.
- Certain portions of loan loss provision are to be included in regulatory capital

Capital to Risk Weighted Asset Ratio

This ratio for Class 2 institutions now includes, lower risk weighting for smaller commercial loans, increased risk weighting for certain delinquent loans, different risk weighting for commercial loans with a credit rating from an specified credit rating agency, a percentage charge for operational risk on average financial margin and non-interest income over the last three fiscal years of the institution and a percentage charge for the institution's exposure to interest rate risk.

2. CAPITAL ADEQUACY

Institutions are required to meet capital adequacy standards prescribed by the regulations as well as these guidelines. For this purpose, the Superintendent has established minimum standards. The **first** requires a minimum level of capital in relation to a unit's total assets applicable to all institutions. The **second** focuses on the credit risk of specific on-and off-balance sheet asset categories, applicable to only Class 2 institutions.

Similarly, leagues are required to meet capital adequacy standards prescribed by the regulations as well as these guidelines. For this purpose, the Superintendent has established for leagues one minimum standard at 5%: a capital-to-assets test. This provides an overall measure of the adequacy of league's capital in relation to its assets.

Institutions must meet capital adequacy requirements on both an unconsolidated basis (i.e. the legal entity) and a consolidated basis unless the Superintendent permits otherwise. The consolidated basis includes all of the institution's subsidiaries as defined by *The Credit Unions and Caisses Populaires Act 1994*, S.O.1994, except insurance subsidiaries or other regulated financial institutions whose leverage is inappropriate for a deposit-taking institution and who, because of their size, would have a material impact on the consolidated entity.

2.1 Capital-to-Assets (Leverage Test)

The Leverage Test is applicable to both Class 1 & 2 institutions. The capital-to-assets ratio is calculated by dividing the institution's total capital by its total assets. The required levels of capital are outlined in Part V of the Regulations made under the Act.

Leverage Test

Regulatory capital expressed as a percentage of total assets. The minimum ratio for Class1 institutions will be 5%. The minimum leverage ratio for Class 2 institutions will decrease from 5% to 4% over the next three years.

2.2 Risk-Based Capital (BIS II Test)

Risk Weighted Test (applicable for only Class 2 institutions)

The BIS II ratio is 8%, calculated by assigning risk weighted values for all the assets of the institutions and applicable operational risk and interest rate risk.

Under the risk-based capital adequacy framework, a financial institution's minimum capital requirement is defined as a ratio of total capital (**the numerator**) divided by risk-weighted assets and risk-weighted off-balance sheet items (**the denominator**). Generally, the risk weighting will be assigned based on an assessment of the counterparty or, if relevant, of the guarantor or of the collateral. The regulation and/or guidelines have been amended to incorporate revised risk-weighting for certain categories and include operational risk and interest rate risk elements. The guidelines may be adjusted in future by the Superintendent so that other risks - position risk, and foreign exchange risk - may be formally considered.

2.3 Payment of Dividends

The Superintendent may, according to the terms of the variance issued to the unit, limit its ability to pay dividends. In general, the Superintendent will exercise his discretion according to the following criterion: if the risk-based capital ratio or the capital-to-assets ratio is below the prescribed level, cash dividends will not be permitted, but share dividends may be permitted.

Although the guidelines do not prescribe a minimum level of retained earnings, the Superintendent continues to view retained earnings as a preferred form of equity. Where an institution makes a dividend payment from previous years earnings, the Superintendent may view this practice as a potential impairment of capital and erosion of the unit's financial position and may exercise his discretion under subsection 85(1) to require additional capital. For the purpose of determining capital adequacy for the redemption of shares and payment of dividends including patronage returns, the Accumulated Other Comprehensive Income is not to be included as part of regulatory capital.

2.4 Capital Adequacy Requirements for Leagues

All leagues are required to meet a capital-to-assets test. The capital-to-assets ratio is calculated by dividing the league's total capital by its total assets. The required level of capital is outlined in Part V of the regulations made under the act and regulation 77/95.

Leagues will not be required to meet a risk-weighted test. Any league that does not meet its capital adequacy requirement must obtain a variance from the Superintendent. As part of the variance, the Superintendent may set annual targets. A league that falls below these targets will not be permitted to pay a cash dividend but may be permitted to pay a share dividend.

2.5 Calculation of the Capital-to-Assets Ratio

All institutions and leagues will be required to maintain the prescribed level of capital throughout its fiscal year. However, for the purposes of measuring compliance based on the audited financial statements produced at the fiscal year end, an adjustment may be made to "total assets" on the following condition:

Where an institution or league experiences an unusually large influx of deposits (which would cause it to be in non-compliance with the capital-to-assets test) within the last five business days of its fiscal year end, it may reduce its total assets by these deposits. The amount of these deposits is to be the net amount after deducting withdrawals over the same period.

3. DEFINITION OF CAPITAL

The three primary considerations for determining whether capital of an institution qualifies for capital adequacy are its:

1. relative permanence;

2. freedom from mandatory fixed charges against earnings; and

3. subordination of legal position to the rights of depositors and other creditors of the credit union.

Note: The concepts of "permanence," "freedom from mandatory fixed charges," and "subordination" are defined in Appendix I.

Total capital is made up of two tiers. **Tier 1** capital ("core capital") is the highest quality. **Tier 2** capital ("supplementary capital") falls short in either permanence or freedom from charges, but contributes to the overall strength of a financial institution as a going concern. Tier 1 or tier 2 shares may contain a feature that permits redemption upon the death or expulsion of the member without changing its classification as either tier 1 or tier 2. The capital elements in tier 1 and 2 capital, as well as the various limits, restrictions and deductions to which they are subject, are specified next.

3.1 Tier 1 Capital

Tier 1 capital is restricted to:

- member equity, defined to include membership shares, contributed surplus, reserves, and retained earnings;
- 90% of the issued and outstanding qualifying non-cumulative, non-membership shares (where these shares have a 10% redeemability);
- 100% of qualifying non-cumulative, non-membership shares (where no redeemability feature exists) (see Appendix I); and
- qualifying minority interests in subsidiaries arising on consolidation of tier 1 capital instruments;
- investments by the Deposit Insurance Corporation of Ontario or a stabilization authority as approved by the Superintendent.

3.2 Tier 2 Capital

A capital instrument will qualify as tier 2 capital if it has an element of permanence, and has certain characteristics of both equity and debt. The maximum amount of these instruments that can be included in tier 2 capital is 100% of tier 1 capital.

Tier 2 will include the following instruments:

Capital instruments that, at a minimum, have these characteristics:

- 10% of tier 1 capital that are redeemable at the holder's initiative and have not been redeemed;
- 90% of the issued and outstanding capital instruments that have a 10% redeemability feature;
- 90% of the unamortized portion of qualifying redeemable shares and subordinated debentures;
- 100% of the capital instruments that are not redeemable at the holder's initiative;
- 100% of the capital instruments that may be redeemable by the credit union after an initial term of five years;
- are available to participate in losses without triggering an end to ongoing operations or the start of insolvency proceedings; and
- allow debt service obligations to be deferred (as with cumulative preferred shares) if the profitability of the credit union/caisse populaire would not support payment;
- are unsecured, subordinated to the rights of depositors and other creditors of the credit union and fully paid up;
- Tier 2 will also include any loan loss allowance in excess of a specific loan loss allowance up to:
    - 0.75% of the total assets of the credit union (leverage ratio/test).
    - 1.25% of the risk weighted assets for the credit union (BIS ratio/test).

3.3 League Guarantee of Capital

Where a league or other body provides a guarantee of capital, which is satisfactory to the Superintendent, the amount of this guarantee will be deducted from the capital of the league.

3.4 Qualifying Minority Interest

Minority interests arising on consolidation of an institution's financial statements with those of its subsidiaries will be included in either tier 1 or tier 2 capital, provided:

- the instruments meet the criteria applicable to that category; and
- are subordinate to the rights of the institution's depositors.

If a subsidiary issues capital instruments for the funding of its parent credit union or substantially in excess of its requirements, the terms and conditions of the issue, as well as inter-company transfers, must ensure that members are placed in the same position as if the instrument was issued by the regulated credit union in order for it to qualify as capital on consolidation.

3.5 Deductions/Adjustments

Deductions from tier 1 capital include:

- Goodwill, unless unconditionally guaranteed;
- Other identified intangible assets
  - Note: This rule applies to identified intangible assets purchased **directly or acquired** in conjunction with or arising from the acquisition of a business. These include, but are not limited to, trademarks, core deposit intangibles, mortgage servicing rights and purchased credit card relationships. Identified intangible assets include those related to consolidated subsidiaries and subsidiaries deconsolidated for regulatory capital purposes.

Deductions from tier 1 and tier 2 capital include:

- appraisal increases;
- income tax recoverable that cannot be realized through a carry-back to preceding years;
- deferred tax debits that will not be realized in the following fiscal year;
- investments in unconsolidated subsidiaries and in corporations that are accounted for using the equity method of accounting, as well as capital issues between two or more financial institutions that represent, either, directly or indirectly, back-to-back placements.

4. RISK-WEIGHTED ASSETS

4.1 On-balance sheet

In establishing the denominator of the risk-based capital ratio, the assets of an institution and credit equivalent amounts for off-balance sheet items are assigned risk categories. These risk categories are prescribed under the regulation. Generally, classification is according to the nature of the counterparty or, if relevant, of the guarantor or of the collateral.

Amounts included in these categories are multiplied by the risk weight for the category, with the resulting weighted values added together to arrive at total risk-weighted assets.

The amount of assets such as goodwill, intangibles, investments in corporations carried on the equity method of accounting, or back-to-back securities that are deducted from capital are risk weighted at 0%. Where goodwill has been unconditionally guaranteed, it will not be deducted from tier 1 capital.

Certain types of collateral such as cash, government securities and residential mortgages will be recognized for the purpose of reducing the credit risk of claims. That portion of a claim covered by collateral will be assigned the weight given to the collateral. However the collateral must represent more than 25% of the loan and the credit union/caisse populaire must internally account for the calculation separately.

4.2 Off-balance sheet assets (See Appendix II)

The face amount of an off-balance sheet instrument does not always reflect the amount of the credit risk. To approximate the potential credit exposure, the face amount of the instrument must be multiplied by a credit conversion factor to derive a credit equivalent. Broadly, the credit conversion factors are:

- 100% direct credit substitutes;
- 0% unused portions of commitments with an original maturity of one year or less or unconditionally cancelable at any time (e.g. normal line of credit).

The resulting credit equivalent is then treated in the same manner as an on-balance sheet instrument. It is then assigned the weight appropriate to the counterparty or, if relevant, the weight assigned to the guarantor or the collateral security.

A commitment involves an obligation (with or without a material adverse change or similar clause) of an institution to fund its member in the normal course of business should the member seek to draw down the commitment. Normally, commitments involve a written contract or agreement and a commitment fee or some other form of consideration.

4.3 Commercial loans

All commercial loans that do not exceed 0.035% of the institution's total assets and $1.25 million described under paragraph 15(5)3 are rated 75% for risk weighting. Commercial loans not covered under paragraph 15(5)3 the percentage of risk weighting will be 100% unless a different weighting is applicable

based on the credit rating of an approved external credit rating agency. For applicable rates see Appendix III. Risk weighting on loans that qualify under paragraph 15(7)1 are 150%.

4.4 Operational Risk (Regulation 15(9))

The charge for operational risk is calculated based on average financial margin and non-interest income over the last three fiscal years, exclude any year in which financial margin, when added to non-interest income, did not exceed zero. An example for the calculation has been provided on Appendix IV.

4.5 Interest Rate Risk (Regulation 15(12))

The charge for interest rate risk of the institution's exposure to interest rate risk.
An example has been provided in Appendix V.

APPENDIX I

Non-Membership Shares (Tier 1)

Other types of shares may qualify as tier 1 instrument depending on their form and substance. Factors to consider include:

- subordination;
- relative permanence; and
- freedom from mandatory fixed charges.

Subordination

These shares must be subordinated to an institution's depositors and unsecured creditors. If shares are issued by a subsidiary to fund the regulated parent company and are to qualify for capital (minority interest), the terms and conditions of the issue, as well as the inter-company transfer, must ensure that investors are placed in the same position as if the instrument were issued by the regulated parent company.

Permanence

To ensure that these shares are permanent, the following features are not permitted:

- retraction by the holder except under death or expulsion of a member;
- obligation for the issuer to redeem more than 10% of the outstanding shares.

For example, an issue would not be considered non-cumulative if it had a conversion feature that compensated for undeclared dividends. Similarly, a conversion feature that provided a return of capital or compensation for unpaid dividends would be unacceptable.

Free of Mandatory Fixed Charges

Shares included in tier 1 capital cannot offer:

- cumulative dividends;
- compensation to shareholders other than a dividend;
- sinking or purchase funds.

In addition, the non-declaration of a dividend cannot trigger restrictions on the credit union/caisse populaire other than requiring shareholder's approval before paying dividends on or retiring other shares.

To conform with accepted practice, in the event of non-declaration of a dividend, shareholder's approval of shares may be sought before:

1) paying dividends on any shares ranking junior to the shares (other than stock dividends in any shares ranking junior to the shares); or

2) redeeming, buying, or otherwise retiring any share ranking junior to the shares (except out of the net cash proceeds of a substantially concurrent issue of shares ranking junior to the shares); or

3) redeeming, buying, or otherwise retiring less than all such shares; or

4) except pursuant to any purchase obligation, sinking fund, retraction privilege, or mandatory redemption provisions attached to any series of shares, redeeming, buying, or otherwise retiring any shares at parity with such shares.

Example of Acceptable Features

Outlined below are some share features that may be acceptable in tier1 capital instruments:

- A dividend that floats at some fixed relationship to an index or the highest of several indices as long as the index or indices are linked to general market rates and not to the financial condition of the credit union/caisse populaire;

- A dividend rate that is fixed for a period of years and then shifts to a rate that floats over an index, plus an additional amount tied to the increase in share dividends if the index is not based on the credit union/ caisse populaire's financial condition and the increase is not automatic nor of an exploding rate nature; and

- Conversion of shares to another form of shares where the minimum conversion value or the way it is to be calculated is established at the date of issue.

Examples of Unacceptable Features

Examples of unacceptable features in tier 1 capital include:

- An exploding rate share, where the dividend rate is fixed or floating for a period and then sharply increases to an uneconomically high level; and

- An auction rate share in which the dividend is reset periodically based, in whole or part, on the institution's financial condition.

Amortization

Tier 2 capital components are subject to straight-line amortization in the last five years before maturity or the effective dates governing the holders' retraction rights. As redeemable shares and subordinated debentures of the credit union/ caisse populaire,- or minority interest shares and qualifying instruments issued by a subsidiary approach maturity, redemption or retraction, such outstanding balances are to be amortized as follows:

Years to Maturity	Included in Capital
5 years or more	100%
less than 5 years or more than 4	80%
less than 4 years or more than 3	60%
less than 3 years or more than 2	40%
less than 2 years or more than 1	20%
Less than 1 year	0%

Similarly for capital instruments that have sinking funds, amortization of the amount paid into the sinking fund should begin five years before payment is made. This is required because the amount in the sinking fund is not subordinated to the rights of depositors.

APPENDIX II

Off-Balance Sheet Categories

The definitions in this section apply to off-balance sheet exposures.

Direct Credit Substitutes (100% conversion factor)

Direct credit substitutes include guarantees or equivalent instruments backing financial claims. With a direct credit substitute, the risk of loss to an institution is directly dependent on the creditworthiness of the counterparty.

Direct credit substitutes include:

- Guarantees given by the institution on behalf of members to stand behind a member's financial obligations and to satisfy these obligations should the member fail to do so. For example a guarantee of:
  - existing indebtedness for services;
  - purchase agreements;
  - leases, loans or mortgage payments;
  - certified cheques;
  - sales taxes to the government;
  - existing indebtedness for merchandise purchased;
  - payment of unfunded pension liability;
  - reinsurance of financial obligations.
- Standby letters of credit or other equivalent irrevocable obligations, serving as financial guarantees, such as letters of credit supporting the issue of commercial paper.
- Risk participation in bankers' acceptance and risk participation in financial letters of credit. Risk participation constitutes guarantees by the participating institutions such that, if there is a default by the underlying obligor, they will indemnify the selling institution for the full principal and interest attributable to them; securities lending transactions, where the institution is liable to its customer for any failure to recover the securities lent; and credit derivatives in the book where an institution is selling credit protection.

APPENDIX III

Long Term Rating Table for Commercial Loans

In most cases, commercial loans under paragraph 15(6)1 are risk weighted at 100% unless a credit rating from a specified external credit rating agency is applicable.

The following are the risk weightings to be applied on commercial loans which exceed 0.035% of the institution's total assets and $1.25 million per regulation 15(8) where a credit rating as specified is applicable.

Risk Weight %	DBRS	S&P/FITCH	Moody's
20	AAA to AA (low)	AAA to AA -	Aaa to Aa3
50	A(high) to A (low)	A+ to A-	A1 to A3
100	BBB (high) to B (low)	BBB+ to B-	Ba1 to B3
150	CCC	Below B-	Below B3

APPENDIX IV

Operational Risk

An institution's capital charge for operational risk is calculated as 15% of the average net interest income and all of its other non interest income over the most recent 3 years. A simple example of the calculation is provided.

Example: Net interest income and all of its other non interest income for years 1, 2, and 3 are $100,000, $125,000 and $150,000 respectively.	**O.Reg 76/95 as amended to O.Reg 560/06** **Paragraph 15(10):**
The average over 3 years is [$100,000 + $125,000+ $150,000] ÷3 = $125,000	$\frac{E+F+G}{H}$
The capital charge for operational risk is 15% of $125,000 = **$18, 750 (D)**	$D = [(E+F+G)/H] \times 0.15$

Note: For periods of less than three years, the average is calculated by using the number of years applicable.

APPENDIX V

Interest Rate Risk (IRR)

An institution's capital charge for "Interest Rate risk" is calculated as 15% of the exposure to interest rate risk. The Corporation's Guidance Note on "Structural (Interest Rate) Risk Measurement and Measurement" provides techniques and criteria to be used by Class 2 institutions to measure the potential IRR impact, expressed in dollars.

Example: Interest Rate risk exposure. Largest amount that results in a negative impact on earnings. Calculated as $25,000 (K)	**O.Reg 76/95 as amended to O.Reg 560/06** **Paragraph 15(12)**
The capital charge for interest rate risk 15% of $25,000 = **$3,750 (J)**	$J = K \times 0.15$

Lignes Directrices Relatives à la Suffisance du Capital des Caisses Populaires et *Credit Unions* de L'Ontario le 1er février 2007

1. INTRODUCTION

Ces deux dernières années, le ministère des Finances, en collaboration avec la Commission des services financiers de l'Ontario et la Société ontarienne d'assurance-dépôts, a travaillé de concert avec des représentants des caisses populaires et *credit unions* à la modernisation de la *Loi de 1994 sur les caisses populaires et les credit unions*. Cet examen a abouti à l'élaboration de nouvelles règles sur la suffisance du capital et le prêt qui sont entrées en vigueur le 1er février 2007. Le présent document décrit, à l'attention des caisses populaires et des *credit unions* de l'Ontario, les nouvelles règles en matière de suffisance du capital qui ont été mises en place par le Règlement de l'Ontario 560/06, qui a modifié le Règlement 76/95. Les lignes directrices posent la base des règles que doivent suivre les caisses populaires et les credit unions pour maintenir un capital suffisant en vertu de la loi et des règlements.

Le présent document remplace les Lignes directrices relatives à la suffisance du capital des caisses populaires et credit unions de l'Ontario qui ont été publiées pour la première fois le 1er mars 1995. Le terme « institutions » dans le présent document renvoie aux caisses populaires et *credit unions*.

1.1 Survol des principaux changements

Catégorie 1 et catégorie 2

Depuis le 1er février 2007, toutes les institutions sont désignées comme appartenant à la catégorie 1 ou à la catégorie 2 selon les critères suivants :

Catégorie 1 – Les institutions de cette catégorie sont des caisses populaires plus petites, moins complexes, dont l'actif total est inférieur à 50 millions de dollars et qui ne consentent pas de prêts commerciaux. Ces institutions sont assujetties à des limites quantitatives prescrites par règlement pour chaque catégorie de prêt qu'elles consentent. Ces limites ont été mises à jour dans deux tables révisées, contenant les limites individuelles et les limites consolidées. Ces institutions sont assujetties uniquement à la norme simple du capital connue sous le nom de norme du ratio de levier. Les nouvelles règles simplifiées maintiennent le même degré d'efficacité et de protection du consommateur, sans imposer d'exigences réglementaires complexes qui exigent des mécanismes de conformité compliqués.

Catégorie 2 – Les institutions de cette catégorie sont des caisses populaires dont l'actif total est supérieur ou égal à 50 millions de dollars et qui consentent des prêts commerciaux. Ces institutions sont tenues d'établir des limites de prêt prudentes pour chaque catégorie de prêts qu'elles consentent (p. ex., commerciaux, personnels, etc.) Ces institutions sont assujetties à deux normes de suffisance du capital : la norme du ratio du capital à l'actif (norme du levier) et la norme du ratio du capital à l'actif à risques pondérés fondé sur des normes internationales connues sous le nom de la norme de l'accord de Bâle ("Basel II").

Passer de la catégorie 1 à la catégorie 2

L'institution devient une institution de catégorie 2 lorsque son actif total, tel qu'il figure sur ses états financiers vérifiés les plus récents, est supérieur à 50 millions de dollars. Conformément au règlement relatif aux politiques de prêt et aux manuels de procédure, il faut se préparer lorsque l'actif total approche la barre des 50 millions de dollars et l'institution devra se conformer aux règlements en matière de prêt régissant les institutions de la catégorie 2. Une institution peut également devenir une institution de la catégorie 2 si elle demande au surintendant l'autorisation de consentir des prêts commerciaux, à condition de remplir les exigences prescrites dans le règlement. Le changement se produira aussi si l'actif combiné d'institutions fusionnant dépasse 50 millions de dollars. Une fois qu'une institution devient une institution de la catégorie 2, elle ne peut plus revenir à la catégorie 1 en réduisant son actif total à moins de 50 millions de dollars ou en cessant de consentir des prêts commerciaux.

Changements dans le calcul du capital réglementaire

- Outre l'achalandage, toutes les immobilisations incorporelles doivent être déduites du capital de catégorie 1. Auparavant, seul l'achalandage était déduit.
- Certaines parties de la provision pour pertes sur prêts doivent être incorporées dans le capital réglementaire.

Ratio du capital à l'actif à risques modérés

Ce ratio applicable aux institutions de catégorie 2 comprend désormais : une plus faible pondération des risques pour les prêts commerciaux peu élevés, une pondération des risques plus élevée pour certains prêts en retard, une différente pondération des risques pour les prêts commerciaux avec une cote de la solvabilité établie par une agence d'évaluation du crédit précisée, des frais proportionnels exigés pour les risques opérationnels afférents à une marge financière moyenne et un revenu non productif d'intérêt au cours des trois derniers exercices financiers de l'institution et des frais proportionnels exigés pour l'exposition de l'institution au risque de taux d'intérêt.

2. Suffisance du capital

Les institutions sont tenues de se conformer aux normes relatives à la suffisance du capital prescrites par les règlements ainsi qu'aux présentes lignes directrices. À cette fin, le surintendant a établi des normes minimales. La **première** exige un niveau minimal de capital relativement à l'actif total d'une unité pour toutes les institutions. La **deuxième** se focalise sur le risque de crédit des catégories d'actifs figurant au bilan et hors bilan applicable uniquement aux institutions de la catégorie 2.

De même, les fédérations sont tenues de satisfaire aux normes de suffisance du capital prescrites par les règlements ainsi qu'aux présentes lignes directrices. À cette fin, le surintendant a établi pour les fédérations **une seule** norme minimale à 5 % : ratio du capital à l'actif. Cette norme énonce une mesure générale de la suffisance du capital d'une fédération par rapport à son actif.

Les institutions doivent se conformer aux exigences en matière de suffisance du capital à la fois sur une base individuelle (c.-à-d., l'entité légale) et sur une base consolidée, sous réserve d'une autorisation contraire du surintendant. On entend par « base consolidée » toutes les filiales d'une institution au sens de la *Loi de 1994 sur les caisses populaires et les credit unions*, L.O.1994, à l'exception des filiales de compagnies d'assurance ou d'autres institutions financières réglementées dont l'effet de levier est inadéquat pour une institution acceptant des dépôts et qui, en raison de leurs dimensions, auraient un effet important sur l'entité consolidée.

2.1 Ratio du capital à l'actif (norme du ratio de levier)

La norme du ratio de levier s'applique aux institutions des catégories 1 et 2. Ce ratio se calcule en divisant le capital total de l'institution par son actif total. Les niveaux de capital requis sont énoncés à la partie V du règlement pris en application de la Loi.

Norme du levier

C'est le capital réglementaire exprimé en pourcentage de l'actif total. Le ratio minimal pour les institutions de la catégorie 1 sera de 5 %. Le ratio de levier minimal pour les institutions de la catégorie 2 diminuera, passant de 5 % à 4 %, au cours des trois prochaines années.

2.2 Capital en fonction des risques (norme BIS II)

La norme des risques pondérés (applicable uniquement aux institutions de la catégorie 2)

Le ratio BIS II est de 8 %. Il est calculé en assignant des valeurs à risques pondérés pour tous les éléments d'actif des institutions et les risques opérationnels et risques de taux d'intérêt applicables.

Dans le cadre des règles de suffisance du capital axées sur les risques, le capital minimal requis d'une institution financière est défini sous la forme d'un ratio obtenu en divisant le capital total (**le numérateur**) par l'actif à risques pondérés et les éléments hors bilan à risques pondérés (**le dénominateur**). De manière générale, la pondération des risques se fonde sur une évaluation de la contrepartie ou, si c'est pertinent, sur une évaluation de la caution ou du bien cédé en garantie. La réglementation et les lignes directrices ont été modifiées afin d'y incorporer une pondération des risques différente pour certaines catégories et inclure le risque opérationnel et le risque de taux d'intérêt. Les lignes directrices pourraient être ultérieurement modifiées par le surintendant de manière à prendre formellement en considération d'autres risques (position, taux de change).

2.3 Paiement de dividendes

Le surintendant peut, conformément aux modalités de la dérogation accordée, restreindre la capacité d'une caisse de payer des dividendes. En règle générale, le surintendant exerce son pouvoir discrétionnaire en fonction des critères suivants : si le ratio du capital à l'actif à risques pondérés ou le ratio du capital à l'actif est inférieur au niveau prescrit, il est interdit à la caisse de verser des dividendes en espèces, mais le versement de dividendes en actions est autorisé.

Même si les lignes directrices ne prescrivent pas un niveau minimal de bénéfices non répartis, le surintendant continue de considérer les bénéfices non répartis comme la forme de capitalisation à privilégier. Lorsqu'une institution verse un dividende à même les bénéfices des exercices précédents, le surintendant peut juger que cette pratique est susceptible d'entraîner une insuffisance de capital et une dégradation de la situation financière de l'institution, et peut alors exercer le droit discrétionnaire qui lui est conféré par le paragraphe 85 (1) de la Loi et exiger une augmentation de la capitalisation. Aux fins du calcul de la suffisance du capital pour le rachat d'actions et le paiement de dividendes y compris les ristournes, le cumul des éléments qui ne transitent pas par le compte de résultat ne doit pas être inclus dans le capital réglementaire.

2.4 Exigences applicables aux fédérations en matière de suffisance du capital

Toutes les fédérations sont tenues de respecter un ratio donné de capital à l'actif. Le ratio du capital à l'actif est calculé en divisant le capital total de la fédération par son actif total. Le niveau requis de capital est décrit à la partie V du règlement pris en application de la Loi et au règlement 77/95.

Les fédérations ne seront pas tenues de respecter une norme relative au capital en fonction des risques. Toute fédération qui ne répond pas aux exigences en matière de suffisance du capital doit obtenir une dérogation du surintendant. Dans cette dérogation, le surintendant peut fixer des cibles annuelles pour la fédération. Une fédération qui n'atteint pas ces cibles ne sera pas autorisée à verser des dividendes en espèces, mais pourrait être autorisée à verser des dividendes en actions.

2.5 Calcul du ratio du capital à l'actif

Toutes les institutions et fédérations seront tenues de maintenir le niveau prescrit de capital tout au long de l'exercice financier. Toutefois, aux fins de la vérification du respect de cette exigence sur la foi des états financiers vérifiés soumis à la fin de l'exercice, une correction pourrait être apportée à l'actif total à la condition suivante :

Lorsqu'une institution ou une fédération reçoit un afflux de dépôts inhabituellement important (de nature à l'empêcher de respecter le ratio capital-actif prescrit) dans les cinq derniers jours ouvrables de son exercice financier, elle peut déduire de son actif total le montant de ces dépôts. On entend par montant de ces dépôts, le montant net après déduction des retraits effectués au cours de la même période.

3. DÉFINITION DE CAPITAL

La définition du capital d'une institution aux fins de déterminer la suffisance de son capital repose sur trois éléments essentiels :

1. sa permanence;

2. l'absence de frais fixes obligatoires à même les bénéfices;

3. sa subordination, sur le plan juridique, aux droits des déposants et des autres créanciers de la caisse populaire.

Remarque : Les concepts de « permanence », d'« absence de frais fixes obligatoires » et de « subordination » sont définis plus en détail à l'annexe I.

Le capital total est divisé en deux catégories. Le capital de la **catégorie 1** (le « capital de base ») est celui de la qualité la plus élevée. Le capital de la **catégorie 2** (le « capital supplémentaire ») ne répond pas au critère de permanence ou n'est pas entièrement libre de frais fixes, mais il contribue à la vitalité globale de l'institution financière à long terme. Les actions de la catégorie 1 ou de la catégorie 2 peuvent comporter une caractéristique qui permet leur rachat au décès ou à l'expulsion du sociétaire sans que ne soit modifiée pour autant leur appartenance à la catégorie 1 ou à la catégorie 2. les éléments de capital de la catégorie 1 et de la catégorie 2, ainsi que les différentes limites, restrictions et déductions auxquelles ils sont assujettis sont précisés dans les pages qui suivent.

3.1 Capital de la catégorie 1

Seuls les éléments de capital suivants appartiennent à la catégorie 1 :

- l'avoir des sociétaires, qui comprend les parts sociales des sociétaires, le surplus d'apport, les réserves et les bénéfices non répartis ;
- 90 % des actions admissibles à dividendes non cumulatifs autres que les parts sociales émises et en circulation (lorsque ces actions comportent une clause de rachat correspondant à 10 %);
- 100 % des actions admissibles à dividendes non cumulatifs émises et en circulation autres que les parts sociales (lorsqu'aucune caractéristique de rachat n'existe) (voir annexe I);
- les participations minoritaires admissibles dans des filiales découlant de la consolidation des éléments de capital de la catégorie 1;
- les placements effectués par la Société ontarienne d'assurance-dépôts ou un organe de stabilisation sur approbation du surintendant .

3.2 Capital de la catégorie 2

Un élément du capital appartient à la catégorie 2 s'il possède un élément de permanence et certaines caractéristiques à la fois des actions et des titres de créance. La valeur globale des éléments du capital qui peuvent être inclus au capital de la catégorie 2 ne peut excéder 100 % du capital de la catégorie 1.

Le capital de la catégorie 2 inclut les éléments qui suivent :

Les éléments de capital qui, au minimum, possèdent les caractéristiques suivantes :

- 10 % des éléments de capital de la catégorie 1 rachetables au gré du porteur et qui n'ont pas été rachetés;
- 90 % des éléments de capital émis et en circulation possédant un pouvoir libératoire de 10 %;
- 90 % de la portion non amortie des actions rachetables admissibles et des débentures qui y sont subordonnées;
- 100 % des éléments de capital non rachetables au gré du porteur;
- 100 % des éléments de capital qui peuvent être rachetés par la caisse populaire après un terme initial de cinq ans;
- les éléments de capital disponibles pour couvrir des pertes sans mettre fin aux opérations continues ni déclencher des procédures pour insolvabilité;
- les éléments de capital susceptibles de permettre le report des obligations relatives au service de la dette (comme les actions privilégiées à dividendes cumulatifs) si le service de la dette risque de nuire à la rentabilité de la caisse populaire ou de la *credit union*;
- les éléments de capital non garantis, subordonnés aux droits des déposants et des autres créanciers de la caisse populaire et qui sont entièrement payés;
- le capital de la catégorie 2 comprend aussi toute allocation pour pertes sur prêts supérieure à une allocation pour pertes sur prêts précisée allant jusqu'à :
  - 0,75 % de l'actif total de la caisse populaire (ratio/norme du levier).
  - 1,25 % de l'actif à risques pondérés pour la caisse populaire (ratio/norme BIS).

3.3 Garantie de capital des fédérations

Lorsqu'une fédération ou un autre organisme fournit une garantie de capital que le surintendant estime satisfaisante, le montant de cette garantie est déduit du montant du capital de la fédération en question.

3.4 Participations minoritaires admissibles

Les participations minoritaires découlant de la consolidation des états financiers d'une institution avec ceux de ses filiales sont incluses soit au capital de la catégorie 1 soit au capital de la catégorie 2, à condition que :

- les instruments respectent les critères applicables à la catégorie visée;
- ces instruments soient subordonnés aux droits des déposants de l'institution .

Si une filiale émet des instruments en vue de financer la caisse populaire mère ou des instruments d'une valeur qui dépasse substantiellement ses propres besoins, les conditions de l'émission, ainsi que les transferts intersociétés, doivent garantir que les sociétaires sont placés dans la même position que si les instruments étaient émis par la caisse populaire réglementée afin que ces instruments soient admissibles à titre de capital réglementaire au moment de la consolidation.

3.5 Déductions et corrections

Entre autres déductions à effectuer du capital de la catégorie 1, mentionnons :

- l'achalandage, à moins qu'il ne soit inconditionnellement garanti;
- tout autre actif incorporel désigné

- Remarque : Cette règle s'applique aux actifs incorporels identifiés qui ont été achetés **directement ou acquis** au moment de l'acquisition d'une entreprise ou après. Il peut notamment s'agir des éléments suivants : marques de commerce, actifs incorporels des dépôts de base, droits relatifs à l'administration des titres hypothécaires et relations sur carte de crédit achetées. Les actifs incorporels identifiés comprennent ceux qui se rapportent à des filiales non consolidées et à des filiales dégroupées à des fins de capital réglementaire.

Entre autres déductions à effectuer du capital de la catégorie 1 et de la catégorie 2, mentionnons :

- les augmentations d'évaluation;
- l'impôt sur le revenu recouvrable, qui ne peut être réalisé au moyen d'un report antérieur sur les années précédentes;
- les impôts reportés débiteurs qui ne seront pas réalisés au cours de l'exercice financier à venir;
- les placements dans des filiales non consolidées et dans d'autres sociétés qui sont comptabilisés suivant la méthode de la comptabilisation à la valeur de consolidation ainsi que les émissions d'actions entre deux ou plusieurs institutions financières qui constituent, directement ou indirectement, des investissements mutuels entre institutions.

4. ACTIF À RISQUES PONDÉRÉS

4.1 Éléments au bilan

Aux fins du calcul du dénominateur du ratio du capital à l'actif à risques pondérés, l'actif d'une institution et les éléments hors bilan comportant un risque de crédit sont répartis selon des catégories de risque prescrites dans le règlement. En règle générale, la classification est effectuée en fonction de la nature de la contrepartie ou, s'il y a lieu, de la caution ou du bien en nantissement.

Les montants inclus dans ces catégories sont multipliés par un facteur de pondération du risque pour la catégorie et le total des valeurs pondérées résultantes constitue l'actif à risques pondérés total.

La valeur d'éléments d'actif comme l'achalandage, les immobilisations incorporelles, les placements dans des sociétés comptabilisées selon la méthode de la comptabilisation à la valeur de consolidation ou encore les valeurs mobilières qui ont fait l'objet d'investissements mutuels et qui sont déduites du capital ont un facteur de pondération des risques de 0 %. Lorsque l'achalandage a été garanti sans condition, il ne sera pas déduit du capital de la catégorie 1.

Certaines catégories de biens en nantissement (liquidités, titres gouvernementaux et hypothèques résidentielles) seront reconnues aux fins de réduire le risque bancaire des créances. On affecte à la portion d'une créance couverte par une garantie, le facteur de pondération accordé aux biens en nantissement. Toutefois, les biens en nantissement doivent représenter plus de 25 % de la valeur du prêt et la caisse populaire ou *credit union* doit, à l'interne, inscrire ces prêts dans ses registres comptables.

4.2 Éléments hors bilan (voir annexe II)

La valeur nominale d'un élément hors bilan ne tient pas toujours compte du risque de crédit qu'il représente. Afin de calculer approximativement l'exposition possible au risque de crédit, la valeur nominale de l'instrument doit être multipliée par un facteur de conversion afin d'obtenir un facteur d'équivalence de risque de crédit. De manière générale, les facteurs de conversion en équivalence de risque de crédit sont les suivants :

- 100 % des substituts directs de crédit;
- 0 % de la portion non utilisée des engagements dont l'échéance initiale est d'un an ou moins, ou qui sont annulables sans condition en tout temps (comme c'est le cas des marges de crédit habituelles).

Le facteur d'équivalence de risque de crédit résultant est ensuite traité de la même manière qu'un élément au bilan. On lui affecte ensuite le facteur de pondération approprié en fonction de la contrepartie ou, s'il y a lieu, en fonction de la caution ou du bien en nantissement.

Un engagement suppose une obligation (avec ou sans clause de désistement suite à un changement négatif important ou une clause semblable) de la part d'une institution de procurer à ses membres les fonds nécessaires dans le cadre normal des affaires si les membres décident d'encaisser l'engagement pris. Normalement, un engagement suppose la conclusion d'un contrat ou d'un accord écrit ainsi que des frais d'engagement ou une autre forme de contrepartie.

4.3 Prêts commerciaux

Un facteur de pondération des risques de 75 % est attribué à tous les prêts commerciaux consentis lorsque la somme de tous les prêts commerciaux ne dépasse pas le moindre de 0,035 pour cent de l'actif total de la caisse et de 1,25 million de dollars (disposition 3 du paragraphe 15 (5)). Le pourcentage de pondération des risques est de 100 % pour les types de prêts commerciaux autres que ceux visés à la disposition 3 du paragraphe 15 (5), à moins qu'une pondération différente ne s'applique en fonction de l'évaluation de la solvabilité effectuée par une agence externe d'évaluation du crédit approuvée. Pour les taux applicables, voir l'annexe III. Le pourcentage de pondération des risques pour les prêts qui ne sont pas visés par la disposition 1 du paragraphe 15 (7) est de 150 %.

4.4 Risque opérationnel (Règlement, paragraphe 15 (9))

Le montant afférent au risque opérationnel est calculé en fonction de la marge financière moyenne et du revenu non productif d'intérêt au cours des trois derniers exercices, à l'exception de tout exercice au cours duquel la marge financière, lorsqu'ajoutée au revenu non productif d'intérêt, ne dépassait pas zéro. Pour un exemple du calcul, voir l'annexe IV.

4.5 Risque de taux d'intérêt (Règlement, paragraphe 15 (12))

Le montant afférent au risque de taux d'intérêt pour l'exposition de l'institution au risque de taux d'intérêt. Un exemple figure à l'annexe V.

ANNEXE I

Actions autres que les parts sociales (catégorie 1)

D'autres types d'actions peuvent être admissibles comme éléments de capital de la catégorie 1 selon leur **forme** et leur **substance**. Facteurs à prendre en considération :

- subordination;
- permanence relative;
- absence de frais fixes obligatoires.

Subordination

Ces actions doivent être subordonnées aux droits des déposants et créanciers non garantis de l'institution. Si des actions sont émises par une filiale afin de financer la société mère réglementée et qu'on désire qu'elles soient admissibles au capital (participation minoritaire), les conditions de l'émission ainsi que les transferts intersociétés doivent faire en sorte que les investisseurs se trouvent dans la même situation que si l'instrument avait été émis par la société mère réglementée.

Permanence

Pour qu'elles aient le caractère de permanence requis, les actions ne peuvent pas :

- être encaissables par anticipation par le porteur, sauf en cas de décès ou d'expulsion d'un membre;
- comporter d'obligation pour l'émetteur de racheter plus de 10 % des actions en circulation.

Par exemple, une émission ne serait pas considérée comme étant à dividendes non cumulatifs si elle possédait une caractéristique de conversion de nature à contrebalancer la non-déclaration de dividendes. De même, une caractéristique de conversion qui prévoirait un remboursement de capital ou une autre forme de compensation pour les dividendes non payés serait inacceptable.

Absence de frais fixes obligatoires

Les actions incluses aux éléments de capital de la catégorie 1 ne peuvent pas offrir ni l'un ni l'autre des avantages suivants :

- dividendes cumulatifs;
- compensation autre qu'un dividende aux actionnaires;
- fonds de rachat ou d'amortissement.

En outre, le fait de ne pas déclarer un dividende ne peut déclencher l'imposition de restrictions à la caisse populaire ou au *credit union* outre que celle d'exiger l'approbation des actionnaires avant de payer des dividendes ou de rembourser d'autres actions.

Conformément à la pratique généralement acceptée, advenant la non-déclaration d'un dividende, l'approbation des actionnaires peut être demandée avant :

1) de payer des dividendes sur toute action de rang inférieur à celui des actions (outre les dividendes en actions de rang inférieur à celui des actions);
2) de racheter, d'acheter ou de retirer autrement toute action de rang inférieur à celui des actions (sauf si ce rachat est effectué à même le produit net d'une émission d'actions substantiellement concurrente d'actions de rang inférieur à celui des actions);
3) de racheter, d'acheter ou de rembourser autrement tout nombre d'actions inférieur au nombre total d'actions de cette catégorie;
4) de racheter, d'acheter ou de rembourser autrement toute action de rang égal à ces actions sauf si cela est conforme aux dispositions attachées à une série d'actions prévoyant une obligation d'achat, un fonds d'amortissement, un privilège d'encaissement par anticipation ou un rachat obligatoire.

Exemple de caractéristiques acceptables

Voici quelques-unes des caractéristiques qui peuvent être acceptables pour des actions ayant la qualité d'éléments de capital de la catégorie 1 :

- Un dividende qui varie en fonction d'un indice ou du plus élevé de plusieurs indices pour autant que cet indice ou ces indices soient liés aux taux généraux du marché et non à la situation financière de la caisse populaire ou *credit union*;
- Un taux de dividende qui est fixe pendant un certain nombre d'années, puis passe à un taux qui varie en fonction d'un indice, plus un montant additionnel lié à l'augmentation des dividendes en actions si l'indice n'est pas lié à la situation financière de la caisse populaire ou *credit union* et si l'augmentation n'est pas automatique, ni de nature « explosive »;
- La conversion d'actions en une autre catégorie d'actions si la valeur minimale de conversion ou la manière dont cette valeur doit être calculée est établie à la date de l'émission.

Exemples de caractéristiques inacceptables

Voici quelques exemples de caractéristiques qui ne seraient pas acceptables pour des éléments de capital de la catégorie 1 :

- Une action à taux « explosif » dont le taux de dividende est fixe ou variable pendant une certaine période, puis augmente subitement à un niveau considérablement plus élevé et non justifié économiquement selon les conditions du marché;

- Une action au taux de dividende fondé sur les taux au moment des enchères, dont le taux de dividende est recalculé périodiquement en fonction, en tout ou en partie, de la situation financière de l'institution.

Amortissement

Les éléments de capital de la catégorie 2 sont assujettis à un amortissement linéaire au cours des cinq dernières années avant leur échéance ou suivant les dates régissant la prise d'effet du droit à l'encaissement par anticipation des participants. Ainsi, à mesure que les actions rachetables et les débentures subordonnées de la caisse populaire ou *credit union* ou les participations minoritaires et les instruments admissibles émis par une filiale arrivent à la date d'échéance ou de rachat, les soldes en cours doivent être amortis de la manière qui suit :

Nombre d'années avant l'échéance	Inclus au capital
5 ans ou plus	100 %
Moins de 5 ans ou plus de 4 ans	80 %
Moins de 4 ans ou plus de 3 ans	60 %
Moins de 3 ans ou plus de 2 ans	40 %
Moins de 2 ans ou moins d'un an	20 %
Moins d'un an	0 %

De même, en ce qui concerne les éléments de capital qui comportent un fonds d'amortissement, l'amortissement du montant versé dans ce fonds devrait commencer cinq ans avant que le paiement soit effectué. Cette mesure est requise parce que le montant versé dans le fonds d'amortissement n'est pas subordonné aux droits des déposants.

ANNEXE II

Catégories d'éléments hors bilan

Les définitions figurant dans la présente section s'appliquent aux engagements hors bilan.

Substituts directs de crédit (facteur de conversion de 100 %)

Les substituts directs de crédit comprennent les garanties ou les instruments équivalents supportant financièrement des créances. Avec un substitut direct de crédit, le risque de perte encouru par une caisse populaire ou *credit union* dépend entièrement de la solvabilité de la contrepartie.

Les substituts directs de crédit comprennent notamment :

- les garanties données par l'institution au nom des sociétaires de prendre à son compte les obligations financières d'un sociétaire et de respecter ses obligations si le sociétaire devait y faire défaut. Voici quelques exemples de garanties de ce genre :
  - créances existantes pour services reçus;
  - ententes d'achat;
  - baux, remboursement de prêts ou d'hypothèques;
  - chèques certifiés;
  - taxes de vente au gouvernement;
  - créances existantes pour de la marchandise achetée ;
  - paiement des engagements de retraite non capitalisés;
  - réassurance des obligations financières.
- les lettres de crédit de soutien ou autres obligations irrévocables équivalentes, faisant office de garanties financières, comme des lettres de crédit soutenant l'émission d'effets de commerce.
- la participation au risque dans l'acceptation des banquiers et la participation au risque dans des lettres de crédit financières. La participation au risque constitue la garantie, par les institutions participantes, qu'en cas de défaut par le débiteur principal, elles indemniseront l'institution qui vend à l'égard du montant intégral du capital et de l'intérêt qui s'y rapporte; les transactions de prêt de valeurs mobilières, lorsque l'institution est responsable envers son client de toute omission de recouvrer les titres prêtés; les produits dérivés de crédit autorisés lorsqu'une institution vend des outils de protection de crédit.

ANNEXE III

Table des cotes de solvabilité à long terme pour les prêts commerciaux

Dans la plupart des cas, les prêts commerciaux visés à la disposition 1 du paragraphe 15 (6) ont une pondération des risques établie à 100 % à moins qu'une cote de solvabilité établie par une agence externe d'évaluation précisée ne soit applicable.

Voici les facteurs de pondération des risques qui s'appliquent aux prêts commerciaux qui représentent plus de 0,035 % de l'actif total de l'institution et 1,25 million de dollars, selon le paragraphe 15 (8) du règlement, lorsqu'une cote de solvabilité telle que précisée est applicable.

Risques pondérés %	DBRS	S&P/FITCH	Moody's
20	AAA à AA (faible)	AAA à AA -	Aaa à Aa3
50	A (élevé) à A (faible)	A+ à A-	A1 à A3
100	BBB (élevé) à B (faible)	BBB+ à B-	Ba1 à B3
150	CCC	Au-dessous de B-	Au-dessous de B3

ANNEXE IV

Risque opérationnel

L'exigence de fonds propres d'une institution au titre du risque opérationnel est calculée comme représentant 15 pour cent du montant moyen net du revenu d'intérêts, majoré de ses revenus autres que des revenus d'intérêts au cours des trois derniers exercices. Un exemple simple du calcul figure ci-dessous.

Exemple : Le revenu d'intérêts net et tous les revenus autres que des revenus d'intérêts, pour les exercices 1, 2 et 3, atteignent 100 000 $, 125 000 $ et 150 000 $ respectivement.	**Règl. de l'Ontario 76/95 modifié jusqu'au Règl. de l'Ontario 560/06** **Paragraphe 15 (10) :**
La moyenne calculée sur trois exercices est [100 000 $ + 125 000 $ + 150 000 $] ÷3 = 125 000 $	$\frac{E+F+G}{H}$
L'exigence de fonds propres au titre du risque opérationnel est donc : 15 % de 125 000 $ = **18 750 $(D)**	$D = [(E+F+G)/H] \times 0,15$

Remarque : Pour les périodes de moins de trois exercices, la moyenne est calculée en utilisant le nombre d'exercices applicables.

ANNEXE V

Risque de taux d'intérêt

L'exigence de fonds propres d'une institution au titre du risque de taux d'intérêt est calculée comme représentant 15 % de l'exposition au risque de taux d'intérêt. Le document de la SOAD intitulé « Note d'orientation - Mesure et gestion du risque structurel (risque de taux d'intérêt) Caisses populaires de catégorie 2 » contient des techniques et des critères que les institutions de la catégorie 2 peuvent utiliser pour mesurer l'impact potentiel du risque de taux d'intérêt, exprimé en dollars.

Exemple : Exposition au risque de taux d'intérêt. Montant le plus élevé qui cause un impact négatif sur les bénéfices. Calculé comme étant 25 000 $ (K).	**Règl. de l'Ontario 76/95 modifié jusqu'au Règl. de l'Ontario 560/06** **Paragraphe 15 (12)**
L'exigence de fonds propres au titre du risque de taux d'intérêt est donc : 15 % de 25 000 $ = **3 750 $ (J)**	$J = K \times 0,15$

(2) A person is exempt from the requirement to obtain a work permit if the person erects a portable hunting blind or portable tree stand in a wildlife management unit no more than seven days prior to the beginning of the hunting season prescribed for that management unit by Ontario Regulation 670/98 (Open Seasons — Wildlife) made under the *Fish and Wildlife Conservation Act, 1997*, and removes the hunting blind or tree stand no more than seven days after the end of the hunting season.

(3) An application for a work permit shall be on a form provided by the Ministry.

Display of permit and validity

2. (1) A holder of a work permit shall post the permit in a prominent place where the work authorized by the permit is being performed.

(2) A work permit is valid during the period and for the geographic area specified in the permit.

Cancellation or refusal to issue a work permit

3. (1) A park superintendent or conservation reserve manager may cancel a work permit if,

(4) After a reconsideration under subsection (2) or (3), the superintendent or conservation reserve manager shall notify the applicant or holder of the permit in writing of his or her decision and the reasons for it, and inform the applicant or holder of the permit of the right to appeal the decision, the person to whom submissions are to be made under subsection (5) and the address of that person.

(5) Within 15 days of the date of mailing of the decision and reasons, the applicant or holder of the permit may file written submissions,

(6) The zone manager, the Regional Director, or a delegate appointed by them for the purpose, shall consider any written submissions filed under subsection (5), after which he or she shall notify the applicant or permit holder of his or her decision.

(7) The decision under subsection (6) is final.

(8) A superintendent or conservation reserve manager may cancel a work permit under which work is being performed without giving the permit holder an opportunity to request a reconsideration under subsection (2) if,

(b) written notice of the cancellation, with reasons, is given to the holder.

(9) A superintendent or conservation reserve manager shall, immediately after cancelling a work permit under subsection (8), refer the matter for review to the zone manager or Regional Director, as the case requires, and the permit holder shall be given an opportunity to make written submissions on the review.

(Permis de vente d'alcool)

Remarque : Le Règlement 719 a été modifié antérieurement. Ces modifications sont indiquées dans le Sommaire de l'historique législatif des règlements qui se trouve sur le site www.lois-en-ligne.gouv.on.ca.

2. La disposition 6 du paragraphe 8 (2) du Règlement est modifiée par substitution de «personnes se trouvant sur le terrain» à «golfeurs» et par suppression de «de golf» à la fin de la disposition.

3. Les articles 20 et 20.1 du Règlement sont abrogés et remplacés par ce qui suit :

20. (1) Le titulaire d'un permis de vente d'alcool ne doit se livrer à aucune pratique susceptible d'encourager la consommation immodérée d'alcool de la part de clients ni permettre à quiconque de se livrer à une telle pratique.

(2) Sans préjudice de la portée générale du paragraphe (1), le titulaire de permis ne doit pas faire ce qui suit :

a) fournir gratuitement des consommations d'alcool;

b) permettre aux employés du local auquel s'applique le permis de fournir gratuitement aux clients des consommations d'alcool.

(3) Sans préjudice de la portée générale du paragraphe (1), le titulaire de permis ne doit ni mettre en vente, ni fournir des consommations d'alcool dont le prix d'achat total, y compris la taxe de vente au détail, la taxe sur les produits et les services et toutes les autres taxes applicables, est inférieur à deux dollars.

(4) Pour l'application du paragraphe (3), une consommation d'alcool correspond aux quantités suivantes, selon le type d'alcool :

2. 29 ml (1 once) de spiritueux.
3. 142 ml (5 onces) de vin.
4. 85 ml de vin fortifié.

(5) Si le titulaire de permis met en vente une consommation d'alcool dont la quantité est différente de celle que prescrit le paragraphe (4), l'augmentation ou la réduction de son prix minimal est directement proportionnelle à la différence.

(6) Le titulaire d'un permis de vente d'alcool qui s'applique à un local où la Société des loteries et des jeux de l'Ontario met sur pied et exploite une loterie est soustrait à l'application de l'alinéa (2) a) à l'égard de toute partie du local qu'approuve le registrateur des alcools et des jeux et où l'accès du public est restreint.

(7) Malgré les paragraphes (1) et (3), le titulaire de permis peut, lors d'une activité, offrir à un prix fixe un forfait comprenant la nourriture et l'alcool si les conditions suivantes sont réunies :

a) le titulaire de permis et l'organisateur de l'activité ont conclu un contrat écrit qui indique séparément le prix de la composante nourriture et celui de la composante alcool du forfait;

b) le prix de la composante nourriture est le juste prix et représente plus de 50 pour cent du prix total du forfait;

c) l'activité est destinée uniquement aux invités de l'organisateur, aucune publicité n'en est faite dans le grand public et elle n'est pas publique;

d) aucun droit n'est demandé aux personnes présentes pour l'admission à l'activité ou pour la nourriture ou l'alcool;

e) l'organisateur de l'activité ou son délégué demeure dans le local en tout temps pendant son déroulement;

f) la période de service gratuit des boissons alcoolisées ne dépasse pas huit heures;

g) le titulaire de permis, ses employés et ses gérants ainsi que le personnel chargé de la sécurité, à l'exception des agents de police de service rémunérés qui agissent à titre de personnel chargé de la sécurité lors de l'activité, ont terminé un cours de formation des serveurs approuvé par le conseil de la Commission;

h) le titulaire de permis conserve tous les contrats ayant trait à l'activité pendant un an au moins et, sur demande, les présente à une personne désignée en vertu de l'article 43 de la Loi ou à un agent de police.

(8) Malgré les paragraphes (1) et (3), si le local auquel s'applique le permis est un salon d'aéroport, un bateau ou une voiture de chemin de fer, le titulaire de permis peut mettre en vente à prix unique un forfait comprenant le coût d'un voyage et de l'alcool.

4. Le règlement est modifié par insertion de l'article suivant avant l'intertitre «CONDITIONS DES PERMIS DE VENTE D'ALCOOL» :

21.1 Le titulaire de permis ne doit pas avoir, dans le local pourvu d'un permis, d'appareil de type vaporisateur d'alcool sans liquide (AWOL) conçu et commercialisé pour vaporiser un mélange d'alcool et d'oxygène, ou d'alcool et d'un autre gaz, à inhaler, ni y permettre la présence d'un tel appareil.

7. Le Règlement est modifié par adjonction des articles suivants :

39. À compter du 1er janvier 2008, toutes les personnes qui sont alors titulaires de permis ou qui le deviendront par la suite veillent à ce que tous les gérants, toutes les personnes qui vendent ou servent de l'alcool et tout le personnel chargé de la sécurité qu'elles emploient obtiennent, dans les 60 jours qui suivent le début de leur emploi, un certificat indiquant qu'ils ont réussi le cours de formation des serveurs approuvé par le conseil de la Commission des alcools et des jeux de l'Ontario.

40. Le titulaire de permis veille à ce que lui-même et toute personne qui vend ou sert de l'alcool, a des fonctions de sécurité ou de gestion, y compris les gérants du local, aient réussi tout cours ou programme de formation lui correspondant, approuvé par le conseil de la Commission des alcools et des jeux de l'Ontario dans les délais que précise ce dernier.

b) l'adresse où l'activité aura lieu;

c) les date et heures auxquelles se déroulera l'activité;

d) le nombre de personnes attendues à l'activité;

e) les limites de l'aire où de l'alcool sera vendu et servi.

(2) Le paragraphe (1) ne s'applique pas à l'égard des activités qui se déroulent dans un local dont le titulaire de permis a le contrôle exclusif s'il donne au registrateur des alcools et des jeux un préavis de son intention de tenir des activités avec service de traiteur dans le local qui y est précisé.

(3) Le paragraphe (1) ne s'applique pas à l'égard des activités qui se déroulent dans des habitations.
